MOB HOOTS DIAZ AND STONES HIS PALACE

Feeling Against President of Mexico is Shown by the People of His Capital in Angry Outburst.

LIMANTOUR IS NEARING THE BORDER

LIMANTOUR NEARS BORDER.

San Antonio, Texas, March 18.— Mexican Finance Minister Jose Yves Limatour passed through here early today in his private car bound for Laredo. He evidently intends to go to Mexico City by rail.

San Antonio, Tex., March 18.—An American officer returning from Mexico City yesterday brought an authentic report of a demonstration against the person of President Diaz about two weeks ago which took the form of stoning the windows of the president's palace in the City of Mexico by a mob of insurrecto sympathizers.

The riot occurred about 9 o'clock in the evening when the streets about the official residence were filled with people. Without any prelude of excitement there was a movement of men and youths from the side streets in the vicinity of the palace as if by a concerted signal.

Shouting "Viva Madero," the rioters threw volleys of stones through the windows. The disturbances lasted about five minutes, said the informant.

Guests of the president in the palace became frightened, but the president remained cool and sent one of his aides out to the police to inquire why they did not stop the trouble. A number of arrests were made.

SOME HOT FIGHTING.

Presidio, Texas, March 17.—Via Marfa, Texas, March 18.—A number of casualties are reported in the resumption of insurrecto operations about the city of Ojinaga, where a federal command is supposed to be bottled up. While Col. Dorantes, second in command of the Ojinaga garrison, was on a tour of inspection, he was cut off by a rush of insurrectos and now he and eighty of his soldiers are surrounded in a group of houses more than a mile from the garrison. Likewise the insurrectos are said to have surrounded the garrison. The fighting is at close range. Fatalities have been limited, however. Seven federal soldiers were killed during the fighting and one insurrecto was mortally wounded.

Ojinaga has been cut off from supplies and water.

SHOT AS SPIES.

Mexicali, Mexico, March 18.—Felipe Rios, a Mexicali saloonkeeper, and an unidentified man were shot as spies by the insurrectos in the bull pen here last night. Papers from the Mexican government were found on Rios by the rebels, who charged the men with aiding a plan to re-take Mexicali from the American side.

The two condemned men were lined up against an adobe wall. A firing squad from the provost guard fired a volley and the bodies were rolled into holes in the ground. The executions were ordered by Francisco Quijada, rebel jefe politico of Mexicali, recently appointed by General Layva.

Frank Henera, who was also arrested, was found not guilty by the rebels and released.

GREAT MANEUVER CAMP WHERE UNCLE SAM'S SOLDIERS ARE WAITING FOR SOMETHING TO TURN UP.

THE FIFTEENTH INFANTRY MARCHING INTO FORT SAM HOUSTON.

BRIG. GEN. J.W. DUNCAN AND PART OF STAFF.

REGIMENT WILL GO TO HONOLULU

Troops That Make Bluff of Maneuver Duty Going to the Islands.

HOW IT IS EXPLAINED

Tucson, Ariz., March 18.—Having taken a round about course through San Antonio, Texas, as if headed for the army maneuvers, the Second United States infantry, under command of Colonel Mansfield, passed through Tucson today, en route to San Francisco, where the men will embark immediately for Honolulu. It is understood this will be an additional force for the Hawaiian islands and not to relieve other troops.

THE MOVE IS EXPLAINED.

Washington, March 18.—The Second infantry is being sent to Honolulu in accordance with a general order issued by Gen. Leonard Wood, chief of staff of the army, on November last. The two battalions of this regiment, which are now en route for San Francisco, will sail within a few days for the Hawaiian islands.

It was the original intention to send them March 5, but their departure was delayed by the sending of the Chinese relief expedition in the army transport Buford, no transport being available.

The third battalion of the Second infantry is now at Fort D. A. Russell, Wyoming, taking care of that post in the absence of its regular garrison in the south. This battalion will sail for Honolulu, June 5.

Two batteries of field artillery will sail for the islands on July 5. The one battalion of the Twentieth infantry, now at Honolulu, will return to the United States upon the arrival of the full regiment.

All this, it is pointed out at the war department is merely carrying out a plan worked out several months ago for increasing the inadequate garrison at Honolulu.

PRESIDENT'S MAN IS DEAD.

Oyster Bay, N. Y., March 18.—Noah Seaman, superintendent of the Sagamore Hill estate and for twenty years the close friend of his employer, Theodore Roosevelt, died late last night. Seaman, who was 53 years old was stricken with paralysis two weeks ago.

TAFT'S VACATION IS ALMOST ENDED

Will Go to Washington to Prepare for the Extra Session April 4.

MESSAGE IS SHORT

Augusta, Ga., March 18.—The president played the last golf game of his spring vacation on the links of the Country club today. Tomorrow afternoon he will start back for Washington. Mr. Taft has thoroughly enjoyed his rest. He has done his best to forget that there is such a thing in the world as work and has nearly succeeded. There will be, in consequence, a heavy accumulation of business awaiting him in Washington. He is in good condition to attack this work.

Message Will Be Short.

The president's message to the special session of congress to be convened on April 4 will be a brief one, if he follows his present inclination.

[Continued on Page Two.]

SHE THOUGHT HER HUSBAND BURGLAR

Mrs. Schenk in Chicago, is Dazed, But Tells That Much.

MYSTERIOUS KILLING

Chicago, March 18.—John Schenk, superintendent of the Parkridge branch of the Northeastern Gas Light and Coke company, was found shot to death early today in his home in Parkridge, a suburb, and the police announced several hours later that Mrs. Schenk had admitted she shot her husband, mistaking him for a burglar.

When police arrived at the house Mrs. Schenk was hysterical and required medical attention before she could make a coherent statement. At first she said she did not know who fired the two shots which entered her husband's body, but after becoming calmer she is reported by the police to have said:

"I had retired, after being up late to an entertainment, and was awakened by the sound of someone in the house. I was too frightened to call out, but went to see what it was, carrying a revolver. I saw a man move and I don't know how the gun became discharged. Then when I called to Mr. Schenk and he did not answer a suspicion came over my mind and I found I had killed him. It was a horrible mistake as we always have been very happy."

MUST NUMBER THEM.

Chief of Police Abbott today notified members of the Fort Wayne Motorcycle club that they must all get numbers and attach to their machines as the law requires. Little latitude will be allowed as most of the owners know the law but have neglected to comply with it.

ADVISED TO OBEY CHILD LABOR LAW

Manufacturers Counseled to Discharge Workers of Tender Years.

URGED NOT TO WAIT

Indianapolis, Ind., March 18.—Manufacturers, members of the Indiana Manufacturers' bureau, are in receipt of an analysis of the child labor law passed at the recent session of the general assembly and are advised by the legal department of the bureau to discharge any child in their employe who is within any of the prohibited age limits on or before April 1, 1911, without waiting for the law to go into effect.

The legal department also recommends that the manufacturers post notices in large type showing how old a person must be to be employed in their establishments. A bulletin, issued by the same department states that it believes the weekly wage law, also passed at the last session of the legislature, will be declared unconstitutional by the supreme court, when it is given an opportunity to rule upon the merits of the act.

Neither of the above laws contained an emergency clause and will not go into effect until the bound volumes of the acts have been distributed and the county clerks of the state have notified the secretary of state of their receipt.

COUNCIL MEETS AT 3 O'CLOCK A. M.

Indianapolis City Dads Are Made to Take Up $500 License Issue.

POLICE GET QUORUM

Indianapolis, Ind., March 18.—At a special session of the Indianapolis city council held at 3 o'clock this morning an ordinance fixing the saloon license fee for the city at $500 was introduced.

The special session of the council was called to meet at 7:30 o'clock last night but not enough members to constitute a quorum were present.

Those present waited in the city hall until midnight when the call for the night special session expired and a new call for a special session was issued and the sergeant-at-arms sent out police to round up the absent members.

The absentees were routed out of their beds and forced to attend the meeting, establishing a quorum and making the introduction of the saloon fee ordinance legal.

The ordinance increases the fee from $300, the present rate, to $500. An effort will be made to pass the ordinance at the regular session Monday night.

Mrs. Otto H. Uhlig, of Flushing, N. Y., arrived in the city Friday to attend the funeral of her brother, Robert Trebra, jr., which will be held tomorrow.

MILITIAMEN IN DISTRICT SHOOT

National Guard Infantrymen Hold Markmanship Competition.

TEAMS IN CONTEST

Rifle teams from four companies of the Indiana National Guard, as well as individual marksmen, are participating in a competitive marksmanship contest which began in the armory of Company D on Calhoun street this afternoon. The contests will not be completed until this evening. The companies represented are D, Third regiment, Fort Wayne; K, Third regiment, Auburn; G, Second regiment, Portland, and A, Third regiment, Albion.

Capt. J. L. Birely is range officer, with Capt. C. F. Driesbach as secretary, and Lieut. G. L. Sharp and Lieut. James R. Bird as assistants. The tests included slow fire at 200, 300 and 500 yards, individual matches and the contests between pistol teams. The range effect is produced by changing the character and size of the targets.

The Teams Entered.

The teams entered in the competition are:

Company A, Albion—Lieut. V. L. Clear, Sergt. Clarence Baldwin and Private Milo Snyder.

Company G, Portland—Capt. E. A. Fulton, Lieut. Zed Wright and Private James Miller.

Company K, Auburn—Lieut. Alf Moody, Sergt. Roy Lige, Corp. Charles Refner and Corp. Roy Rhodefer.

Company D, Fort Wayne—First team, Capt. C. F. Driesbach, Lieut. G. L. Sharp, Lieut. James R. Bird. Second team, Bruce Pigh, Earl Howard, Clyde Starkel.

In addition Capt. Fulton's Portland company was represented by ten men who purposed entering the individual matches. The list included Sergt. Roy Jones, Lieut. Zed Wright, Corp. Sherman Booher, Musician Lester Davis and Privates James Miller, Henry Mills, William Wright, Glen Kwis, Edward Loper and Ralph Thomas.

The national guardsmen had invited the Fort Wayne police department to send a pistol team to enter the contest, but the officers did not enter the competition.

H. L. PRENTISS RETURNS.

Has Been in London Representing W. M. Griffin Interests.

H. L. Prentiss, who in October last went with his family to London, England, to establish a mail order business for W. M. Griffin, of this city, is returning to America and will resume his residence here. The business in London has been sold to another concern, and Mr. Prentiss, with his wife and son, landed in New York Thursday morning on their return from Europe. They are expected to reach Fort Wayne Sunday.

CAMMORRIST TRIAL HALTED FOR TIME

After Hearing Testimony Against a Slayer a Rest is Taken.

COURT AT VITERBO

Viterbo, Italy, March 18.—The whole of today's session of the trial of the Camorrists was occupied with the cross examination of Nicola Morra, at the conclusion of which an adjournment was taken until Tuesday. Morra is one of the six of the thirty-six prisoners who are charged with the actual murder of Gennaro Cuoccolo and his wife. He was a frequenter of the Cuoccolo house, to which he gained ready entrance, after the husband had been killed in a suburb of Naples.

It is asserted that Morra and Corrado Sortino left their companions after the first murder and between them accomplished the death of the woman. Later they joined the other assassins at the home of Maria Stendardo, subsequently reporting the success of their mission to Enrico Alfano, the real head of the Camorra, who was dining at Mimi-a-Mare.

According to the prosecution Morca and Sortino beat Cuoccolo with sticks while the others stabbed him to death. Today the vile record of Morra, including his participation in the murders, was laid bare; the crown prosecutor introducing much evidence during the questioning.

Morra denied all the accusations made against him and roundly abused Gennaro Abbatemaggio, the informer, the latter maintained a derisive and otherwise impassive attitude as he heard the denunciation by his former partner in infamy.

NOVEL SIGHT IN LINTON.

Linton, Ind., March 18.—For the first time in fifteen years a negro is walking the streets of Linton and the unusual sight is causing considerable comment. A. T. Roberts, a negro connected with the railway mail service, arrived here last night and sought lodging, but owing to the prejudice against his race here he was unable to find accommodations. He took the matter good-naturedly, but had to appeal to the postoffice for aid.

KERN GOES TO BRYAN DINNER.

Indianapolis, Ind., March 18.—United States Senator John W. Kern left here today for Lincoln, Neb., where he will be one of the speakers at the William J. Bryan birthday dinner Monday night. Among the other speakers at the dinner will be United States Senator Robert Owens, of Oklahoma, and Gov. John F. Shafroth, of Colorado.

Ben Woodworth, who was operated on at Hope hospital Tuesday night, is reported to be improving and is safely passing the critical stage.

OFFICERS ASK A CHANCE TO WORK

Think Less Publicity Will Enable Them to Get Results

QUIET IN SHAW CASE

Officers engaged in the investigation of the Shaw murder case say that they believe better results can be accomplished by less publicity and they are working as hard as ever, but are keeping under cover with the results of their investigation.

If Walter Burdick has been located and examined on the watch proposition nothing has been said about it, but the police say that in a few days there may be some important developments, but are not ready to say what they expect to get hold of and what line of investigation they are following up.

In the meantime Joseph Thompson is waiting in jail for a trial on the charge of theft with a prospect that he will not have a hearing until the police and Prosecutor Thomas have satisfied themselves that he had no connection with the case.

R. C. Taylor, a Pennsylvania brakeman, sustained a bad contusion and abrasion of the left hand while trying to board a train this morning by his foot slipping on a rock, throwing him to the ground.

GET A REPLY FROM MEXICO

State Department Considers Case of American War Prisoners.

RELEASE OF FEW HAS BEEN ORDERED

Approaches to American Side of Bridges at El Paso Guarded.

Washington, March 18.—The reply of the Mexican government in regard to the dispute over the scene of capture of Edwin Blatt, of Pittsburg, and Lawrence Converse, of Glendora, Cal., who are held prisoners of war at Juarez, was delivered to the state department today by Senor De La Barra, Mexican ambassador. The contents of the note have not been made public.

The Mexican federal judge at Ciudad Porforio Diaz has decided to release Henry Whittle, the American, held in prison there on charges of connection with the revolution. Luther T. Ellsworth, American consul at Ciudad Porforio Diaz today telegraphed this information to the state department.

The plight of the American Smelting Securities company, of Mexico, was officially reported to the state department today by American Consul Freeman, at Durnago, who transmitted a report from the United States consular agent at Torreon, stating that unless relief is soon furnished all the plants of the company will close down This will throw 8,800 people out of employment and place 50,000 people in dire need by stopping of a pay roll of $80,000 a month at Velardina and Asarco.

EL PASO BRIDGES GUARDED.

El Paso, Texas, March 18.—All approaches to the bridges leading from the American side to Juarez, Mexico, were guarded today by three times the usual force of United States troops. Heretofore only a small detail has been signed to this duty, but at daybreak today tents had been set up along the edge of the river and an entire company of infantry was sent to patrol the bank between the two bridges which form the main arteries of traffic to Juarez.

Scores of Mexican soldiers came to the opposite river bank to look across at the United States troops. It was a typical frontier scene, where the army of one nation might exchange salutes with that of another, while each remained on its own soil.

An American who returned from the insurrecto territory today, said that Capt. Oscar G. Creighton, the American insurrecto leader, who, with a small force, had been destroying bridges along the Mexican National railroad, is still encamped in the hills a few miles south of Juarez.

Creighton's band, which is composed in large part of Americans, is suffering severe hardships, according to this man. The men, he declared, have often gone several days without food, and only the chance coming upon a steer has saved them from actual starvation.

EL PASO CANNON STOLEN.

El Paso, Texas, March 18.—Last night somebody stole the ancient brass cannon from City Hall park and it is reported that it was seen today being taken in the direction of the Mexican border. The cannon was used years ago by El Paso's famous McGinty club in celebrations and fired the salute to President Harrison when he visited El Paso. The gun had been spiked and was believed to be safe.

FIRST REGIMENTAL HIKE.

San Antonio, Texas, March 18.—The first regimental hike of the mobilized troops at Fort Sam Houston was made this morning when the 9th and 11th cavalry went on a practice march. The 11th started at 6 o'clock and the 9th left a half hour later, both returning at noon. The camp is now ready for the beginning of the actual maneuvers.

Gen. Carter has made an order regulating bugle calls. Reiville will be called at 5:50 o'clock, assembly at 6, tattoo at 8 p. m. and taps at 10 p. m. Within these limits brigade commanders will regulate calls for the respective brigades.

BANKNOTE RAISER ARRESTED.

Cleveland, Ohio, March 18.—The second arrest in the campaign being waged by the government against raiser of national bank notes was made last night when Secret Service Operative Peter Dick took into custody a man giving the name of Rada Guykits. He is said to be an accomplice of Milos Mendles, arrested here last Monday night.

It is claimed that the men raised bank notes of the denomination of $10 to $100 and passed them in this and other Ohio cities.

ACCEPTS NEW POSITION.

Gust Wunderlin, the well known florist, has accepted a position as head grower at the Lantenier green house, on Walton avenue. Mr. Wunderlin was employed for eight years at the Flick green houses and has since held a position at the Indiana school for feeble minded youth and has met with remarkable success in his previous positions.

FORT WAYNE'S HEALTH WEEK

Advance Outline of Great Program Beginning March 27.

LIST OF NOTED EXPERTS COMING

Wide Range of Topics for Discussion in Public Meetings.

An advance outline of the program for Fort Wayne's health week, which begins on Monday, March 27, was issued today by the committee of which Dr. Miles F. Porter is chairman, and it indicates that the city will have a wonderful opportunity for acquiring information regarding the conservation of health, the war on tuberculosis, public sanitation and kindred topics.

Included in the list of noted experts who will come to take part in the discussions of the week are Prof. H. E. Barnard, Indiana state chemist; Dr. J. N. Hurty, secretary of the state board of health; Prof. G. W. Butler, of Purdue university; Dr. Alice Hamilton, a gifted Fort Wayne woman now connected with Hull house at Chicago; Dr. Geisel, of Battle Creek; Prof. M. P. Ravenel, of the University of Wisconsin; Miss Lena Cooper, of Battle Creek, and Mrs. Caroline Bartlett Crane, of Kalamazoo. The program in outline is as follows:

Monday, March 27.

2:30 P. M.—Professor H. E. Barnard, Indianapolis; demonstrated talk upon "Simple Methods of Detecting Food Adulteration."

4:30 P. M.—Dr. J. N. Hurty, Indianapolis; Stereopticon Talk to School Children.

8:00 P. M.—Dr. J. N. Hurty, Indianapolis; Stereopticon Talk upon "Tuberculosis."

Tuesday, March 28.

2:30 P. M.—Prof. H. E. Barnard; "Women's Work in Home Economics and Pure Food."

8:00 P. M.—Prof. H. E. Barnard "Food Adulteration and Legislation."

Wednesday, March 29.

2:30 P. M.—Dr. J. N. Hurty; "Women's Responsibility in Physical Regeneration."

8:00 P. M.—Prof. G. W. Butler, Purdue University; "Should Tuberculosis in Cattle and Hogs be Considered Seriously to Stamp It Out?"

Thursday, March 30.

2:30 P. M.—Prof. G. W. Butler, Purdue University; "Tuberculosis as We Find It in Animals Slaughtered for Food Purposes."

8:00 P. M.—Dr. Alice Hamilton, Hull House, Chicago; "Industrial Diseases."

Friday, March 31.

2:30 P. M.—Dr. Geisel, Battle Creek, "Personal and Household Hygiene."

8:00 P. M.—Prof. M. P. Ravenel, Madison University, Wisconsin; "Tuberculosis—Transmission Through Milk and Meat."

Saturday, April 1.

2:30 P. M.—Miss Lena Cooper, Dietician, Battle Creek, Mich.; "Mal Nutrition and Indigestion—How It May be Corrected by Correct Food, Exercise and Living."

8:00 P. M.—Caroline Bartlett Crane, Kalamazoo, Mich.; "Municipal Sanitation—Its Relation to Public Health."

Meetings at Library Hall.

Save for the sessions in the schools, all the meetings will be held at Library hall, afternoons and evenings. The movement is under the auspices of the Anti-Tuberculosis society and kindred Fort Wayne organizations, and it is the desire that everybody take advantage of the opportunity to attend the meetings.

In line with the movement it is announced that the Eckart packing establishment will be open to public inspection on Thursday. A detailed program will be issued early in the coming week.

PLAGUE RAVAGES IN INDIA.

London, March 18.—During the month of February the deaths from plague in India reached the enormous total of 88,498.

The disease has become such a fixture in that country that its ravages are little heard of except through the occasional official statistics. The British India office reports that the epidemic is especially virulent this year and adds that the most persistent efforts to stamp it out has failed to effect a permanent improvement in the situation.

MRS. CLEVELAND GOES ABROAD.

New York, March 18.—Mrs. Grover Cleveland, widow of the former president, sailed for Europe today for a visit to her son, Richard, who is at school in Switzerland. With her was her son, Master Francis Cleveland. Another passenger was John Bigelow, the veteran diplomat and publicist, who is now 90 years old.

SENATOR STONE BETTER.

Kansas City, Mo., March 18.—Physicians attending United States Senator Wm. J. Stone, who is ill with grippe at the home of his son, Kimbrough Stone in this city, said today the senator's condition was greatly improved. He is still confined to his bed.

THE WEATHER.

Washington, March 18.—Forecast for Ohio: Unsettled in south, fair in north portion tonight, slightly colder; Sunday threatening and warmer; moderate northwest winds shifting to southwest by Sunday night.

Lower Michigan: Fair tonight, warmer in north and west portions; Sunday unsettled, probably snow in north portions; moderate variable winds becoming high south tonight and shifting to northwest Sunday.

Indiana: Fair tonight and probably Sunday; warmer in south portion Sunday; moderate variable winds becoming brisk and high south late tonight.

Illinois: Fair tonight, probably becoming unsettled Sunday; warmer in north and west portions tonight and in south portion Sunday.

PENNSYLVANIA IS ASKED TO HURRY

City Officials Have Reached Limit and Want to Settle Vacation.

COMMITTEE TO MEET

A letter has been written by the board of public works to the Pennsylvania company asking that the officers hustle a little in the matter of disposing of the questions that are tying up the completion of track elevation and saying that so far as the city is concerned all of the concessions that are to be made have already been outlined.

This whole matter hinges on whether the company will agree to proceed with the opening of Webster street under the law that may be in force at the time the work is taken up. There is a tendency to compel railroad companies to pay all costs of grade separation and in one instance it has been decided that it is incumbent on the corporation to bear this cost.

The company wants an agreement to operate under the present law and this is the big point of difference and the one from which the city will not recede. All of the others have practically been disposed of.

A meeting of the city council committees on track elevation and contracts and franchises with the board of public works has been called for next Tuesday night. This session has for its object a thorough canvass of the situation and in the course of the conference the board will explain just how far matters have proceeded and what the stumbling block is.

If the councilmen have any suggestions looking toward a speedy settlement the board will take advantage of, them but its members feel they have gone as far as the conditions justify and have reached the limit.

GIVES WOOD SAWING PARTY.

Herman Kahlenbeck entertained a number of friends with a wood sawing party at his home on the John Drehert farm Tuesday. The guests were served at dinner and supper and the affair was made very enjoyable. Those who were present included John Drehert, Harmon Kahlenbeck, Lawrence Schiffile, Fred Lepper, Walter Thompson, August Hockemeyer, Frank Ottenweller, Christ Ellett, Fred Horman, Lanson Behrman, Lewis Dudenhoefer, Carl Poehler, Charles Sack, Harmon Mueller, John Roege, Harry Thompson. Present also were the Mesdames Harmon Kahlenbeck, L. Schiffile and daughters; Misses Gertie Dudenhoefer, Lydie Ellett, Matilda Dudenhoefer, Bertha Dudenhoefer, Mary Ellett and Ruth Kahlenbeck.

Sol D. Bayless lodge, F. and A. M., is this afternoon and evening conferring the Entered Apprentice degree upon a class of candidates.

MRS. B. S. THOMPSON PASSES AWAY

Member of Pioneer Family Was Lifelong Resident of Fort Wayne.

DEATHS; FUNERALS

Mrs. Henrietta Thompson, wife of Byron S. Thompson and a lifelong resident of Fort Wayne, died at 3:45 o'clock Friday afternoon at the family home, 2515 South Broadway, following an illness of two months' duration. Mrs. Thompson was 67 years of age and was widely known and universally esteemed.

She was the daughter of Edward Stapleford, who was a well known Fort Wayne pioneer, and was born in this city in 1843. Surviving relatives include the husband and two daughters—Mrs. Edward White, of this city, and Mrs. Herbert Webster, of Chicago. There are five brothers—Messrs. L. P., Henry, Charles, Clem and Frank Stapleford, of this city.

Mrs. Thompson was a member of Trinity Episcopal church. Funeral services Monday afternoon at 2 o'clock from the residence; interment at Lindenwood private.

FUNERAL NOTICES.

Lavanway.—Funeral services for Mrs. Josephine Lavanway will be held Monday morning at 8:30 o'clock from the residence of a daughter, Mrs. William Shondell, 1117 Cochran street, and at 9 o'clock from the Cathedral; interment at Lindenwood.

Trebra.—Funeral services for Robert Trebra, jr., will be held Sunday afternoon at 2 o'clock from the residence, 724 Madison street, and at 2:30 from St. Paul's Lutheran church.

Noze.—Funeral services for Mrs. Sadie Noze will be held Sunday afternoon at 1:30 from the residence, on Pine street, and at 2 o'clock from St. John's Lutheran church.

PILES CURED IN 6 TO 14 DAYS.
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

THE SCHOOL TEACHERS.

The New Exemption Law as It Will Affect Them.

Prof. Charles A. Greathouse, the state superintendent of schools, has mailed to County School Superintendent H. G. Felger a supply of blanks to be used by teachers in making application for state exemption license. The new exemption law will soon go into effect. Under its provisions any person who has taught six consecutive years and holds a thirty-six months' state license now in force is entitled to state exemption. The holders of primary, common school, high school, or any other kind of state license may take advantage of the provisions of this law. Applications for exemption can be sent as soon as the law goes into effect.

CIRCUS LOOKING FOR LOT

Ringling Brothers Want to Get to Fort Wayne This Season.

Ringling Brothers want to bring their circus to Fort Wayne this season if they can get a lot to show on. N. J. Pettit, of the advance corps, was here today and wanted the Van Buren street grounds, but found that it is in the hands of the play grounds association and will not be available. He may select the lot opposite the state school.

NOTIFIED OF BROTHER'S DEATH.

A telegram announcing the sudden death of her brother, James Keener, of Middletown, Pa., was received by Mrs. W. C. Geake Friday, and in response to the message she left for Middletown last night. The message failed to state the particulars of her brother's death, but as she received a letter from him only a few days ago and he made no mention of being ill she is of the opinion that he met with an accident. He had been working on a new building for a drug store, which he owns, and it is thought that he might have met his death while working about the building.

A CHOICE GIFT.

Charlie Yoe, of the Independence Tribune, tells this story on an Independence man and his son:

They were talking about a birthday present for the boy's mother.

"We ought to get her something for she has worked hard all summer doing chores, getting stovewood and tending the garden and chickens, but to save my life I can't thing of anything suitable," said the son.

"That's right," said dad. "We ought to get her something. Suppose we get her a new ax?"—Kansas City Journal.

BIDS WERE RECEIVED.

Bids were opened today by the board of public works for 2,000 tons of lead pipe. The Windsor Manufacturing company, of Milwaukee, submitted the lowest bid, which was $4.94 a hundred pounds.

Marvelous New York More wonderful than Babylon, Nineveh or Rome. Its fifty-story sky-piercing business buildings; its under city of labyrinthine subways; immense railway stations costing hundreds of millions; far-reaching bridges spanning a harbor traversed by gigantic steamships; hotels more luxurious than kings' palaces; Wall Street, Chinatown, Broadway, and the most palatial residences in the world, all interestingly described in the New York Standard Guide. Map, 100 beautiful illustrations, folding panorama of high buildings. Yours for 25c. coin or stamps. (A post card of the Metropolitan Tower—the highest in the world—if you mention this paper. The Foster & Reynolds Company, No. 1 Madison Avenue, New York.

SPEEDERS GIVEN A GOOD SCORING

May Expect No Mercy in the City Court in the Future.

BOTH MEN ARE FINED

"This thing of speeding motorcycles and automobiles on the streets will be stopped if I can help stop it. There are old men, women and children on the streets who need protection against the reckless drivers and if this court can give it to them they will get it.

"It has not been so very long ago since one child was killed and it seems to me something ought to be done. The fines in these two cases will be $15 and costs each and in the future they will be higher. It will cost each one of you $25 and others who drive at high speed had better take warning."

This little speech was made in the city court by Judge J. Frank Mungovan in passing on the cases of Otto F. Becker and Albert C. Fortriede. Becker wanted to argue the matter with the judge and get the fine reduced, but the judge would not listen to him.

They were captured last night on Fairfield avenue by Motorcycle Patrolman Johnson and his speedometer showed at the time of the arrests both were traveling at a rate of twenty-three miles an hour. "One fellow's machine balked on him," said Johnson, "and if it hadn't been for that no telling how fast they would have been going."

Fortriede is the son of the shoe merchant on Calhoun street and Becker's father is a carpenter living on St. Mary's avenue. They had had their machines but a short time and were out trying them.

Fish Held for Vagrancy.

Albert C. Fish, charged with vagrancy, was held until Thursday and in the meantime the police will look him up. It is charged that he has been going from house to house soliciting furniture repairs and has been obtaining advance payments on the plea that he was out of funds. When he was searched at headquarters a pocketbook was discovered containing $43. An effort will be made to show that he obtained some of the money by false pretenses. Bailiff Reginald Majors went out after the man and he was beating it and trying to escape the officer when Miss Italia Evans took the policeman in her automobile and assisted him in the capture.

Walter Jacobs and George Morris were fined $5 and $1 and costs, respectively, for drunkenness, and Cornelius Holzhauer was let go.

TAFT'S VACATION IS ALMOST ENDED

[Continued from Page One.]

Whether he will directly recommend that nothing be considered but the reciprocity agreement or whether he will indicate such a desire simply by confining himself to the subject of the agreement cannot be stated at this time. From the formal statements of the democratic leaders, however, the president has every reason to believe that revision of two or three of the schedules of the Payne-Aldrich act will be undertaken.

Tillman Urges Work.

Senator Tillman, of South Carolina, who was in Augusta several days ago, said that the democrats in the house were elected to revise the tariff and that they ought to get to work at the earliest opportunity.

There is said to be a possibility that the president may call the proposed arbitration treaty with Great Britain to the attention of the special session, but the chances are that the pact will wait until the regular session next fall.

WOMAN LEAPS TO HER DEATH.

Patient In Indianapolis Hospital Ends Her Life.

Indianapolis, March 18.—Mrs. Goldie Martin, age 45, died early today following a leap of forty feet to a cement court at a local hospital. She leaves a child four days old. Mrs. Martin had undergone a serious operation four days ago and it is believed her mind was affected.

While she had expressed no desire to die to the hospital attendants, her husband told the coroner today that Mrs. Martin had asked him to bring her morphine with which to end her life. The nurse had just left Mrs. Martin's room on an errand when she made the leap. The coroner does not blame the hospital attendants for the death.

TO BE HEARD MONDAY.

Principals in Prize Fight Are Arraigned.

Los Angeles, Cal., March 18.—The principals in yesterday's boxing contest, Ad Wolgast and George Memsic, together with Thomas McCarey, manager of the affair, and Charles Fyeton, referee, were arraigned in Justice Reeve's court today, charged with having conducted a prize fight in violation of the law of California. The preliminary examination was set for next Monday.

TWO WANTED FOR FORGERY.

Pair Captured Here and Turned Over to Lagrange Sheriff.

Frank Stacey and Louis Eyler, were captured here today and turned over to the sheriff of Lagrange county. They are wanted on a charge of forgery and the officers say they raised two small checks that had been given them.

ROOSEVELT IN ARIZONA.

Phoenix, Ariz., March 18.—Colonel Theodore Roosevelt and party arrived in Phoenix at 9 o'clock this morning and left immediately in automobiles for the Roosevelt reservoir, the big reclamation dam, seven miles east, where the formal dedication will take place this afternoon. Many citizens of Phoenix accompanied the party. Colonel Roosevelt's main speech in Arizona will be made at Phoenix, Monday.

Mrs. Fredericka Winkelmeyer, of Lavina street, is seriously ill.

AN ORGANIZATION ALL ALONG LINE

Vice Presidents Will Be Named in Waterways Movement.

LOWER LIVING COST

Perfect organization all along the line of the proposed Toledo, Fort Wayne and Chicago barge canal is the situation aimed at in a meeting of the waterways committee held this afternoon at the rooms of the Commercial club.

Capt. Charles Campbell, the New York waterways evangelist, who is now in Fort Wayne to take up a work of several months in the interest of the canal project, has begun it by the preparation of much literature upon the subject, and arrangements are now being made for the naming of vice presidents in every city, town and hamlet along the route proposed for the waterway. This was the matter under consideration at the meeting today and the appointments will follow shortly, so that when the matter comes before congress in the fall it will have the organized support of the entire region through which the canal is to pass.

Calls It a Regulator.

Capt. Campbell contends that the canal would be a better regulator for all classes of freight rates than all the laws that can be placed upon the statute books.

"Through the courtesy of Charles S. Bash," said Capt. Campbell today, "I have secured two bills of lading that shed some light on the question of freight rates as they at present exist. In October 14, 1910, a consignment of onions, weight 24,000 pounds was shipped from Cromwell, Ind., to New Orleans. On this consignment, because of the possibility of shipping by water for the greater part of the distance, an alleged special rate of 35 cents per hundred pounds was given. This made the rate $7 per ton, and on the total shipment of twelve tons through to destination, $84. On January 16, 1911, another consignment of onions, weighing 25,000 pounds, was shipped from Chelsea, Mich., to Chickasha, Okla., as fifth class freight, and charges were 50 cents per hundred pounds. This made the rate on this lot $11.60 per ton, or a charge of $145 on the total shipment through to destination.

Bears on Living Cost.

"But one of the best comparisons as between rail rates where no water competition exists was furnished me through the courtesy of an employe of Mossman, Yarnelle & Co. It showed that the rate charged on fifth class freight from Fort Wayne to Bay City, Mich., a distance of less than 200 miles, is 13 cents per hundred or $2.60 per ton, while from New York City to the same point, a distance of about 1,000 miles by way of the Erie canal and the great lakes, the charge would not exceed $2. Yet some folks are wondering why the cost of living is so high. There is nothing to wonder at. Every dollar you pay for transportation goes into the cost of whatever article the consumer purchases. So if you want to reduce the cost of living, get busy and lend whatever assistance lies within your power to reduce the cost of transportation. And nothing will do that in this vicinity so effectually as the construction of the Toledo, Fort Wayne and Chicago canal."

TO PREVENT THE GRIP.
LAXATIVE BROMO QUININE removes the cause. There is only one "BROMO QUININE." Look for signature of E. W. GROVE. 25c.

THE BIBLICAL PROPHET

The Hebrew word generally used for a prophet is Nabi, which means one inspired, possessed by some Deity.

Joel must always rank among the greatest of the prophets, not only for the sublimity of his imagery, but also for his lofty views of moral obligations.

The book of Tobit was probably written in the first quarter of the second century, B. C., and by a Palestinian Jew who had no personal acquaintance with the scene of his story. Hence, a good deal of bad geography.

The original book of Esther does not contain the name of God, or any allusion to the Deity from beginning to end.—Chadwick.

SHOT HIM IN THE WRIST.

Lafayette, Ind., March 18.—Edward Sharp, a bookkeeper of Princeton, Ind., is in jail here charged with assault and battery with intent to kill. He was arrested early today shortly after it is said he had shot Henry Kampermann, proprietor of a small hotel, in the wrist.

THINK! THINK! THINK!
If you have the money you can save money—about 50c on the dollar. See our prices.
Cluny laces, centerpiece 36x36, was $9.00, today $5.00.
Battenberg, 54x54, was $5.00, now $2.50.
Silk kimono, value $11.00, now $7.00.
Silk kimono, value $5.00, now $3.00.
Shirt waist, value $6.00, now $3.00.
Irish crochet medallion, value 25c, now 10c (fifty designs.)
Egyptian silver scarfs, $10.00, now $5.00.
You will be surprised when you see cluny doylies, centerpieces, drawn work, Battenberg scarfs at about half price.

THE GOOSEBERRY IS REAL LUXURY

Bushes Worth $6 to $8 Each as Shown by Suit in the Circuit Court.

CASE IS ON APPEAL

That the gooseberry has taken its place among the luxuries was evidenced by a suit in the circuit court today in which Frank Pranger sought to recover from Henry and Christina Hoffman for cutting down fifteen bushes.

The parties live in New Haven and the Hoffmans claim the bushes were on their property. Pranger says they were his and in Justice Grabner's court he got a verdict for $50, but the case was taken on appeal to the higher court and occupied the entire day.

Indictment is Held Good.

In the circuit court today Judge J. D. Merryman rendered a decision in which he held that the indictment returned by the last grand jury against Benjamin Wartell for perjury is good. It was attacked on the ground that the facts testified to before the grand jury and on which the indictment is based were not material.

Will is Filed.

Under the will of Sarah Kelly, which was probated today, several small bequests are left to her children, but the bulk of the estate is to be divided between her daughter, Elizabeth Tresslar, and John Kelly, a son. The son's interest is left in trust.

Case is Dismissed.

The divorce suit of Mabel Hetrick against John Hetrick, filed a few days ago in the superior court, was dismissed today.

Articles Are Filed.

Articles of association of the General Building and Investment company were filed with the county recorder today. The capital stock is $25,000.

Found for Company.

Special findings in favor of the Fort Wayne and Wabash Valley Traction company were returned by Judge Yaple today in an action in which Charles A. Miller sought damages on the ground that he was discharged after he had settled a claim and been promised a position.

Charge of Abandonment.

John Craig has filed a divorce suit in which he charges that Lillie Craig abandoned him in March, 1909, and took their child with her. They were married in December, 1907. W. H. Shambaugh filed the action.

On Fraudulent Marriage.

Through the state Mary Murphy has instituted proceedings against Frank Murphy, alleging that he abandoned her after having married her to prevent prosecution under a bastardy charge.

CHARGES FATHER WITH CRIME.

John Poole Under Arrest a Fowler as Slayer of Farm Hand.

Fowler, Ind., March 18.—John W. Poole, a farmer, living six miles southeast of here, was lodged in jail early today, charged with the murder of Joseph Kemper, an employe on the Poole farm. The charge was made by a private detective on information furnished by Emery Poole, a son of the prisoner.

The murder is alleged to have been committed in December, 1909, and according to the son's story, the body was buried near a haystack on the farm. The sheriff and his deputies, by lantern last night, dug all around the spot indicated by the son, but no trace of the body could be found.

Sentinel Want Ads, Pay.

MARRIAGE LICENSES.

Samuel Surfus, 36, carpenter, and Celia G. Parker, 21.

Dwight M. Reynolds, 20, school teacher, and Lulu B. Ruhl, 18.

CITY BREVITIES.

E. W. Cook is home from a visit to Cleveland.

But one applicant appeared today to take the civil service examination for appointment as postmaster at Sheldon, this county.

A rehearsal of the young girls who are to take part in the oriental maidens' dance in "Egypta" will meet Monday afternoon at 4:30 in the auditorium of the city hall building. Mrs. Fred McCulloch is chairman of this department for giving the production.

Captains Stole and Link, of the city's Canton I. O. O. F. went to Bluffton Thursday evenig to attend the regular meeting of the Oddfellow's lodge of that city. The reason for their trip was to invite the Bluffton lodge to attend and take part in the initiation to be held in this city April 19.

CALLAHAN NAMED FOR NEW DEPUTY

Prosecutor Albert E. Thomas Adds Man to His Office Force.

TOO MUCH BUSINESS

Stephan A. Callahan, who has been practicing law in the office of Leonard, Rose and Zollars, was named today as a deputy by Prosecutor Albert E. Thomas and will enter actively upon his new duties on Monday.

There is too much business in the Allen county office for two men and both Mr. Thomas and Harry Hilgeman have had their hands full for several months. In addition there are some 200 or more delinquent tax cases to be looked after and the new man will be in active charge of this department.

For several months Mr. Callahan has been coaching himself for the duties and has taken care of the city court cases from time to time in the absence of Mr. Hilgemann. This has given him a clear insight into the duties that will be expected of him and he has shown his ability to take care of them.

Under the new law passed by the last legislature the office is allowed $2,800 for deputy hire and while a number of the offices in the state have decided to use up the full amount Mr. Thomas says he will not expend all that is contemplated under the law because he does not believe it is necessary in the administration of his office.

The new appointee is a Fort Wayne boy and has been active in democratic politics for several years.

First-class phaeton for sale, cheap. Box 5, Sentinel.

MINSTREL'S WIFE WANTS A DIVORCE

MRS. GEORGE PRIMROSE

New York, March 18.—Justice Guy in the supreme court has entered an order allowing the suit for separation brought against Mr. George H. Primrose, a minstrel, by Mrs. Esther Primrose to be discontinued. Whether Mr. Primrose has realized his often expressed hope for a reconciliation is not known, but the lawyers in the case declared that they do not believe that such is the case. Nathan Vidavel, lawyer for Mrs. Primrose, declared that the case had been dropped for certain legal reasons.

SCHENK CASE GOES ON.

Wheeling, W. Va., March 18.—When the case of Mrs. Laura Farnsworth Schenk, charged with attempting the life of her millionaire husband, John O. Schenk, came up for trial today in criminal court, it was postponed until the May term on motion of Prosecuting Attorney Handlan. Mrs. Schenk's attorneys declared they were ready to go to trial, and the prosecutor said they would have the opportunity in May as the charge would not be dropped.

WRITES FROM JAMAICA.

A postal card written from Kingston, Jamaica, has been received by Leo Schirmeyer from Ralph E. Avery, the young man who spent eight months in Fort Wayne getting material for a souvenir booklet of the city which he recently published. Mr. Avery, accompanied by his wife, left Fort Wayne on March 7 and sailed from New York for the isthmus of Panama March 10, for the purpose of getting out a souvenir book of the isthmus.

HE WAS THE SNAIL MAN.

"Perhaps the strangest business in the world," said a west side matron the other day, "is that in which a man who knocked at the door of my apartment this morning engages.

"'Have you an aquarium?' he inquired politely. I answered that we had, and then he said:

"'Well, I am the snail man.'

"I though he was a trifle mad and was about to close the door, when he explained:

"'You see, a great many folks have their snails die in the aquarium, and it's not for days that they notice the snails are dead, snails being naturally that unobstrusive it's hard sometimes to tell if they are alive or not. Now a dead snail spoils the water in an aquarium and makes the other things sick, so my business is to look at the snails to determine as to their death.'

"As the last caller I had before the snail man was a red-nosed person who said that he was an 'eyeglass cleaner,' come to shine the eyeglasses of the family, and who stayed just long enough to get away with my husband's umbrella. I sent the snail man upon his way."—New York Sun.

Bad BLOOD
"Before I began using Cascarets I had a bad complexion, pimples on my face, and my food was not digested as it should have been. Now I am entirely well, and the pimples have all disappeared from my face. I can truthfully say that Cascarets are just as advertised; I have taken only two boxes of them."

WILL INSTALL A PRINTING PLANT

Charles E. Archer to Manage New Department at Bowser Works.

WILL BE EXTENSIVE

S. F. Bowser & Company will, on April 1, install a printing plant which will hereafter turn out all the printed matter used by the big industrial concern, and the manager of the department will be Charles E. Archer, who, on February 1, retired as manager of the sales department of the Archer Printing company.

The Bowser company uses approximately $50,000 worth of printed matter yearly, and the new department to be installed will be fully equipped to handle all of this business. The equipment includes five presses and a full complement of other machinery and material for which orders have already been placed.

The department will be installed in the old school building at the corner of East Creighton and Holton avenues, which was recently purchased by the Bowser company and which is soon to be vacated by the transfer of pupils to the James H. Smart school, erected to replace it. Mr. Archer, who will be in charge of the department, has been well known in the printing trade in Fort Wayne for many years.

The following patients were admitted to the Lutheran hospital today: Mrs. J. H. Welch, of Mentone; Mrs. W. A. Brown, of Hoagland avenue; Henry Smith, of Rome City; D. E. Reed, of Albion, and Mrs. Charles Robinson, of South Whitley.

Week with the Players

This Evening—"Uncle Tom's Cabin."
Monday Evening—Miss Della Clarke in "The White Squaw."
Tuesday Evening—John Drew in "Smith."
Wednesday Matinee and Night—"Madame X."
Thursday Night—"The Broken Idol."

"UNCLE TOM'S CABIN" AT MAJESTIC.

Fine Production of the Perennial Favorite Matinee and Night.

The Majestic theater this evening will have as its attraction Mrs. Harriet Beecher Stowe's great story, "Uncle Tom's Cabin. This famous play has received ridicule at times, but under capable, conscientious management as that of Leon W. Washburn's organization, it will ever have the power to make its admirers feel the beauty and pathos of its lines. The Washburn company, known for years to the public as Stetson's "Uncle Tom's Cabin Co.," has a larger combination this year than ever—two Topsies, two little papoose. The youngsters in an Indian wigwam are the dominating factors. Such love and tenderness for the offspring is seldom shown among white mothers. 'Twas this love and tenderness that was bestowed on the white squaw, or rather papoose, when the heroine of our story at the age of four was found by the Chippewa, Michabo, alone in the forest by the side of her dead father, and taken to his wigwam, where he and his squaw, Ampata, having no children, loved and cared for her as their own,—hiding her when white people came around fearful that she might be taken from them. The White Squaw reaches the age of eighteen without having seen a white woman, that she can remember. The first one to come under her observation proves to be her sister, who is of a decidedly different type—being a beautiful blonde. The two sisters being in love with the same man, the sacrifice, and the love of Jacques Cautier for the white squaw, gives us a play, though clean, full of comedy, heart interest and exceptionally strong dramatic situations.

Scene from Madame X, Majestic, Wednesday, Matinee and Night, March 22.

Marks, and a carload of magnificent scenery for the stage.

"THE WHITE SQUAW" MONDAY.

Miss Della Clarke in Romantic Historical Frontier Drama.

"The White Squaw," the new romantic American drama, will be the attraction at the Majestic Monday night.

The purport of the author, Miss Della Clarke, in writing "The White Squaw," is to give the public a play which is founded on historical facts, and to portray characters that have never before been placed on the stage. The intrigues between the French and English to get possession of the lands held by the Indians along the Detroit and St. Clair rivers during the eighteenth century, and in fact until about 1820, were such that it needed but little imagination on the part of the author to build a play full of dramatic as well as educational interest. Very little attention had been given the Indian, except to rid the country of them as rapidly as possible, until within the past few years, when we began to realize that a race of people who have been so cruelly treated are fast becoming extinct. Too little is known of the Indians, hence the belief that savagery is their chief instinct. Let me say right here that many a mother of today could learn a good lesson from the savage squaw and her

JOHN DREW NEXT WEEK.

Comes in the New Comedy Success, "Smith," Tuesday Evening.

Next Tuesday night at the Majestic theater Charles Frohman will present John Drew, and the medium for that popular actor's reappearance before local playgoers is a comedy called "Smith," in which Mr. Drew won remarkable success during three months at the Empire theater, New York, from which house it comes to this city with the complete original supporting company and splendid scenic equipment intact. The new play is by W. Somerset Maugham, author of "Lady Frederick," "Jack Straw" and other pieces which have found ready favor with playgoers. While consisting mainly of delightful comedy, bright repartee and well directed satire, it has nevertheless its serious side with appealingly human moments. While it has been well classed among plays which strike bitterly at some of the social follies of the day, it is by no means a sermon. It is a setting forth of the truth that the family is the real basis of a republic that must live; that children are essential to the family; that men and women must live natural lives. This is what Mr. Drew tells his audience through "Smith," and he tells it to them sometimes lightly and again with deep earnestness, always entertainingly, and with all the finished art of which he is a master. In his excellent supporting company are Mary Boland, Isabel Irving, Sybil Thorndike, Jane Laurel, Morton Selten, Hassard Short and Lewis Casson.

The principal character in "Smith" is Thomas Freeman, who has been roughing it in Rhodesia for eight years and who comes back to England to visit his sister, Mrs. Dallas Baker. She is married to a middle-aged man, but is entertaining at her home a young man, Algy Poppercorn, whose duties are to go shopping with her and escort her to the theater and restaurants in her husband's absence. In return for these attention he gets his meals free at the Baker's flat. The sister is also surrounded by a bridge-playing coterie, among whom are Emily Chapman, a spinster of thirty, who jilted Freeman when he lost his money, and Mrs. Otto Rosenberg, the wife of a rich old German and mother of a baby whom she does not care for. In this fashionable crowd Freeman discovers a fresh-faced, fresh-minded girl, Smith, the parlor maid. One of his reasons for coming back to London was to choose a wife to return to Africa with him, and he selects Smith as the fittest among all those he has met. He does not pretend to love her, but he proposes to her. She, however, is of a romantic disposition, and does not care to marry for no other reason than health and wholesome-minded ness. Meanwhile Miss Chapman discovers that Freeman is wealthy again, and tries to win him back, only to reject him again when he proposes.

The climax of his disgust for the falsity of life he has found comes during one of his sister's bridge parties to which Mrs. Rosenberg has been invited. Shortly before her arrival a message is received stating that her baby is seriously ill. The bridge players do not think it worth while to distress her with the news, and keep the message from her until the end of the game, when another arrives announcing the child's death. Freeman then takes up the task of converting his sister and her friends, and succeeds by the end of the play.

"MADAME X."

Great Emotional Drama at the Majestic Wednesday Matinee and Night.

The story of "Madame X," the great melodrama by Alexandre Bisson, which Henry W. Savage will offer at the Majestic on Wednesday afternoon and evening with a splendid company of sixty persons, is exceedingly simple.

A young woman of weak, rather than evil character, is led from her husband by an unscrupulous man. She deserts her boy of two years also. Later she awakens to the enormity of her act, and in true contrition, begs forgiveness. But her husband, misunderstanding her motives, drives her from the door. A little afterward he is made to understand that he was in the first instance greatly at fault, and he determines to pardon his wife and bring her back.

This is shown in the prologue, and then the action shifts to the drama proper—twenty years later. The woman, in black despair, has drifted through the very gutters of the world. Her husband has never succeeded in finding her and she, of course, knows nothing of his change of heart toward her. In the endeavor to forget her distress and disgrace, she has taken to not merely drink, but to ether-taking as well. Her vices have wrecked her body almost to the last extremity, while they have also numbed her moral sense. There remains only the one redeeming element in her soul—her love for the boy whom she has not seen for a score of years.

In this condition Madame X (as she becomes known) returns to France. She hopes that she may get one glimpse of the son before the death comes that she knows is so near. But three rascals with whom she comes in contact discover something of her history and seek to make blackmailing capital out of it. When she finds this out she is horror stricken at the thought that her boy's happiness may be killed forever by a knowledge of the infamy to which his mother has come. She cannot prevent the betrayal of the truth to her son in any other way, so she kills the man chiefly responsible.

She is arrested and brought to trial. In order to make sure that her boy shall never know of her evil life, she maintains a most rigid silence. She will not tell her name, nor anything about herself; she will not make the slightest effort to defend herself from the dread penalty of her act.

Meanwhile, as the spectator is shown, the son, Raymond, has grown to man's estate and is about to begin his career as an attorney at the Bar. His father, now gray with years and sorrow, is a man of consequence, and secures for Raymond—as the boy's first case—the assignment as counsel for the defense in a murder trial that is about to be held. The accused person is unable to care for herself and, in accordance with legal custom, is provided by the court with an attorney.

Then comes the great climax of the drama—the trial. As may be guessed, the son has, all unwittingly, been appointed to defend his own mother.

Madame X does not recognize the boy, nor has he the least suspicion as to her identiy. He has always supposed that his mother is dead. But the boy feels a strange, inexplicable sympathy for the poor, pathetic creature in the prisoner's dock, and he makes a masterly appeal for her. So powerfully does he picture the despair and distress of his client: so skillfully does he draw from little incidents that have been brought out, the real reason why the killing was done, that the sympathetic jury acquits. In the meantime the mother has learned by merest accident who it is that stands there so valiantly fighting her battle with all the ardor of his young heart. One long terrible cry of anguish escapes her as she learns the truth—then she relapses into the deathly lethargy that has all along marked her course. She knows that she is fast approaching the great gulf and her one hope is that she may reach it before her son discovers who she is.

In the last few moments of the play there comes the discovery by Raymond of all that has happened, his brief reunion with his mother—a moment in which all the sorrows of twenty years roll away from the poor creature—and then the finale. This is the most pathetic scene of all—and yet one of the most beautiful the stage has ever known.

"A BROKEN IDOL" THURSDAY.

Novelties Are the Feature of Coming Musical Comedy.

"A Broken Idol" reminds one of what Touchstone, in "As You Like It," said about life in the forest of Arden, says the Denver Times of Feb. 6, concerning the musical play booked for next Thursday at the Majestic. In respect of itself it is a very good thing and one likes it well, but in respect of its being no better than it is, it is but so so. "The Broken Idol" is good as musical comedies go, and it might be a great deal worse. It has several crowd-drawing features about it.

The "drawing" features referred to lie chiefly in the realm of stage business—"stunts," in short. The unexpected, having nothing whatever to do with the slender thread of the plot, happens continually throughout the play. A huge and monstrous dragon, with fire flaming out of its mouth, is brought on the stage in the first act, without a word of warning. The surprise is heightened when the green body of the dragon splits suddenly into several pieces, which become fantastically dressed chorus girls. Stage trees are changed suddenly into green-clad girls in the second act. The grand trick of all comes at the very end. Just when the audience is beginning to put on its wraps and leave the house in a somewhat uncertain frame of mind, every light in the house, including the red exit lights, are suddenly put out. A glowing, red balloon descends upon the stage, apparently from nowhere, the heroine steps in and the balloon rises again, it floats out over the heads of the audience, so close that one can almost touch it, while the girl, dressed in white, sings "Love Makes the World Go 'Round." This is the sensational feature of the show. The balloon returns to the stage, the lights flash, the final chorus is sung, and the audience goes home, satisfied that it has seen something great.

The plot hinges upon that very well-worn theme of a broken Englisr lord who seeks to recuperate his estate by marrying an American heiress. Snobbish relatives of the girl are very anxious to make the match, and, of course, the girl is supposed to be torn by conflicting feelings of obedience to her guardian's wishes and her feelings for her American suitor, who, in this case, is a newspaper reporter.

The scene is laid in San Francisco and the first act takes place in Chinatown. It is the Chinese New Year, and Silas Pugsley, a retired and wealthy merchant, has brought his family down to see the celebrations. His party includes Lord Dunby, the fortune hunter; Mrs. Lucretia Muddleford, Pugsley's sister; J. Ely Muddleford, a bug hunter, and the heiress, Marion Pugsley. Lord Dunby runs across Dr. Whatt, a roving character, who wants to sell a patent reversible hen's nest. Doc Whatt, who is the funny man of the show, persuades the lord to hire him as "coach" in the love game. Doc Whatt happens to be married to a Chinese girl, Sing Wee, but decides to desert her during his service to Lord Dunby. Jack Mason, the hero reporter, appears on the scene and makes his lordship look like a fool. Doc Whatt tries to cast suspicion on Mason for the theft of a family heirloom which he himself has "hooked." He puts the necklace in Mason's pocket, but Sing Wee extracts it and saves the hero, who is subsequently arrested. Doc Whatt, Pugsley and the bug hunter become fast friends and go on a lark, in the course of which Muddleford breaks a Chinese idol, a figure of Confucius. All three think that the bug hunter has killed a real Chinaman and decide to flee. Pugsley spreads the announcement that his bank has failed. Lord Dunby withdraws his suit. Finally everything is straightened out and Marion makes the sensational balloon ascension, apparently just to be doing something. The cast is uniformly good.

AT THE FAIRY MONDAY.

"The Tale of Two Cities" is the motion picture treat of the season, being the most important and longest film ever issued, excepting "Uncle Tom's Cabin," by the same company. The two principal actors in this drama are Florence Turner and Maurice Costello. The two famous picture players whose faces are familiar to everyone who is in the habit of seeing the films. "The Tale of Two Cities" is one of Charles Dickens' famous stories and comes in three reels or parts and runs nearly an hour. Don't fail to see this much talked of film.

NO NEED TO STOP WORK.

When your doctor orders you to stop work, it staggers you. "I can't," you say. You know you are weak, run-down and failing in health, day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent breakdown and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c at all druggists.

WAS PAINFULLY BURNED.

Mrs. A. M. Tower, of 2535 Webster street, was badly burned about the face, hands and forehead yesterday by the exploding of fumes from gasoline, while she was boiling out clothes. Neighbors, who heard the explosion, rushed to her assistance and it was their aid that prevented Mrs. Tower from being more seriously injured.

JOHN DREW IN "SMITH," AT THE MAJESTIC, TUESDAY EVENING

The Temple Theater

Frank Mayne and Company in the Original Strong Protean Play, "The Third Degree," Top Big Bill—Many Interesting Features.

One of the most interesting features of the bill at the Temple next week will be the first appearance of Frank Mayne and his company in a strong, virile and interesting little drama that bears the title, "The Third Degree," and which, it is said, shows to a wonderful extent the methods in use in the police department in New York city, or for that matter anywhere, to extract a confession, from unwilling prisoners. The play has been written by Campbell MacCulloch especially for Mr. Mayne and it is of the protean order, which is said to mean that Mr. Mayne finds it an opportunity to display his truly remarkable powers as a versatile actor by assuming the character of the prisoner charged with a crime and of the various witnesses who appear to testify, somewhat unwillingly, against him. The story is said to be one of the most enthralling that has ever been placed upon a vaudeville stage, and the tensity of it and the remarkably interesting manner in which the facts are wrung from each witness in succession, ending with the direct charge that finally brings the criminal pleading to his knees with an eager confession, are all said to be without parallel. The story briefly deals with the revenge taken by James Warner, the principal character, and the prisoners in the case, upon a man named Harding for dispossessing him from his home for the non-payment of rent. Warner sets fire to the property and manages to escape, though he is arrested and placed in prison. The police then gather up various witnesses who testify to bits of circumstantial evidence, then forge a chain of guilt about Warner. The chief of detectives conducts the inquisition and by a series of cleverly put questions finally brings the case to a point where it is morally certain that Warner committed the crime of arson. He is desirous of getting a confession from the man, however, and he withholds a bit of information which, when it is sprung, brings the criminal raving to tell of his deed.

Billy Golden and Joe Hughs who will be another big feature on week's program, are the oldest dialect singers for phonographs in the world, a reputation they have acquired by working for the Edison and Victor records. They are boys who made "The Turkey in the Straw" so famous. These celebrated entertainers will appear in a blackface singing and talking act that has proven one of the biggest hits of the season.

Richards and Grover, two very clever entertainers will offer their neat little musical, singing and talking novelty, with imitations, character impersonations and typical character and coon songs. They have been a hit on every bill all over the circuit.

A musical feature will be given by the DeMichel brothers. These clever musicians play on the harp and violin in a repertoire of the best music, both classical and popular selections being rendered.

Tom Grimes, assisted by the Dunbar sisters, direct from Keiths New York houses, will appear in a musical farce comedy, entitled "The Village Cut-up." The act scored a big hit all through the east and is described as one of the neatest little offerings in vaudeville.

Herbert and Germaine trio, in a comedy aerial casting act, will introduce a series of remarkable acrobatic feats and numerous laughable comedy stunts.

Mr. and Mrs. Little Allright will appear in a Japanese novelty act that is a real novelty and the Temple motion picture man announces he has two dandy comedy subjects, which completes the star bill.

MEXICO.

That the government of Mexico is under more serious stress from the insurrection than the outside world has had any detail of seems to be indicated with some clearness by the conferences just held in New York by Foreign Minister Limantour and members of the Madero family. Minister Limantour while yet in Paris gave out an interview in which he admitted that the government of Mexico did not reflect the better aspirations of the people and in which he conceded the necessity for certain reforms. Just how far he was then speaking and more recently has been acting for the government of Mexico is a question upon which events yet to transpire must shed light. It is not probable that he was holding parleys with the father and brothers of the titular and active head of the insurrectionary and armed party in the field without some authority from the head of his government. So it must be accepted on the face of the fact that he discussed terms of peace that he was clothed with authority to do that.

That reforms have been promised and are contemplated is patent to anyone at all familiar with conditions in Mexico. Electoral reform must comprehend the most immediate need of Mexico for in it are embraced the possibilities and the security of all that progressive Mexicans aspire to gain. While Mexico is a republic in its outward presentment and in its institutional forms, it is in its administration a dictatorship of despotic character. Its president is chosen by a nominally popular and uncoerced electorate, but as a matter of fact the election of a president under the Diaz regime has been a farce. The vote that is not cast for him by reason of interest is cast for him by reason of compulsion. There never has been any disclosed opposition to Diaz. Since he carved his way with his sword to the presidency in 1877 Mexico has known but one other ruler. At the expiration of his first term in 1877 he procured the election of Gonzales, who had been his secretary of state, and four years later Diaz reascended to a power he has not since relinquished. Nine terms, eight of them consecutive, he has forced his election to a presidential chair which long ago he had converted into a throne. Popular liberties and true representative government cannot thrive under such conditions, nor have they in Mexico. Diaz has wrought greatly for the material development of his country, but little for general moral progress and the manhood of his country's citizenship.

The vast estates in Mexico have conduced greatly to oppression of the people and the stunting of moral and intellectual growth. For the more profitable and convenient management of these estates there has ensued the development of a system of peonage that amounts to chattel slavery. Literally millions are in the hateful bondage of this ancient barbarism which long since was extirpated by every enlightened country . In the Diaz regime nearly all else has been overlooked in the madness to make the country yield wealth. Striving through exploitation of its cheap labor to develop the material resources of the land by the enormous premiums an enslaved labor vouchsafed to foreign investments, the intellectual and moral assets of the nation's vast citizenship have been estimated as nothing. Mexico has become a nation of "big business" and peons.

In a period which witnesses the bosoms of Turks, Persians, Egyptians and Hindus kindling with the spirit of democracy and firing them with aspirations for freedom and the courage to achieve it, we may not think it unwonted or strange that Mexicans, born to traditions of liberty and hearing around them the boast and seeing about them the forms of democracy and freedom should realize finally the miserable fiction and resolve to cast off the tyranny that has put them in bonds. They have no more to do to achieve their complete freedom than to drive their oppressors from power. There is no dynasty to overthrow, no sovereignty to extinguish, no government to dissolve, no constitution to fabricate, no state to erect. The state is free, the constitution is vital and operative, the government is created and automatic, the forms are established, the institutions are founded. Men of wisdom, patriotism and courage almost in a day can transform Mexico from a characteristic despotism to an equally characteristic republic. Its government is almost an exact counterpart of the government of the United States. That fact conveys everything that can be said concerning the potentialities of a successful revolution against the Diaz regime in Mexico.

The leaders of the revolution say all negotiations for peace must be founded upon the abdication of the Diaz government. How much the stupendous interests outside of Mexico will have to say as to that is the big interrogation point in the situation.

What Indiana legislatures and administrations are going to do without that Vincennes university claim which the supreme court has just given par value, is more than even a good guesser will be likely to hit right. It has been coming and going and hanging around for many, many years, and now it is going to be paid and an end made of it. This is likely to turn out very sad to more than Mr. Hanly.

ENLIST FOR THE WAR.

It is much to be hoped Fort Wayne will stir herself to a sense of the importance of the anti-tuberculosis campaign here at the end of the month. Interest costs nothing and it will help greatly. Success of the war on the great white plague depends on the enlightenment and enlistment of the masses of the people. Without their interest and co-operation any crusade against tuberculosis is bound to be futile. It is to educate and train the people in their part of the great war that campaigns such as this city is soon to witness are devised and prosecuted. No one need have fear or hesitancy to enlist. It will cost nothing. There is no profit in it to doctors, to sanataria, to drug-makers or, indeed, to anyone save the people themselves. Cleanliness, pure air, abundance of sunshine, and plenty of exercise, which are free, and some consideration for the other fellow, which costs the donor nothing, comprehend the most there is in the prophylaxsis of the white plague. The campaign to be prosecuted here is to teach the people their daily part in the combat against the worst of humanity's disease scourges. The time will come when a future generation will be amazed to know their foolish ancestors of this day and age permitted consumption to ravage them of human life and toil-won treasure in such fashion as war never had done. Enlist for the war. Saving somebody may mean you.

It is reiterated by evidently sober persons that the war frolic on the border of Mexico is to be in readiness to protect the Wall street money Mister Diaz has coaxed into his country's enterprises, and by different but equally sober persons that it is the beginning of the getting ready for war with Japan, which it is slowly transpiring means to come in by our Mexican flank. All this being true, we don't know to whom to look for the most noise—'Gene Debs or the Honorable Hobson.

Mobilization of the army on Mexican frontier is criticised as having been a poor job. With nothing but sweet peace in mind and heart as to Mexico and only the most perfect amity with Japan, who swears she loves us as she can love no others, what difference does it make how we mobilize our troops, or whether or not we have troops. An army that never is going to have anything to do need not be mobilized.

New weather station here not likely to make any alterations in the domestic and imported brands of weather we have; but it may help some to be able to see them first now and then, as a modern wind station will enable us to do.

There is no movement which makes it so easy for everybody to do something for everybody as the anti-tuberculosis crusade. All that promotes health helps mankind the world around.

Not pleasant weather, but so long as March behaves like March the kicker is not a licensed objector.

Mr. Taft is a man of great self-control. Two wars brewing and he can go to the golf lot and forget it.

MAN-MADE EARTHQUAKES.

(New York World.)

Only one man was killed by the explosion of five magazines filled with dynamite and black powder at Pleasant Prairie, Wis., Thursday. Hundreds were hurt; in an area four times as large as Manhattan borough every building is wrecked. The explosion was felt a hundred miles. In Chicago, more than fifty miles away, in another state, theater audiences were dismissed in alarm.

A radius of fifty miles, even when there is a lake at one side, includes a territory nearly as great as Connecticut, within which such an explosion may work havoc varying from instant death and total destruction near its center to broken window-panes and dangerous panic on the borders. Almost seven million people are living in and about New York in a region not nearly so extensive; and what havoc a far less violent explosion can wreak here the recent disaster at Communipaw made startlingly apparent. It is no exaggeration to say that American cities stand in perpetual menace of man-made earthquakes.

To this pass we have been brought by American methods of business monopoly! Instead of a thousand little factories making and delivering explosives in comparatively small quantity, we have the Earthquake trust; a combination that for economy of manufacture and distribution concentrates at a few points the means of widespread destruction and delivers its dangerous product by the hundreds of tons in the heart of populous communities.

The Municipal Explosives commission, of New York, has set a good example in prohibiting absolutely within the city the use of the more dangerous explosives. In every center of population it may be necessary as a means of self-preservation to prohibit the assembling of large quantities of explosives at any one point under any pretext whatever. It may be cruel and unusual to interfere with the reckless economies of a trust, but sooner that than daily court destruction.

THE CANADIAN PRESS.

Will Not Stop.

Winnipeg Telegram—"The democrats most certainly will not allow the reciprocity agreement to represent the sum total of tariff revision. They were elected o na pledge to revise the whole tariff downward. To stop with the Taft-Fielding arrangement would be to surrender their prerogatives under the mandate received from the American people last November."

Agreement a Duty.

Ottawa Free Press—"Whether we support or whether we are opposed to it we must recognize the fact that our government has promised to carry out a solemn agreement with the United States. That being so, there is only one course open to the Canadian parliament and that is to ratify and indorse the agreement entered into by its representatives of the United States."

Amusing Opposition.

Hamilton Herald—"Is it not amusing to hear our anti-reciprocity friends say in one breath that the trade agreement is not necessary, for the democrats will be sure to give us for nothing all we are getting by the agreement, and then say in another breath that the agreement is objectionable because it gives the Americans access to our natural resources."

NEWS OF FORT WAYNE'S NEIGHBORS

LICENSE FEES TO BEAUTIFY CITY

Money Derived from Saloon Licenses to Be Used in Lighting the City of Kendallville.

Kendallville, Ind., March 18.—The $2,400 license fees which will be paid over to Treasurer Gregg for the six saloons operated in Kendallville, will go to the general fund of the city.

This fact was determined when Mayor Forrest E. Field received a reply from Attorney General Honan, of Indianapolis, to whom he had sent for advice, informing him that such was the case, and that the county license only, according to law, shall be paid into the school fund. In speaking of the matter Mayor Field stated that he always liked to know the exact condition of such a matter before any definite action was taken.

In receiving the license fees under the head of general funds, the entire sum will be expended for the beautifying of the business district of the city with an artistic display of electric illumination. The committee, consisting of Aldermen Fred Hess, George Kaiser and E. A. Hirsch, to whom was referred the matter of ascertaining the best pole and the most artistic display for this purpose and the cost of installing the same, has practically completed its findings and will probably make a report at the next meeting of the council.

Several different designs of poles have been under consideration and when the committee makes a report it will be considered by the council as a committee of the whole. Mayor Field has received a design of a beautiful pole manufactured by the Flour City Iron works, at Minneapolis, which meets his approval. The pole is of the Corinthian style with five lights and he will confer with the company at once and secure prices.

DRINKS CARBOLIC ACID.

Montpelier Grocer Victim of Strange Hallucinations.

Montpelier, Ind., March 18.—A. C. Baker, West High street grocer, attempted suicide Thursday afternoon by swallowing a quantity of carbolic acid, but his act was discovered before the poison had taken full effect and physicians were able to pull him through. Baker, however, is determined to end his life and says he will try it again.

Baker seems to be afflicted with dementia and labors under the hallucination that a certain woman patron of his store will kill him unless he provides her groceries. The acid used was some that had been in the Baker household for some time. Thursday afternoon the wife, who has been suspicious of her husband's strange actions and has been watching him, discovered the bottle of poison was gone. Suspecting that her husband had carried it to the store with him with the intention of taking it she made an investigation that resulted in aid being given the dying man before he was beyond recovery.

FUNERAL TO BE HELD SUNDAY

Decatur, Ind., March 18.—The funeral of the late Robert S. Peterson, the prominent attorney of this city, who died Thursday afternoon, will be held Sunday morning at 10 o'clock at the residence of the deceased, Rev. W. J. Alexander, of Columbia City, officiating. Members of the Adams county bar will act as pall bearers and many barristers from neighboring cities are expected at the funeral.

JOLLY MEETING OF BEN HURS.

Kendallville, Ind., March 18.—The Interurban meeting held by the Ben Hurs Thursday evening at which Auburn, Garrett and Avilla were well represented was one of the largest and jolliest occasions since the organization of the league. A fine St. Patrick's day program was carried out which consisted of music, recitatons and contests.

Halftones—Fort Wayne Engraving Co. s11-tf

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR

Who does not know of the value of sage and sulphur for keeping the hair dark soft glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind called Wyeth's Sage and Sulphur Hair Remedy and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

Meyer Bros. Co., Four Drug Stores.

WANT ANTI-SCREEN ORDINANCE.

Women's Clubs of Huntington Appeal to City Council.

Huntington, Ind., March 18.—The Anti-screen ordinance agitation will not be permitted to rest without further pressure being brought to bear upon the city council. Of this there can be no doubt. At the close of the W. C. T. U. institute a report was ordered prepared on the subject and a petition presented to the council asking that such an ordinance be passed. The various mothers' clubs of the city are taking up the matter and at their meeting Wednesday afternoon the members of the Froebel club discussed the proposed legislation thoroughly and appointed a committee of three, consisting of Mrs. Harry Little as chairman and Mrs. Hayden Grayston and Mrs. Thad Clark, to investigate the matter. It is understood that at the meetings of the other two mothers' clubs, which will be held next week, similar measures will probably be taken.

The opinion of the people of Huntington seems very strong in favor of the ordinance which the city "dads" seem so reluctant to pass and few people are against the removal of the screens from the saloons.

RETURNS TO SERVE SENTENCE.

Warsaw Jail Breaker Begs to Be Locked Up Again.

Warsaw, Ind., March 18.—James Alford, who went into temporary exile, voluntarily, when he broke jail here about a month ago and departed for Elkhart, has returned and again taken up his residence with Sheriff Charles A. Kintzel. Alford appeared at the jail on Wednesday evening and asked permission to be locked up until he could complete his unexpired sentence. Alford, while serving a short sentence for drunkenness, slipped past Sheriff Kintzel while the latter was carrying supper to a sick prisoner, and escaped. He had but ten days yet to serve when he left the city and soon found out that he would rather spend ten days more in jail than to be exiled from Warsaw forever. He returned alone on Wednesday evening and was locked up to serve out his sentence.

B. & O. LAYS OFF FORCES.

Garrett, Ind., March 18.—Again the B. & O. has laid off practically all of its working force in this city, all of the men except those absolutely necessary to run the trains, make what few repairs that cannot be "put off until tomorrow" and the clerical force. This is a periodical stune on the part of the company. It seems to be a business method to set apart so much money for the Garrett division and when that is exhausted the entire force is laid off until another month's appropriation can be drawn upon. The company seems to prefer using all of their regular men part of the time to part of the men all of the time. But in local business circles this plan cuts a big figure.

WIFE'S SERVICES $3,000.

Wabash, Ind., March 18.—George H. Kramer has filed a $3,000 damage suit against the Indiana Union Traction company, claiming that he is entitled to that amount for services lost by reason of his wife being injured by a car operated by the defendant company. This suit was started yesterday and comes on the heels of the damage suit brought by Mrs. Kramer for personal injuries in the Huntington county circuit court and the verdict was returned for the defense.

RESIGNATION ACCEPTED.

Columbia City, Ind., March 18.—Ray H. Glassley, deputy county clerk, received official notice Friday morning from Adjutant General McCoy, accepting his resignation as first lieutenant of the Third battalion, which was tendered last November. Major Jos. R. Harrison also received similar notice and he was requested to recommend some eligible person of the Third battalion to fill the position made vacant by Lieutenant Glassley.

ELEVEN GET 2ND DEGREE.

Columbia City, Ind., March 18.—The Odd Fellow order of this city conferred the second degree on eleven candidates Thursday night, and the attendance was excellent, while the work is alleged to have never been conferred in better style. The men who rode the quadruped were Lowell Hively, Harry Roberts, Oras Daily, George O. Betzner, Claud Anspaugh, Dr. E. V. Nolt, Chauncey Smith, William Chapman, Sherman Jesse and Will Hively.

ROBBERS FOUND GUILTY.

Albion, Ind., March 18.—George Long and Philip Green, the two hoboes who were captured at Rome City by Deputy J. A. Jennings and several assistants Wednesday while dividing their spoils which they had stolen from the depot there, were given a preliminary hearing at Albion Friday and were found guilty and bound over to the circuit court.

A DREADFUL SIGHT

To H. J. Barnum, of Freeville, N. Y., was the fever-sore that had plagued his life for years in spite of many remedies he tried. At last he used Bucklen's Arnica Salve and wrote: "It has entirely healed with scarcely a scar left." Heals Burns, Boils, Eczema, Cuts, Bruises, Swellings, Corns and Piles like magic. Only 25c at all druggists.

BUSINESS MEN PETITION.

Columbia City, Ind., March 18.—Sixty-five business men of this city have framed up a petition to the voters of the county. After much study the merchants have decided that a "wet" town is better than a "dry" town, and acting on that resolution they have made an appeal to the citizens who will vote at the coming option election to be held here March 28.

FOLEY KIDNEY PILLS

Neutralize and remove the poisons that cause backache, rheumatism, nervousness and all kidney and bladder irregularities. They build up and restore the natural action of these vital organs. Dreier Drug Co.

An Unparalleled Record

49,491,000 TRAVEL; NOT A LIFE LOST

Harriman Lines' Passenger Report for 1910 Shows Victory of Safety Devices.

ACCIDENTS CUT TO THIRD.

Union Pacific Casualties Drop to One-Fifth; Ticket Scalping Is Reduced.

The Harriman railway lines carried 10 per cent of the estimated 1910 passenger traffic of the United States, or 49,491,000 people, without fatal accident to any of the number. This result is ascribed to the installation of safety devices and is believed to have no parallel in the railroad world.

The report, containing this data, just has been compiled in the offices of Julius Kruttschnitt, director of maintenance and operation on the system, including the Southern Pacific and Union Pacific railroads, a total of 17,960 miles.

The total number of passengers carried on a one mile basis was 3,000,000,000. The figures of the country's railroads for 1910 have not yet been compiled by the government; but in 1909 the interstate commerce commission reported the number of passengers carried as 29,000,000,000. The figures for 1910 will not exceed a billion more, it is said.

No Like Record Known.

Many other railroads have gone through a year without a fatality to any of its passengers, but it is said that no system has made this record for such a large total of passengers.

The results on the Harriman lines are ascribed to a campaign waged by the management for years to reduce accidents. The Harriman system now has more miles of automatic block signal protection than any other system in the world. Mr. Kruttschnitt himself has directed special attention to the accident problem and began several years ago to bring about a reduction by giving complete publicity to all forms of accidents and their investigation, which, it is believed, spurred both officers and employes to greater efforts to safeguard lives intrusted to their care.

Chicago Tribune, February 12th.

Union-Southern Pacific

Not a Single Fatal Accident.

The Harriman lines carried 10 per cent of the country's estimated passenger traffic for 1910. Not a single fatal accident occurred to a passenger anywhere on the system.

This achievement is described as unparalleled in railroading, and it is attributed to the installation of safety devices—chiefly, if not wholly.

If a small line gets through a year without a fatal accident the result may itself be considered accidental. A vast system carrying millions of passengers owes safety to improvements, care and efficiency.

Chicago Record-Herald, February 15th.

IN THE CITY'S CHURCHES

CHOIR WILL GIVE CANTATA

St. Paul's Lutheran Choir Preparing for Interesting Musical Event.

IN REHEARSAL NOW

The choir of St. Paul's German Lutheran church has begun rehearsing a sacred cantata by Rhys-Herbert, the well known Welsh composer. The work is in two parts and contains besides several effective choruses a richly varied number of solos, duets and quartets. The accompaniments are well written, supporting, not overweighing the solo and chorus work. The organ introduction and the intermezzo in the second part are beautiful.

This will be the third cantata given by St. Paul's choir under the direction of Prof. F. Schroeder, who has been director of the same for the past eighteen years. The choir is in an excellent condition at present, numbering thirty members. Great interest is shown at the rehearsals and when the time arrives for the giving of the cantata, which will not be until after Lent, the choir will have mastered every detail.

* * *

THIRD PRESBYTERIAN.

The Musical Program and the Sermon Topics.

The musical program at the Sunday services of the Third Presbyterian church will be as follows:

Morning.

Anthem—"Jubilate Deo" ..... Buck
Solo—"Behold the Master Passeth By" ..... Hammond
Miss Hazel Geake.

Evening.

Anthem—"Radiant Morn"..Woodward
Anthem—"Hast Thou Not Known?" ..... Pflueger

The morning sermon theme at 10:45 of the pastor, Rev. Edward Montgomery, will be "The Ministry of Suffering" and the 7:30 sermon subject is "The Scarlet Thread." Sunday school at 9:30; Junior Endeavor at 2:30; Christian Endeavor, 6:45; prayer service Wednesday evening at 7:45. The communion service will be held Sunday morning, April 2.

* * *

St. Paul's M. E. Church.

The services at St. Paul's M. E. church will be of special interest tomorrow. An educational sermon will be preached by Dr. Monroe Vayhinger, president of Taylor university, and all members of the congregation and their friends are urged to hear him. Rev. J. A. Nipper will fill the pulpit at the evening service.

* * *

Three Days' Mission.

Beginning Tuesday, March 21, a three days' mission for the young people of St. Mary's church will be given by Rev. George D. Heldmann, C.PP.S., of Collegeville, Ind., a prominent missionary of the Precious Blood order. The mission will close on Thursday night and on Friday morning the missionary will open the devotion of the forty hours. The solemn closing will take place Sunday evening, March 26.

* * *

Spiritual Meeting.

There will be a Spiritual meeting at 7:30 o'clock tonight at the G. A. R. hall on the second floor of the Elektron building. Vestal will give trumpet demonstrations in the light and Mrs. Murphy will deliver spirit messages from the platform. A silver offering will be taken at the door.

* * *

Christian Science.

First Church of Christ, Scientist, 916 Harrison street. Services at 10:30; Sunday school at 11:40. Subject for tomorrow: "Matter." Golden text: "At that day shall a man look to his Maker, and his eyes shall have respect to the Holy One of Israel. And he shall not look to the altars, the work of his hands, neither shall he respect that which his fingers have made." Isaiah 17: 7, 8. Wednesday evening meeting at 8 o'clock in the church.

The reading room maintained by this church is at 817 Shoaff building, and is open daily except Sunday from 1:30 till 5 p. m., and Saturday evening from 7 till 9. All are welcome both to the church services and to the reading room.

* * *

Westminster Presbyterian.

The pastor, Rev. H. S. Morrison, will preach at the 10:30 and 7:30 service at the Westminster Presbyterian church Sunday. Sunday school at 9:30 a. m.; James Johnson, superintendent.

"DANGERS AND USES OF MONEY"

Leaders of Young People's Societies Will Discuss the Subject.

ON SUNDAY EVENING

The general topic to be taken up Sunday evening in the young people's societies of the local union is "Dangers and Uses of Money." Scripture references found in Prov. 14:24; 1 Tim. 6: 17-19. The following are leaders in the individual societies:

Plymouth Congregational church, C. B. Rhinehart; West Creighton Avenue Church of Christ, Miss Mae Oviatt; Third Presbyterian, Ben Welschelmer; United Brethren, Miss Gladys Neafel; Bethel Evangelical, Mrs. E. L. Mertz; Grace Reformed church, Miss Lula Bitner; Crescent Avenue church, John Craig; Bethel Presbyterian, Geo. Doswell.

The Local Union prayer meeting committee has arranged for a special series of Easter prayer meetings on the three Sundays preceding Easter. At these meetings the societies will take up the study of the booklet entitled, "His Last Week," dealing on the Passion week. On Easter Sunday evening a mass meeting of all young people will be held, when a prominent speaker will be present and deliver an address.

The missionary committee of the Local Union met at the home of the chairman, Miss Lucile House, last Monday evening and decided to hold a missionary and social evening of the young people on Thursday evening March 30. Further plans will be discussed at a meeting to be held on Sunday afternoon at 3 o'clock at the Plymouth Congregational church. All members of this committee are urged to attend.

On last Tuesday night the west section of societies in the Local Union attended the Columbia street mission. About thirty-five of the members responded and all who could get on the platform formed a chorus, and the rest sat in the audience and assisted in the singing. The speaker of the evening was a son of a Kentucky lawyer, who through his insatiable appetite for drink had been brought to the lowest depths, and after living many years as a tramp, going from place to place, and sleeping in barns, etc., was then converted and has risen to be a respectable citizen. His talk was straight from the shoulder, and out of an abundance of experience as to what misery, drink and bad companions can cause a man, and what power the spirit of Christ has to make a new man of a human wreck.

During the past week a new society was added to the Union. This is the young people's society of the Crescent Avenue Evangelical church, who voted to co-operate with the other societies of the Union in the larger work which they are doing. This society has but recently been organized, but already it has a good membership and its future is very promising.

* * *

THE MUSIC OF CHOIR.

Special Program Sunday at First M. E. Church.

SACRED STORY TOLD IN SONG

Is Descriptive of Betrayal, Death and Resurrection of Our Lord.

AT VESPER SERVICE

A series of musical programs will be given during the remaining Sunday afternoons in Lent at the 4 o'clock vesper services of the First Presbyterian church. Beginning with next Sunday "The Passion Service," by Alfred Gaul, will be sung by the church quartet, assisted by Howard Van Sweringen.

This beautiful composition is divided into six scenes, giving a description of the betrayal, death and resurrection of our Lord and two parts will be given at each service of the three succeeding Sundays. Next Sunday "The Traitor at the Table" and "The Denial in the Palace" will be rendered.

On Palm Sunday MacFarlan's "Message from the Cross" will be sung by a chorus of twenty mixed voices and on Easter Sunday Shelley's "Death and Life" will be given by the same chorus.

The church quartet is composed of Miss Agnes Stemen, soprano; Miss Margaret Spencer, contralto; Ralph Yarnelle, tenor; D. Ferd Urbahns, bass, and John B. Archer, organist and director.

* * *

The Redeemer Church.

"Falling From Grace" will be the sermon subject of Rev. J. R. Graebner, the pastor, Sunday at the 10:30 service at the Redeemer Lutheran church. There will be a Lenten service in the evening at 7:45. Sunday school at 9:15 a. m. The adult catechism class meets Thursday evening at 7:45 o'clock.

* * *

Trinity M. E. Church.

Public worship with sermons by the pastor at 10:30 and 7:30. Subject of morning sermon is "Christ's Challenge to His Church." Theme for evening service, "A Vital Question." Sunday school, 9:30. Junior League, 2:30. Epworth League, 6:30; Miss Clois McBride, leader. T. M. Hill, pastor.

* * *

West Creighton Avenue.

The services at the West Creighton Avenue Church of Christ, Rev. J. H. McCartney, pastor, will be as follows: Public worship at 10:30; sermon, "The All Round Church;" Miss May Oviatt will lead the Christian Endeavor meeting at 6:30 p. m.; church, 7:45; sermon, "While Unto the Harvest."

* * *

Crescent Avenue Church

The sermon theme of Rev. C. A. Hirschman, the pastor, at the 7:30 Sunday service at the Crescent avenue Evangelical church will be "What Hast Thou in Thy Hand?" Sunday school at 9:30; morning worship at 10:30; Young People's alliance, 6:30; John Craig, leader.

* * *

The Choral Union.

The South Side Choral Union will meet at the Bethel church Sunday afternoon at 2:15 o'clock to rehearse for the second concert to be held Thursday evening, March 23, at the Bethel Evangelical church. The program of the first concert has been revised.

* * *

Y. W. C. A. Events.

EMERALD ISLE SEES NEW HOPE

Enjoys Better Conditions, Says St. Patrick's Day Speaker.

LIBRARY HALL FILLED

Before an immense audience at Library hall Friday evening, in the closing event of the St. Patrick's day observance, Hon. Joseph W. Kenney, of Indianapolis, discussed "The Struggles and Triumphs of the Irish People," and was heard with much interest.

"Ireland today," said the speaker, "is a different country than it has been at any time during several centuries, thanks to the great fight being made for home rule under the leadership of such able men as T. P. O'Connor and John Redmond. For decades the people have been leaving the island at the rate of thousands every year in an effort to better themselves in America and other countries where they have a semblance of freedom. This was caused by the exorbitant tax rate levied upon the masses by the English rule, and the system of land tenure in force, which kept them in a state of penury from year to year. For many years England prohibited Ireland to export its products, which had a tendency to kill her chief manufacturing interests and turn the people to agriculture, where they had but little chance to better themselves. At the same time, a heavy bounty was given English interests to stimulate the manufacturing of products which formerly were made in such large quantities in Ireland. This condition does not exist today, but it held the people in its grasp for such a long time that it is of little wonder they did not care to live in the land of their birth. Today the island is represented in parliament and a new system of land tenure is in vogue through the appropriation of several million dollars by England for the buying up of lands held by the nobility. These lands are apportioned into small farming tracts and sold to the peasantry on a weekly payment plan, each payment of which is less than 20 per cent of the amount formerly paid by the peasants in rental."

Program Was Excellent.

The program was an excellent one throughout. Other speakers included Rt. Rev. Bishop Alerding, Rev. John R. Quinlan and Rev. J. F. Delaney, while the musical numbers of the evening were contributed by Maurice Niezer, Miss Marie Cleary, Miss Grace Darby, Miss Pauline Dove, Miss Helen Mommer, Edward Finan and Dawson Hayes.

Robert E. Kelly, county president of the Ancient Order of Hibernians, presided as chairman of the evening at Library hall.

It will cost you only 5c—A Novel Cigar.

AGED LADY MEETS ACCIDENT.

Leaves Table and Plunges to Cellar Floor.

Mrs. Elizabeth Neireiter, 406 West DeWald street, is confined to her bed as the result of a very severe fall which occurred this morning at 6 o'clock.

Mrs. Neireiter and her son, Theodore, who is employed by the Boerger House Moving company, were sitting at the breakfast table when the former suddenly discovered that there was no cream on the table. She started for the pantry, and, her eyesight being slightly impaired, she mistook the open cellar door for the pantry opening. The next instant her son heard a crash and rushed to the cellarway to find his mother staggering to her feet. A physician was at once summoned and after an examination he pronounced no bones broken. The old lady was severely bruised about the face and one ankle was slightly sprained, but otherwise no bad effects are evident. She will be confined to her bed for some time on account of the shock.

The victim of the fall is over 77 years old and keeps house for her unmarried son.

Catchy advertising cuts — Fort Wayne Engraving Co. s11-tf

Since 1868—43 years ago—the Foster Furniture Company has furnished over one thousand homes in Fort Wayne and Northeastern Indiana. It is unquestionably the most widely known of all Fort Wayne business houses. Strangers should make a note of this. There is a reason for it.

PROPOSALS FOR HEATING AND VENTILATING SCHOOL BUILDING, BRYAN, OHIO.

Sealed proposals will be received at the office of Mr. E. T. Binns, President of the Board of Education at Bryan, Ohio, at 12 o'clock, M., April 11th, 1911, for remodeling and installing a low pressure combination steam blast system for heating and ventilating the Central School building in Bryan, Ohio.

Plans are on file and can be seen at the office of Mr. E. T. Binns until the above date. Contractors desiring copies of said plans and specifications for their own use will be supplied by depositing a certified check for ten dollars $10.00) or a cash deposit of same amount by applying to the Bryce Heating and Ventilating Co., Engineers, 415 Spitzer Bldg., Toledo, Ohio; five dollars of which will be returned upon the return of the plans and specifications.

Each bid must be accompanied by a certified check for five per cent of the amount of the bid, payable to the order of the Board of Education, Bryan, Ohio, as a guaranty that the party to whom the contract is awarded will enter into a contract and give a satisfactory surety bond in the amount equal to the contract for the faithful performance of same, according to plans and specifications. In case of default or refusal to enter into contract, said check to be forfeited to the Board of Education, as liquidated damages.

When contract is awarded, the checks of the unsuccessful bidders will be returned to them. The Board reserves the right to reject any or all proposals submitted.

E. T. BINNS, President.
SILAS PEOPLES, Clerk. 18-2t

Something You Want to Know

Don't you want to know that we now make a spaghetti better than it's made in Rome?

It is so much better than any you ever tasted that you'll be amazed when you find it out.

Our chefs spent two years in perfecting the recipe. The result is a secret so valuable to us that we never have written it down.

This is the most popular dish that ever went out from our kitchens. And that means a great deal.

We have been cooking good things for nearly fifty years. Every year now the homes of America spend ten million dollars to get them.

But we never made anything which people welcomed as they welcome this spaghetti.

There are 17 ingredients used in the making, the main of which are these:

Durum wheat spaghetti.
Herkimer County full cream cheese.
Best creamery butter.
The same expensive tomato sauce we use in Van Camp's Pork and Beans.

The dish comes ready-cooked. All you have to do is to heat it.

You will invariably find it the best dish on your table, no matter how good all the other things are.

And you'll find that everyone likes it better than they ever liked spaghetti before.

One can will prove it. Order now.

It's Dinner and It's Ready

Van Camp's Spaghetti

Van Camp Packing Company Established 1861 Indianapolis, Ind. (133)

TWENTY-FIVE YEARS AGO

What the Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

T. F. Thieme is at Havana, Cuba.

Barney O'Connor has gone to Dallas, Texas, where he has valuable interests.

The ministers of the Gospel are jumping on progressive euchre with both feet.

W. S. O'Rourke made a telling argument in the case of Burger vs. the Grand Rapids road.

The St. Patrick's day lecture of Hon. M. P. Brady, that was to have occurred last evening at Library hall, was postponed on account of the lecturer's illness.

The Salvation Army held forth to a small audience at the Princess rink last night. Although small, the audience was demonstrative, and the police were sent for.

It is said that a prize fight with bare knuckles to a finish will shortly be arranged between Jimmy Doyle and a Michigan lightweight. The mill will be strictly private.

Charlie Meyers, a member of the City band, who has had charge of the Bass Foundry and Machine works engines at New Orleans for the past four months, will shortly return home. His friends will be glad to have him back.

Warsaw Times: Frank E. Stouder, treasurer of the Masonic Temple, of Fort Wayne, was in town yesterday and gave us a call. He represents the Naiad Queen Combination, which opens at that place on Monday next for a week's engagement.

A. Z. Foster, of Terre Haute, is in the city the guest of his brothers, D. N. and S. M. Foster. He bears such a marked resemblance to the latter that many Fort Wayneites accost him on the streets under the impression that they are addressing their fellowtownsman.

The employes of the Metropolitan theater last night surprised T. F. Mack, the proprietor, by presenting him with a handsome gold-headed cane and afterwards repaired to the Globe, where an elegant banquet was spread. The occasion was Mr. Mack's birthday anniversary, numerically uncertain.

DIES IN WATERLOO, N. Y.

Mrs. Elizabeth Johnson, Former Fort Wayne Woman, Passes Away.

Word has been received in this city of the death of Mrs. Elizabeth Johnson, in Waterloo, N. Y., on March 15, after an illness of six weeks from stomach and liver trouble.

Mrs. Johnson lived in Fort Wayne for many years, but after the death of her only daughter, Carrie Johnson Gotsch, she went east and had made her home in Waterloo. Mrs. Johnson made frequent visits to this city and was many times a guest of Mrs. Will H. Olds. Only last summer Mrs. Johnson spent some weeks here and at that time stopped at the Wayne hotel. She had many friends here.

The funeral of Mrs. Johnson will be held on Sunday and the interment will be in Waterloo.

Mrs. K. L. Seaman, who has been a patient at St. Joseph's hospital for the past ten days, has recovered sufficiently to return to her home, 331 West Creighton avenue.

SOCIETY

It is a source of gratification to many women, especially those of youthful years, that there is comparatively little giving of parties and but few meetings of bridge clubs during this month. Interest is pretty generally divided in bigger things, the "Egypta" production for the Playgrounds association, the program and entailing work for Public Health week, sales for benefiting some hospital or children's home, entertainments of an educational nature for children at the public library, study clubs' annual social gatherings, and the general overhauling of wardrobes in planning for a warmer season and incidentally, the selection of spring and summer millinery. Of course spring "openings" attract crowds of visitors because every woman wants to see what other women are likely to wear, even if she herself wouldn't be seen in a "harem scarem "skirt.

* * *

Mrs. F. G. Gauntt, of Washington boulevard west, entertained for the third time this season, this afternoon, guests for six tables at bridge. A profusion of spring flowers of various colors and blooming plants were grouped in the rooms and were a beautiful and fragrant source of pleasure to the entire company. Pink, white and yellow were the prevailing colors. In serving refreshments after the game Mrs. Gauntt was assisted by her daughter, Miss Olive, and by Miss Margaret Underhill and Miss Marguerite Bicknell.

* * *

The members of the Nineteenth Century club held their annual banquet at 1 o'clock today at the home of Mrs. E. Ralph Yarnelle, who was assisted by Miss Abbie Keegan, Miss Kate Chapin and Mrs. Page Yarnelle Mrs. Charles Haas, of Wabash, a former member of the club, was present. Covers were laid for nineteen, the only absent member of the club being Miss LaVon Sperry. The long table had a low arrangement of spring flowers in its center and the small tables used in seating a part of the guests were decorated with vases of a mixture of flowers. At each plate lay a favor of pink rosebuds and forget-me-nots.

* * *

An exceedingly pretty party of last evening was the meeting of the Hungry club with Mr. and Mrs. H. P. Moses, of Columbia avenue. An appropriate decoration at the dinner table consisted of green candles in crystal candlesticks and real Irish potatoes in which were stuck tiny green flags. Place cards were green in color, green and white carnations were a beautiful center decoration and tally cards for a game of five-hundred displyed the same effective colors. Covers at the dinner were laid for sixteen.

* * *

Miss Theresa Prendergast, of Muncie, is the guest of Miss Marie Calkins for a few days.

Miss Elizabeth Evans is the guest of Miss Geraldine Sembower, of Garrett.

Mrs. F. R. Gilmore has gone to Rochester, N. Y., to spend a month with relatives.

Mr. and Mrs. Urban Bott, jr., of Canton, Ohio, are visiting Mr. Bott's parents, who live at 1202 Broadway.

Miss Florence Parnin, accompanied by her niece, Miss Doris Panin, has gone to Chicago to visit relatives for a few days.

Mrs. Harold Stark, who had, with her baby, been visiting her parents, Mr. and Mrs. I. N. Taylor, returned today to Detroit, Mich.

Master Henry Patterson, son of Mrs. Reuben S. Patterson, entertained a few boy friends this afternoon at a pretty party in celebration of his birth anniversary.

Mrs. Will Gates, of Clinton street, entertained friends yesterday afternoon in honor of Mrs. Max Horning, who will leave next Tuesday for Rome City to live.

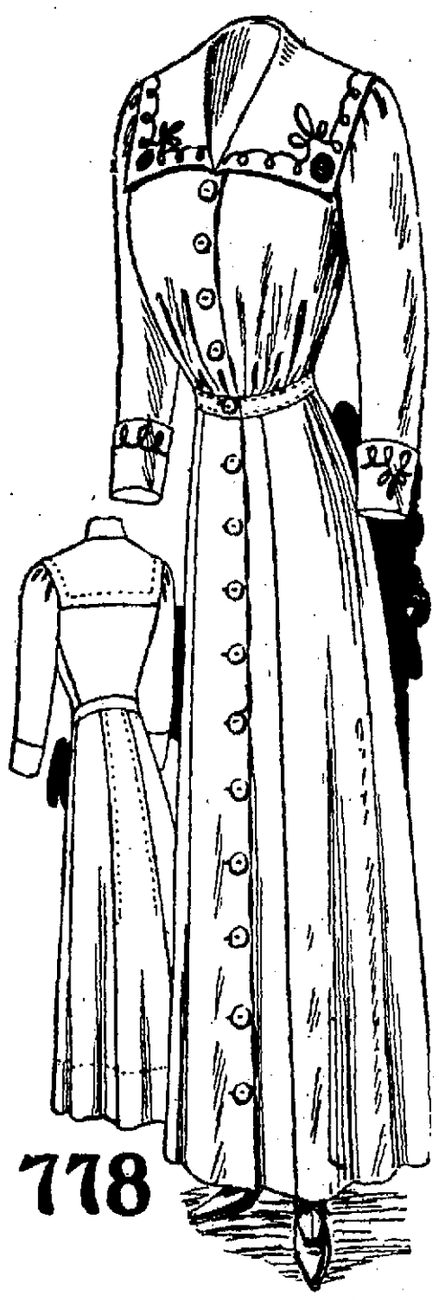
The Lakeside Aid society will give a pedro party at the home of Mrs. C. Seib, 924 Rivermet avenue, on Tuesday of next week. The assisting hostesses will be Mesdames Fissel, Baxter, Waldschmidt, Houser and Haines.

Mr. and Mrs. Henry Wood Fay, of Chicago, were guests yesterday of Judge and Mrs. Walter Olds. The guests were on their way home from the Bermudas, where they went directly after their marriage. Mrs. Fay will be remembered by friends here as Mrs. Nellie Webster.

Mrs. John H. Rohan, of Fairfield avenue, was given a pleasant surprise yesterday afternoon by a few ladies who have formed a pedro club for a number of years. There were eight

A STREET COSTUME.

BY MRS. JANE FORD.



6 SIZES 32 TO 42 BUST

A handsome street dress of linen, which style suggests good taste, is sketched here. This brings to us an important point, which, to be well dressed, must be understood, and that is that simplicity must be the keynote of our clothes. This is true of all gowns, but doubly true of street dresses. There is a rule in art that there must always be sufficient plain surface to show to advantage the ornamentation. If this rule is applied to dressing, one will be pretty sure to make no mistake in over elaborating one's garments.

Another thing that I want to speak of is the importance of selecting a becoming color, articles on which have appeared on this page. It is imperative, to get satisfactory results, that color must not be a question of fashion, but rather what is becoming to one's self. This question decided, a heavy linen in the desired shade, or some of the less expensive weaves of cotton that have considerable body, can be selected for developing this model, and the amateur may then proceed with perfect confidence, knowing that she will be pleased with the frock.

The blouse has a prettily shaped collar and can be finished either with or without the shield and standing collar. The sleeves are the fashionable seven-eighths length, and have a deep turnback cuff that is in keeping with the lines of the collar.

The skirt of this costume is designed so that it will not lose its shape when laundered, and if it is once made perfectly even at the lower edge, you will have no trouble with its sagging. This season the smartest tub frocks are buttoned the full length of the front or side front closing. Pearl or covered buttons are used for the purpose, one being quite as good style as the other, but the girl who wishes to economize will select the latter, as they can be made at home from small pieces of the material, and the only expense will the the wooden forms for covering.

Hand embroidery or a little wash braid is the only trimming that should be used on this garment, and that should be placed on the collar and cuffs. Girls who are about to make this frock will need for the medium sizes eight and one-half yards of goods twenty-seven inches wide, or six yards thirty-six inches wide.

FORT WAYNE SENTINEL PATTERN COUPON.

MENUS AND RECIPES FOR HOUSEKEEPER'S DAILY USE

SATURDAY, MARCH 18.

Breakfast.

Fruit.
Cereal. Sugar and Cream.
Broiled Chops. Fluted Potatoes.
Sally Luns. Coffee.

Lunch.

Egg and Fish Salad.
Nun's Toast. Tea.

Dinner.

Raw Oysters.
Vienna Steaks. Mashed Potatoes.
Stewed Parsnips.
Patercress. French Dressing.
Wafers. Cheese.
Moule au Chocolate.
Coffee.

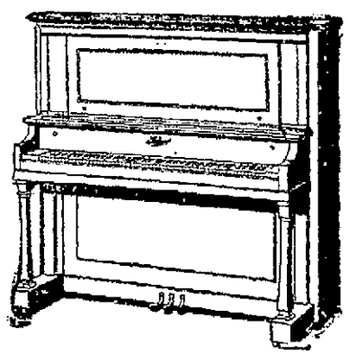
RECIPES.

Vienna Steaks.

Take one-half a pound each of raw lean beef and veal; trim off all fat and gristle and chop very fine. Add one-half of a teaspoonful of salt, one-quarter of a teaspoonful of paprika, one-quarter of a teaspoonful of mixed sweet herbs, one teaspoonful of chopped parsley and one teaspoonful of chopped onion. Stir in one well beaten egg and set aside until the next day. Form into steaks and saute quickly in butter. Serve on a hot platter with mashed potatoes in the center and brown gravy in a sauceboat.

Moule Au Chocolate.

Two ounces of chocolate, yolks of two eggs, one and a half cupfuls of milk, one heaping tablespoonful powdered gelatine, two tablespoonfuls of sugar, a quarter teaspoonful of lemon extract and quarter teaspoonful of vanilla extract. Break the chocolate into small pieces and put it into a saucepan with half a cupful of the milk. Dissolve slowly over the fire and cook until smooth. Remove the saucepan from the fire, add the remainder of the milk, gelatine, sugar and yolks of eggs. Stir again over the fire until almost boiling and until the gelatine is dissolved. Strain into a basin, add the vanilla and lemon and cool slightly. Turn into a wetted mold. Serve with plain or whipped cream.



Music--good music--is restful and beneficial

From the harshness of the day's work to the beautiful melodies of Schumann and Rubenstein is a soothing, delightful change. And the restful pleasure is greatest from

THE SWEET-VOICED PACKARD

It is the selection of those who know—who choose with artistic discretion. It's warm, sympathetic voice will make your home brighter and happier.

Hear the Packard today. Easy terms of payment. One price to all.

The Packard Music House
930 Calhoun Street, Fort Wayne, Indiana

Mrs. Lillie Boston, of Melita street, had a surprise on Thursday evening, given by a company of relatives and friends who remembered that it was her birth anniversary. There were present Mrs. Porter Reed, Mr. and Mrs. Merl Johnson, Mr. and Mrs. W. L. Shutt, Mr. and Mrs. A. W. Arter, Misses Elizabeth Benenstein, Anna Chodinski, Elizabeth Dornick, Nellie, Alice and Lucella Stirling and Messrs. Raymond and Arnold Lee, Homer Hobbs, John Oberle, James Teagarden, Adolph Berger, Samuel Lewis and Mr. Norwald. Music was furnished by Messrs. Raymond and Arnold Lee.

A pleasant affair of last evening was the informal company which Rev. and Mrs. Potts entertained in honor of Miss Elizabeth Brookes, of Pittsburg. The color scheme was green and white and was carried out in both the decorations and refreshments. The guests were Misses Lucile House, Jessie Parker, Irene Boshler, Isabelle Rogiers, Maud Eckelberry, Lyda Cline, Pearl Nelson, Jennie Goorley, Mr. and Mrs. Roy Young and Messrs. Walter Barr, Irving Bitner, Arthur Parry, Charles Clippinger, George Blakesley, George Fishering, Grant Strathern, Edward France, Herbert Shulze and Joseph Fitch.

* * *

Country Surprise Party.

Neighbors and friends of Mr. and Mrs. Eugene Vuillemin gathered at their home near Nine Mile on Saturday evening, March 11, to remind Mrs. Vuillemin of her birthday anniversary. The affair was a surprise and was planned by Mrs. Charles Feichter. The guests came with well filled baskets and at a late hour a fine lunch was served. The evening was spent in music and playing games, and a pleasant time was enjoyed by all. Those present were Mr. and Mrs. Charles Feichter and son Homer, Mr. and Mrs. Simon Genth, Mr. and Mrs. Jacob Sutter, Mr. and Mrs. Louis Witzgall, Mr. and Mrs. James Nonamaker, Mrs. Eliza Sutter, Mr. and Mrs. George Scherer, Mr. and Mrs. William Feighner and the Misses Clara Mallo, Effie Nonamaker, Anna Feighner, Lizzie Sutter, Tena Feighner, Elizabeth Vuillemin, Laura, Grace and Stella Mutton, Addie and Sadie Feighner, Effie, Florence and Pearl Feichter, Ethel Scherer, Cleora Genth and Messrs. Dan Sutter, Frank and Edward Vuillemin, Arlon Sutter, Floyd and Howard Feighner, Howard and Lee Scherer, Ed Sutter, Frank, Clarence and Clifford Feichter and Russell Feighner.

Schie—Roth.

Miss Mary L. Roth and John W. Schie were married by Rev. Dr. Zartman at the parsonage of Grace Reformed church at 3 o'clock Thursday afternoon. The bride lives in Franklin avenue.

Russian Symphony Orchestra.

Will Be Heard in This City Under Auspices of Morning Musical Society — Frank Ormsby, Tenor, Sings.

The Russian Symphony orchestra, of which the gifted musician, Modest Altschuler, is conductor, will be heard in this city on March 27 at the Majestic. This will mark the first appearance of this fine New York organization in this city. From the indications the audience will not only be a large one, but it will include the representatives of the community.

FRANK ORMSBY,
Noted Tenor Who Will Sing Here When Russian Symphony Orchestra Comes.

The soloists with the orchestra will be Florence Huebner-Dukes, this city's most accomplished pianist; Leila Joel-Hulse, a contralto, and Frank Ormsby, a tenor of well deserved fame in New York.

Good tenors are rare. Now and then one appears who has the real tenor quality, who is artistic and who sings with an understanding of the demands of the music. Such a tenor, it is said, is Frank Ormsby, who will soon be heard in this city as soloist with the Russian Symphony orchestra, of New York, under the leadership of that celebrated musician, Modest Altschuler.

Coming of Madam Schumann-Heink

Great Program Prepared for Her Appearance at the Majestic on April 3.

The reports from cities where Madame Schumann-Heink is appearing continue to indicate that the madame is now singing at her best. The program arranged for her appearance at the Majestic theater, Monday, April 3, will give lovers of music in this vicinity an opportunity to hear the great contralto at her best. The program is one of the very finest ever arranged by any singer and the enthusiasm with which it has been received in numerour cities where madame has appeared this season, is sufficient evidence of its pleasing make up. In addition to the song classics of all periods and countries, Mme. Schumann-Heink will, as always, present a generous array of songs by American composers. She is an ardent admirer of the gifted writers of this country and believe—apart from the duty of her citizenship—that she is called upon to advance the cause of all who are genuinely worthy in composition. There will be some lullabys, too, which Mme. Schumann-Heink will sing, and to be sung as she alone knows how to sing them. Mme. Schumann-Heink is looking forward with great interest to her appearance in Fort Wayne because of the great interest shown in her coming earlier in the season. The interest displayed is an indication that it will be an evening enjoyed by the entire concert going public of this vicinity and no one will enjoy it any more than the madame herself.

CAST SELECTED FOR "EGYPTA."

Benefit for Playground Association Progressing Favorably.

The first rehearsal for the adult chorus of upwards of a thousand voices, to sing at the coming opera of "Egypta," to be given in April for the benefit of the Playground association, was held last evening in the Elektron building. O. E. Richard conducted the singing and Mr. Chenery, of Chicago, who has charge of the production, with years of experience to back him, was present and took a hand in directing. Today Mr. Chenery, with Prof. William Miles, conducted rehearsals of school children from 2 to 4 o'clock in the city hall building. All rehearsals as well as the response and willingness to help along this great work are highly pleasing to Mr. Chenery, who sees all promise of a great production of the beautiful opera. The committee in charge of assigning solo roles are highly gratified by the hearty response of leading vocalists to assist. The parts already filled are:

Meneph-Tah, Pharaoh of Egypt... ..... George Anderson
The Prince, Pharaoh's first-born Son ..... Master Paul Bachelor
Moses, Act I, the Babe .....A babe
Moses, Act II, the Boy .... Master Robert Porter
Moses, Acts III and IV, the Prophet ..... Earl Thompson
Aaron, Brother of Moses .... Earl Ehrhardt
Amram, Father of Moses .... S. R. Taylor
Jethro, Priest of Midian and Father of the Shepherdesses .... W. Schwartz
Herald of Pharaoh's Court .... Mr. Hesketh
Egyptian Overseer .. Mr. Zimmerman
Thermuthis, Pharaoh's Daughter.. ..... Mrs. N. C. Myers
Jochebed, Mother of Moses .... Miss Florence Robinson
Miriam, Act I, Sister of Moses .... Miss Helen Davis
Miriam, Acts III and IV..... ..... Miss Helen Loos
Zipporah, Daughter of Jethro and Wife of Moses ....Miss Lucile Vail
Messenger Angel .... Miss Aline Vail
Prince's Attendant ..... A small boy
Festival Pianist....Miss Leah Cohen

Committee in charge—Mrs. D. Ferd Urbahns, Mrs. Clara Zollars Bond, Mrs. Clark Fairbank, Mrs. Will Peltier.

Y. W. C. A. CALENDAR

Program of Social and Study Events for Coming Week.

Basket ball practice will be held every evening except Wednesday at 8 o'clock.

Monday—Millinery class at 7:30 at which several new hats will be begun. Those finished are very satisfactory and pleasing.

Tuesday—French lesson under Mme. Rost at 7:15 and shirtwaist class under Mrs. Gelsman at 7:30.

Wednesday—Game of basket ball between freshmen and Jefferson school teams at 4:30.

Thursday—Miss Bernice Dick, of Pierceton, a student of Mr. Bailhe, will give a recital in association parlors during the noon hour. Mrs. John P. Evans will entertain socially the Girls' Bible class in the afternoon at her home in Old Fort place. The class in parliamentary law will not meet this week.

Mr. and Mrs. Samuel Knott, of Cohoes, N. Y., and Mrs. William Bray, of Cloversville, N. Y., parents and sister of John T. Knott, are here visiting Mr. and Mrs. Knott.

WITH THE STUDY CLUBS

Les Causeries du Mardi will meet on Tuesday afternoon with Mrs. W. S. O'Rourke, 1401 Washington boulevard west.

The Travel club will meet on Monday with Mrs. Quicksell. The program of study will be "Copenhagen to Odense," by Mrs. Clear and "Gustavus Third" by Mrs. Louise Van Arnam.

The General Culture club will meet on Thursday with Mrs. Bolens. The Shakespearian study and the historical event of "Administration of McKinley" will be the program. Current events will be discussed as usual.

The Saturday club will meet on Monday with Mrs. John Evans and "The Art of Ibsen" and "The Doll's House" will be discussed by Mrs. Chester T. Lane.

The Nos. Temps club will meet on Monday with Mrs. W. H. Reehling, of 423 East Suttenfield street, instead of with Mrs. Gall. "Calcutta, the Imperial City" and "India and Her People" are topics of study.

The Nineteenth Century club will meet on Tuesday with Mrs. Keegan. A study of flower festivals of America and Japan will be presented by Mrs. Hugh G. Keegan and of southern Spain and Italy by Mrs. A. W. Pickard.

The Fortnightly club will meet on Monday evening with Mrs. Ivers Leonard, who will read a paper on "Forgotten and Unfamiliar Poems." The discussion will be led by Ronald Dawson, Mrs. Max B. Fisher, Dr. G. W. McCaskey and Miss Lowry.

The House That Saves You Money.

A Page of Interest to Women

TO BEAUTIFY THE ARMS.

Pretty arms are acquired quite as much by care as by nature. Regular use of a good flesh brush, and the nightly application of an agent nourishing to the skin, will accomplish wonders. In the present vogue of short sleeves the result will repay the trouble.

A flesh brush is indispensable, and in my opinion the texture of the skin is always made finer by its use. Singularly enough, Americans, as a nation, use a cloth, while the English use a brush. There is no doubt as to the better color and skin of the latter. A brush stimulates surface circulation and at the same time prevents an accumulation of old skin, which cannot be properly removed by a cloth.

The roughest portion of the arms is either the elbows or the outer part between the elbows and the shoulders. Both should be brushed night and morning vigorously, but not so severely as to cause pain. A good soap which will make plenty of lather will aid in softening the surface.

Dry Thoroughly.

Drying should be done with the utmost thoroughness, and at night, while the skin is still warm, a grease should be applied, rubbing it into the pores until they will take no more.

To treat the elbows, a small quantity of sweet almond oil may be poured into two small china basins. Each bowl should be just large enough to admit the elbow when the arm is crooked. There should be oil enough to cover the elbow, and the liquid should have been slightly warmed, but not heated.

In this bath the elbows are to remain ten minutes, after which they are gently mopped with absorbent cotton. The same bits of cotton are then soaked in the oil till they have taken all they will without dripping, and one pad is bound on each elbow. A piece of oiled silk or stork sheeting cut into a bandage will prevent the grease from coming into contact with the bedding.

Rub With Olive Oil.

When there is roughness of the upper arm, or it is desired to make them a little fuller, they should be rubbed with grease, choosing either almond oil or sweet olive oil. The latter is particularly good.

Massage should be repeated with the oil in the morning as well as at night. To obviate danger of greasing the garments, wiping and dusting the skin thickly with powdered arrowroot will be found sufficient.

MARGARET MIXTER.

DRAPED STRAW TURBAN.

PHOTO - COPYRIGHT - BY JOEL FEDER.

The dainty draped straw turban is made from one of the new Tagal strips. With a bunch of velvet flowers over the right side, and the corn trimming at the back, it is worn well over the right eye and is very smart.

THE COLOR SCHEME OF BEAUTY.

The Ugly Ducklings.

By ROSE C. TILLOTSON.

A letter has come to me asking aid for the ugly ducklings. A woman who describes herself as a "brunette with drab hair, dull brown eyes and a yellow skin," asks that I shall tell "the hundreds of unattractive women one sees on the streets every day" what colors they may wear so as to improve their appearance.

In the first place I shall say to the ugly ducklings that they are ugly of their own accord. This seems a very harsh statement, but it is true nevertheless. No woman ever came by drab hair, dull brown eyes and a sallow complexion naturally. If she possesses these undesirable features, they are the outcome of her own neglect. Nature has a way of creating beauty and meddling mortals of destroying the same.

Of course there are many members of that sex which is invariably described as fair who are far from it. Their eyes may be too small, their mouths too large for a beauty, or perhaps their noses miss the Venus mark by a very large margin. But even these defects may be hidden in the ensemble of an appearance which may be made pleasing through an effective arrangement of the hair, an expression of sweetness or a complexion in which bloom the roses of good health. Ugliness is not so much a matter of feature as a mismanagement of the few good points which every woman possesses.

Laziness Precludes Beauty.

Probably there is no woman in the world who does not long secretly for beauty. Yet there are a great many who are too lazy to cultivate the qualities they desire. Beauty, let no one mistake it, is a hard task mistress—one who demands constant care. Pretty women realize this better, probably, than their less attractive sisters, for they have found that it takes a good deal of time and attention to preserve the good looks with which they have been blessed. It is just here that the ugly ducklings have failed. They have neglected to nurture whatever good points nature has given them.

There is, of course, no reliable recipe by which an ugly duckling can be changed into a pulchritudinous swan. If there were, all of us would be fascinating sirens and the beauty shops would go broke. There are, however, a few simple rules which, if faithfully followed, will enable any woman, no matter how ugly, to improve her appearance.

Women who have dull eyes, drab hair and sallow complexions must set about first to remedy these faults. If their complexions are sallow, it is because of ill health. Let them exercise, eat simple foods and consume as much water as their systems will hold. If hair is drab, it is because of neglect. Five minutes' brushing each night will work wonders, while a pretty coiffure will make even drab hair look attractive. Dull eyes should be rested as often as possible. Rest them while riding in the street cars by closing the lids. And there has never been found a better prescription for gaining beauty than plenty of sleep.

"But we haven't time for all these things," I can hear my readers say, to which I reply that every woman can find time to do the things she really wants to do.

Now we come to the question of color, which, of course, is of more importance to the class now under discussion than any other type of femininity.

Avoid Brilliant Shades.

Women who are dull in coloring should never surround themselves with brilliant shades. They will only accentuate the point which they wish to conceal. A dull jewel is never combined with a beautiful brilliant; the contrast is too great to show off either to any advantage. Women of this type should learn a lesson from the jewelers, surrounding themselves only with such hues as will harmonize with their own indifferent coloring.

It must not be supposed, however, that the wardrobe will be unattractive because it must be selected from the sombre shades. There are a great many colors in the softer tones which are very beautiful.

A soft gray can always be worn to advantage by drab women, as it throws whatever color they may have into high relief. The subdued plums and purples are also attractive, as is that pinkish brown shade called ashes of roses. Blue in almost any tone except the most brilliant tints, such as electric, Yale blue, etc., can be worn by women who belong to this class. For evening wear, lavender, pink, in its lighter tones, yellow combined with some deeper tone, such as gold or blue, which will give it character, a baby blue and a very soft shade of rose are the colors which should be selected. Those to be avoided are brown in almost any tint, green in all its variations, red and black and white.

RIDING TOGS FOR SPRING WEAR

FROM FRANKLIN SIMON & CO. FROM DUNLAP

FROM FRANKLIN SIMON & CO.

PHOTOS BY JOEL FEDER.

THE SECRET OF YOUTH

"You cannot keep young looking if you do not take some rest," declared a woman of aggravating youthfulness. "Of course, I know life is far too full for us all, in one way and other, for any to give up the time we should to quiet, so I snatch it as I can.

"But I will rest. I absolutely refuse to be an old woman before seventy. How do I get quiet? Well, in the cars, for instance, whether it is surface, elevated or subway, the instant I am seated I close my eyes. You see it is about her eyes that a woman first begins to show her age, and if she is over tired fine lines will appear there, making her seem older than she is. Just simply closing the eyes occasionally will help much toward preventing that, for fatigue is a muscular contraction.

"I dare say persons in the cars think there is something odd about me, and I even had one woman tell me that if I didn't take care people would think I had a sleeping sickness. But I don't care. I look young enough to pay for that.

Warm Water Bath Restful.

"As soon as I go into the house, if I have only ten minutes, I go immediately and bathe my eyes in warm, not hot, water. The latter would make them red; while warm is simply relaxing. I finish this with a rinse in cold water and then if I have any more time I throw myself into a big chair, put my head back, close my eyes and do nothing. I try not even to think. If you think it simple to do the latter, try it.

"Always before going out in the evening I put some slight tonic in my eyes. Not a brightener, you know. I think them pernicious. But a few drops of camphor and rose water, in equal parts, is refreshing to the balls and may be put over them.

"On coming home they get another soaking in warm water and more tonic, having the latter just before I turn out the lights, so that the balls are deluged for the night."

MARGARET MIXTER.

Now that the frost is out of the ground and crocuses and tulips are making the park borders gay, the bridle paths are filled with happy equestrians, making the most of the spring weather. There schools of young misses accompanied by watchful, critical riding masters and there are single riders—smartly dressed young girls mounted on blue ribbon horses and followed by correct looking grooms. The riding girl must dress with a certain conventionality even if her costume is of the informal sort considered the thing for morning rides or country wear. Her habit is usually made of diagonal serge, pin checked worsted stuff, or dark mohair and hat, gloves and boots are selected to correspond in style. The riding habit illustrated is well cut and smartly tailored, the skirt hanging evenly as its wearer stands, and the coat having the slight "spring" over the hips, which makes a riding coat set when its wearer is in the saddle. The material of this suit is heavy mohair in dark brown, and derby hat, soft calf skin boots and heavy gloves are also brown. The stock is immaculately white. Under the beautifully tailored coat is worn a mannish shirtwaist of striped brown madras; and later, when the weather is warmer, this shirtwaist with its smart stock and straw sailor or continental hat, will be worn for riding in the country.

A white porcelain bath tub that has grown brown may be most perfectly cleaned by the use of spirits of turpentine applied with a flannel cloth.

If family silver is to be packed away

THE CHANTICLER HAT

PHOTO BY VEDDER.

GRACE NORMAN IN NEW EASTER HAT OF HER OWN DESIGN, THE LITTLE CHANTECLER.

Little Grace Norman, who plays the roie of the young goose in "Chantecler," has designed a hat so quaint and pretty that one of the large department stores has adopted the style and will make it one of their prominent displays this spring.

Last Tuesday evening, Grace, who is eleven years old, was playing at making hats with one of the other girls of the company. The Burmah rooster had shed several tail feathers in squeezing through the scenery, and she had picked them up and taken them to her dressing room.

With the lace fringed petticoat that she had thrown aside when she put on her costume, and with the tail feathers, she concocted a hat almost exactly like that shown in the picture. The wardrobe mistress was passing at the time and was called in to see the "creation."

"With an ostrich plume and a little different lace it will be wonderful," she exclaimed.

The next day these materials were purchased and the child made another hat of them. The result was taken to the millinery department of a large store and was enthusiastically received. With the exception of a ribbon to tie it one, and a wire or two to stiffen it the hat is identically as she designed it.

The hat is particularly pleasing because it is simple and light. The youthful designer has named it "The Little Chantecler Hat."

LATEST THINGS IN LINGERIE

When you see some of the soft, clingy and entirely adorable crepe lingerie which is shown in the French shops now, you will simply throw discretion to the winds, take out the bill you were fondly cherishing for something or other and have the temptress—who in this case is the little saleslady with the queer accent—wrap up your pet piece. Then you'll hurry home to "try it on," revel in the possession of it and linger over the luxury of its dainty laces and fascinating ribbon bows.

And, really, you won't be so indiscreet, after all, especially if you are a girl without the privilege of a home, because the crepe lingerie doesn't require a laundress to be made fresh and clean. Usually it is combined with real Torchon or Irish crochet, both of which can be pulled into shape without the aid of an iron.

Just the Thing for Traveling.

Many a girl who travels has found it impossible to gratify her longing for dainty underwear because of the uncertainties of laundering. After having it returned a few times torn and spoiled, she has settled down to plain garments devoid of any irresistible little feminine touches. For her the silk crepe idea will be a positive joy, for she can retire to her hotel bathroom, and, with the assistance of a cake of good pure soap, may restore her lingerie to its pristine glory and loveliness.

The new garments come in every weight from the heaviest silk crepe to the filmiest crepe dechine, built into nightgowns, chemise, corset covers, combinations and petticoats. They are show in white and colors and many are elaborately embroidered in self-tone silk.

Another idea for the traveler or the girl away from home is the Italian silk undergarment. It is most familiar as an undervest, but so popular and practical has been extended to cover the entire lingerie wardrobe.

TIMELY TIPS.

It is always possible to have personality in a woman's surroundings. The smallest bedroom in an apartment can "look like her." The serpentine crepes, which cost less than twenty cents per yard, offer all sorts of possibilities. Often the walls of these small sleeping rooms are painted, and it is well to follow this coloring. If the wall is a pale green, use a green crepe with white flowers. Make the couch cover by putting a flounce on it, deep enough to reach the floor. This is much prettier than any of the ordinary covers that are simply thrown over a couch. Make curtains of the same material, bringing them only to the window sill, and extend across the rod, between the curtains, a ruffle about eight inches deep. Use the same for hangings at the door. The pillows for the couch can be varied, but if a floral idea is carried out, by using fancy crepes or light weight cretonnes, the effect is daintier and brighter. Use pale green shades over whatever light is used for illumination and the effect will be greatly heightened. Very little expenditure of money will make an ordinary room attractive and homely.

Among the thin draperies and printed Scotch madras, both in white and colors, is extremely popular. Both the white and colored madras launder successfully. Conventionalized floral designs of rather deep, bright colors on white grounds are extremely good for rooms with plain walls. There are many attractive combinations of color in yellow and brown, blue and green, and blue and brown.

If one is desirous of using the most inexpensive draperies obtainable, it is a good plan to use cheese cloth, which costs only five cents a yard, for the sash curtains, and over this long curtains of blue or green denim, if the rooms are in these shades. Tan or denim may also be used effectively over the cheese cloth, but the blue or green looks especially well. The cheese cloth will wrinkle up in time, but instead of this hurting its appearance it makes the material prettier. The cheese cloth may be finished at the hem with a colored cord.

TO WASH NEW BLANKETS.

Dissolve a quarter pound of rock fuller's earth in boiling water. Add sufficient cold water to cover blankets, and leave them to steep over night. Squeeze out and wash in the usual way. By adopting this method all oil will be removed and less soap required; blankets will be beautifully soft and fleecy.

THE WELL GROOMED WOMAN.

A girl is never well dressed unless her clothes are put on carefully. More than the material or style is required for smartness. Given trigness, a gingham may look indefinitely better than brocade.

Men's linen collars, as a rule, fit better than those worn by women, because the latter do not always understand the essentials of correct neckwear. High turnovers should be almost as close together on the lower edge as they are by the neck. To have the outer embroidered side spread like an inverted V toward the bottom will take away all smartness of effect about the neck. It is this characteristic of standing high and close that men refer to when they say a collar "sets well."

Strange to say, women's seldom do.

Position of the Tie.

If a string tie is worn the bow should be just at the base of the front tips and the loops and ends should be short and square. When a four-in-hand, whether wide or narrow, is chosen the knot must fit up under the collar tips a trifle, otherwise there will be a tendency to fall away, which is very homely.

When a stickpin is used it is put just below the knot and part of the pin itself is exposed, the actual point being thrust in again.

When a wash blouse is being worn it must be trigly and even tightly pulled down into the dress belt. Blousing at the back will make a woman appear round shouldered, even though in reality she may be erect. Hooks on the waist and eyes on the skirt have never been surpassed for holding these garments together, but long, black headed pins form a most excellent substitute. The pins should be at least three inches. They are much better for the purpose than safety pins.

A Careless Habit.

A not uncommon form of carelessness in even the best dressed women is seen when hooks and eyes are not tightly sewed on. The result is that the two edges intended to come closely together fail to do so and the finish is spoiled. It is not that either of the fastenings are entirely off, but that the stitches holding the top of the hooks are gone. Both these and the eyes must be as tightly sewed at the top as they are in the loops.

This is a most important detail of good dressing.

A STUDY IN BLACK AND WHITE

FROM BLOOMINGDALE BROS. PHOTO BY JOEL FEDER.

This hat is one of the new black and white combinations that make such smart between season hats for all wear. The dainty French wrap is new and is in a sort of dolman shape, a model that will be very popular this season, with the soft clining gowns.

Feminine Fripperies

Socks of plain colors are not to be worn this summer by smartly dressed children. Up to the age of twelve, girls will not wear long stockings after warm weather comes on.

Checks and stripes in most striking effects appear in one pair. Blue and yellow stripes form the short leg, while the top is banded with blocks containing the same colors. These are to use with frocks of plain colors, and fortunately for the eyes of those who behold, there are modifications for plaid dresses.

With the latter it is considered best to have plain hosiery with block tops, the same colors being carried out, as a pear in the dress. The only hue which does not come into play in these remarkable stockings is black. For little ones black is mourning, pure and simple, when socks, rather than stockings, are chosen. It is a fine distinction, but one that a careful mother must bear in mind when buying.

Clocks on Their Socks.

Clocks are shown on dress stockings for children, white, more often than anything else, being used for this side trimming. Occasionally one sees red clocks, but they are a little outre, except for adults.

The problem of the best method of holding up socks continues to tax ingenuity. It is permissible, but not desirable to use outside round garters, this elastic being covered with light colored ribbon which gathers of its own accord and finished with a round bow. The objection to them lies in the fact that they are elaborate, and therefore unsuited to little people.

One mother has arranged a method that suits in her eyes, but it is a bit troublesome to prepare. In the top of the socks she saws bits of tape through which narrow elastic is passed, the latter fastening with a hook and eye that it may be pulled out easily. The elastic, of course, acts as a garter, being cut to fit the limb.

Folding of the Stocking.

If the top of children's garters are not stretched before wearing, they will stay in place more easily. Decidedly the best method of folding is to reverse the usual order, that of turning the toes in first. The foot is folded under, in the usual way, when coming from the laundry. The two heels are laid together, and then the tops of the socks are rolled up toward the heels. One of the latter is then folded over, turning the top in, bringing the heel out. This, if tried, will be found to obviate the stretch that comes on the top of a stocking when the foot part is turned into the roll first.

Things Worth Knowing.

To take proper care of the pretty japanned trays wash them in warm water with a little soap and dry them with a soft cloth, polishing them with a dusting of dry flour or a drop of sweet oil.

If silver dress trimmings grow tarnished they may be cleaned by covering them with powdered magnesia. Let it remain several hours, then brush it off with a clean brush and polish with a soft chamois.

Ivory knife handles that have become blackened may be cleaned by rubbing with a lemon dipped in salt, after which they should be washed in cold water and they will be quite white again.

If by chance paint spots stick to window pains, do not use a knife to loosen them. A cloth wet in hot vinegar will clean them perfectly.

for any length of time, it should be carefully cleaned, then lightly smeared over with fresh lard and put into the flannel bags. When it is brought out a bath in hot water and silver soap makes it ready for immediate use.

A FLAT ROSETTE AS TRIMMING.

Usually there is no trimming, but if a little relief is desired, then a flat rosette or buckle fashioned from crepe is added at the left side.

Wings of crepe trim mourning hats, and the popular cockade formed from mourning ribbon is much favored by young women as a decoration for a perfectly plain silk or dull terry velvet hat.

So many women nowadays wear white for mourning and for gowns there is nothing smarter, and incidentally more practical, than the fine cotton crepes. They drape gracefully, wash perfectly and require no ironing, therefore are ideal for warm weather wear.

Trimmings of dull, heavy white silk, made removable, harmonize with the crepes, and so does the cord girdle. In fact, anything a little solid looking may be chosen. Crepe made up alone or with fragile looking trimmings is apt to lack character at any time, while it will surely fail to give the impression of mourning unless combined with something a little substantial.

SPECIAL CAR TO ENTER BIG RACE

Joe Dawson Will Have a Speeder for Big Event May 30.

YOUNG SPEED DEMON

Indianapolis, Ind., March 18.—The daring success of Joe Dawson and the fast-flying cars in 1910, his first year of motor racing, has inspired the Marmon company to build a special speed craft which they will launch with the indomitable Joe at the wheel in the $25,000 500-mile international sweepstakes race on the Indianapolis speedway, May 30. The special car together with another Marmon have been entered in the long grind.

Dawson a mere "kid," was the hero of a half dozen desperate finishes in some of the greatest classics on the 1910 calendar of motor racing events. Making his debut at the May races on the Indianapolis speedway last year Joe won several short distance events that gave him something of a reputation. He was called a youngster of promise, but the critics never dreamed he could more than fulfill those promises in less than another month.

The great speed carnival on the Indianapolis track in July gave Dawson his chance. Hurling the yellow-jacketed Marmon car onward over the brick surface at a speed that held the throngs spellbound, Dawson—the kid—won the 100-mile dast for the Remy trophy and left a trail of new records behind him.

His name was flashed across the country as a new star within a night. And on the succeeding day came the 200-mile struggle for the magnificent Cobe cup trophy. In a bitter duel with "Wild Bob" Burman, Dawson whirled his Marmon to victory at lightning speed, shattering the old marks at one mile-post after another. Three seconds separated his speeding Marmon from Burman, who was driving with all the reckless courage that gave him the title of "Wild Bob."

The victory in the Cobe cup race, with bits of tire flying from the thin shoe that threatened to go every second of the cruel last lap, etched the name of Joe Dawson upon the hall of motor fame. His successes came thick and fast then and the season ended with Dawson occupying the coveted niche of one big star developed during the season.

In the Vanderbilt cup race Dawson and his Marmon lost the great contest by a scant few seconds, but Joe stopped for six minutes during the combat when he struck a spectator and thought he had killed him. Absolutely thoughtless about his own safety and with the word fear left out of his vocabulary, Dawson trembled and broke like a child at the thought of hurting another. When convinced the man he had struck was not killed, Dawson mounted his seat and drove like a wild man. But it was too late. The precious minutes lost could not be regained and he had to be content with second place and the donor's trophy.

At Atlanta in November Dawson again piloted the Marmon to victory in the 100-mile City of Atlanta trophy and won other shorter events. He climaxed his first season of racing with his triumph in the Savannah challenge trophy race the day before the grand prize. Driving fearlessly with the true inborn racing instinct, Joe sent his car over 278 miles without a stop at better than sixty miles an hour—the longest non-stop road race record in the history of the game.

LIVE WIRES ON SPORT

Chicago, Ill., March 18.—President B. B. Johnson, of the American league, has gone to Washington in response to a call from President Thomas Noyes, of the Washington club. He will arrange with the officials of the club to put up temporary stands and provide accommodations for patrons who were thrown out by the burning of the stands yesterday. All of the stands went up in flames and temporary ones will be used this season and at the close a concrete and steel structure will be put up.

Chicago, Ill., March 18.—Henry Bahn ("Sampson"), the wrestler injured Thursday night when tossed by Champion Frank Gotch in the windup match of the Empire Athletic club at the Coliseum, is progressing favorably on the road to recovery. At St. Luke's hospital, where the injured man was taken after the bout, it was said that he sustained no broken bones, but was suffering from shock.

Mobile, Ala., March 18.—Cavitt's wildness was responsible for a beating administered by the Mobile club to the Dayton regulars. Cobb hit a home run over the fence during the engagement.

New Orleans, La., March 18.—Johnny Kling, the tardy member of the Cubs' squad, reached here last night, just before 9 o'clock, having been delayed in Kansas City a day later than he expected. Johnny was looking fine and said he would be in a suit for work in the morning. It is likely he will not catch in any of the exhibition games before the team reaches Louisville on the way home.

New York, March 18.—Hugh McIntosh, the Australian fight promoter, has announced his intention of coming to America this summer to persuade Jack Johnson to get back into the ring for a series of battles in London and Paris next fall.

Chicago, Ill., March 18.—Before his bout with Sampson Thursday night Champion Frank Gotch accepted and signed a contract with the Empire Athletic club to wrestle any man in the world a finish match, catch-as-catch-can, for the championship, on any date chosen by the club within the next six months. Gotch will receive $20,000 for his services in this match.

Chattanooga, Tenn., March 18.—Pitcher Bill James of the Toledos, who are training in this city, is confined to his room at the Hotel Patton with an attack of appendicitis.

Beautiful Washington The Capitol, White House, Treasury, Monument and all of the Nation's Public Buildings and Museums; Mount Vernon, Alexandria, Arlington; the making and destruction of National currency, interesting details of history and of government, are all described and charmingly pictured in the **Washington Standard Guide.** 200 illustrations, 2 maps. A beautiful book, telling what every American child or grown-up should know of our Federal city, the most beautiful of the Capitals of the world. Yours for 25 cents, coin or stamps. (A beautiful Washington post card if you mention this paper.) The Foster & Reynolds Company, No. 1 Madison Ave., New York.

KOCHS GETS BIG SCORE IN MATCH

Tabs 236 and Married Men Run High Mark in the Final Game.

THE BOWLING SCORES

Kochs rolled 236 in his final game of the series between the Married Men and the Shields five at St. Mary's alleys last night and all of his teammates helped with good bowling, enabling the team to run nearly a thousand pins. This gave the club the last game, but it lost the series 2 to 1, although the Haberdashers were more than a hundred pins to the bad in the general total. Noll tabbed an even double in the closing round. Obergfell rolled 192 for high and took the average for the winners. The scores:

—Shields.—

MAGNOLIAS WIN HANDILY.

Fox Brothers Easy Victims in First League—El Venzos Win.

In the First Brunswick league games the Magnolias won three games from the Fox Brothers in handy fashion. John Beckes got the best individual mark with 210, but Heine picked off the average.

The El Venzos slipped in the second game and the H. O. five won it, but lost the other two. Carr opened with 219 for high score, but Captain King beat him a few points for average. Traxler and Lawrence split the honors for the losing team. The score:

LITTLE DIAMOND STORIES.

One of the veteran Pirates tells a good story on himself—of how he pitched a 12-inning game last year, holding the other fellows down to a couple of bingles while he was half "splifficated."

"It was my turn to pitch," said the raconteur of this veracious tale, "and before leaving the clubhouse I was seized with a violent attack of cramps. Sending a boy out for a half pint of whisky and a couple ounces of jamaica ginger, I mixed them both and drank very nearly all of it.

"I had reported off sick, and after a while my head began to swim. I was not used to drinking liquors, and before I realized what was coming off was about half seas over.

"Hurrying out to the playing field I asked Clarke to let me pitch, saying that my cramps had disappeared and that I felt fine.

"Fred looked at me, never saying a word. Finally he consented to allow me to work, and I pitched the best game of my life, not a hit being made by the other fellows until the ninth inning.

"Throughout the entire session I was seeing double, but somehow I appeared to have better control of my curves than ever before. However, after our fellows had won in the twelfth I was well satisfied to quit.

"Never again for mine!"

* * *

Some of the Pirate recruits at West Baden are victims to the cigaret habit, but all have received their lessons now and there is nothing doing in the "paper smoke" line.

Bobby Byrne, when this subject was broached told an amusing story on himself. It occurred last season in New York. Bobby isn't a regular smoker, but he bought a package of the contraband goods and had it in his coat pocket when the balloon went up.

The players were standing in front of their hotel, when Manager Clarke happened along and did as he does every once in a while—started to search for cigarets. Bobby was caught red-handed and was forced to listen to a strenuous lecture.

Vin Campbell had a package on his person, but, seeing Clarke approaching, he hurriedly stuck them into the coat pocket of an entire stranger nearby. Since then Byrne hasn't indulged in cigarets.

* * *

Mattie Kilroy, in Joe Sugden's opinion, could get more men napping and do it neater than any twirler in the history of the game.

Kilroy was with Louisville in the 12-club National. He could look directly at the batter and make the throw to first without taking his eyes from the plate. The Louisville first baseman was struck by a ball thrown by Kilroy on more occasions than one.

Patsy Donovan was with Pittsburg at the time. Patsy is now manager of the Boston Red Sox. Patsy came to Louisville one day and made a bet with the hotel proprietor that Kilroy would not catch two Pittsburg players napping.

Patsy got on in the first inning. He took a fair lead and the ball came from Kilroy like a flash. Patsy was out. The fourth inning also found Patsy on first. Same thing occurred again. After the game Kilroy walked over to Patsy:

"Say, Donovan, I understand you had a bet on with some guy down town that I wouldn't catch two of your men off base. I thought I would get you both times, so you wouldn't blame any other man on your club for losing the bet."

At it 42 years. The oldest and best, we lead, others follow. Zimmer Carpet Cleaning Co. Phone 496.

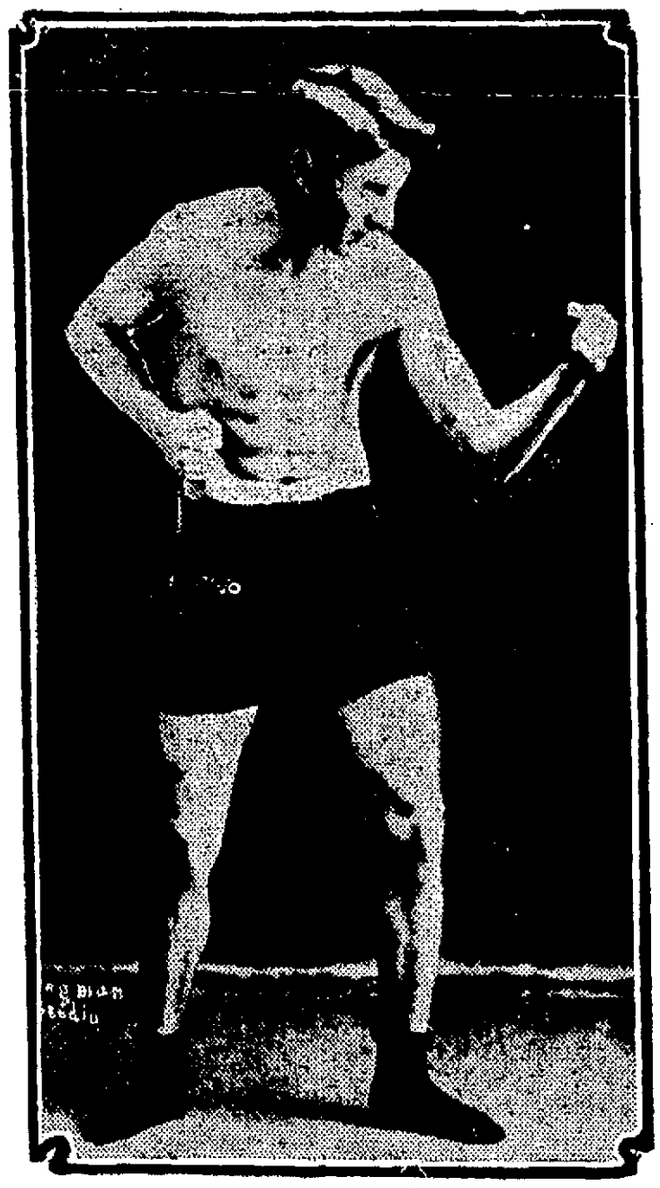
ENGLISH LIGHTWEIGHT IS BACK



New York, March 18.—Freddie Welsh, English lightweight, arrived on the Lusitania for the purpose of engaging in several matches with American lightweights. Welsh was met at the pier by Tom O'Rourke of the National Sporting club, who will look after the interests of the English boxer during his stay in this country. Welsh has been working steadily in England and reports that he is in tiptop condition. He said that he will be ready to go into the ring as soon as the effects of his ocean voyage wear off. He bars no one in the lightweight division and hopes to take on several, if not all the topnotchers, of his class.

PLANS TO TRADE POTTER HOLDOUT

Bill Hillinger Has Not Signed Contract and Wants Limit.

OTHER PLAYERS OUT

Zanesville, O., March 18.—Manager Joe Raidy is a little bit worried by the fact that Bill Hillinger is holding out for more money and has a plan on foot to trade him for an outfielder who has been playing with one of the clubs in the Tri-State league.

Hillinger's only grievance is that he has not been offered as much for his services as he thinks they are worth, and is demanding the Central league limit of $200 a month. He has played good ball for the local club and the management would like to hold him, but can not see his salary figures, and for that reason he may be missing from the team when it takes the field this season. Hillinger is at his home in Fort Wayne and has had some correspondence with the manager in the matter of salary.

Hugo Swartling, first baseman is another holdout. His contract has been in his possession for some time and has not been signed and returned, and this is another source of worriment to the manager. Swartling has been in Zanesville a number of times this winter and has stated that he would like to play here, but rumor has it that he has become dissatisfied with four years in Zanesville and would like to get out of the league altogether.

Swartling held out several years ago, but was finally landed inside the fold. He is a good fielding first baseman, but lamentably weak with the bat and this has kept him in class B ball.

The third holdout is Joe Connolly, one of the mainstays of the pitching department for the last three years.

Connolly was known to be bucking from the first, and although mails come and mails go, yet not a return contract from the Woonsocket idol arrives at headquarters. Since joining the Zanesville team several years ago Connolly has always been accorded the best of treatment, and he is popular and well liked by all the fans. His principal objections to signing a contract arose over the salary question. He wants more money and does not want to pitch, preferring an outfield job. Manager Raidy cannot see the change, as he has plenty of outfielders and not enough pitchers. He thinks Connolly is the goods, fully realizing that a fine boxman will be lost to the game if the switch in positions is made this summer.

They sell and satisfy, A Novel, 5c straight Cigar.

HOME SQUAD TO LAUNCH TOURNEY

First Game of Bowling Meeting to Be Rolled on Monday Night.

100 OUTSIDE OF CITY

Schedule for Monday.
—7:30 P. M. Squad.—

Alleys and Team.	
1 Croakers	Fort Wayne
2 St. Mary's Athletics	Fort Wayne
4 Gold Seal	Fort Wayne
5 Enterprise Restaurant	Fort Wayne
8 Hendrickson's Five	Fort Wayne
9 Troy Laundry	Fort Wayne

—10:00 P. M. Squad.—

Alleys and Team.	
1 El Venzo	Fort Wayne
2 Ft. Wayne Ptg. Co.	Fort Wayne
4 Weinand's Lunch	Fort Wayne
5 Lyceum A. A.	Fort Wayne
8 D. & N. Pharmacy	Fort Wayne
9 Cooney's Little Havanas	Fort Wayne

Opening games in the Tri-State Bowling tournament will be started on Monday night, when a dozen of the five-men squads from Fort Wayne will man the drives and officially launch the affair.

An official list of the entries indicates that there are forty-four five-men squads, 101 two-men squads and 203 singles, of which twenty of the five-men clubs are from out of the city, and the event will bring 100 bowlers to the city from the adjacent bowling centers.

With $500 subscribed to bring the affair to Fort Wayne, approximately $300 put up as entry fees from the bowlers outside of this city, and the local fees, the total prize money will amount to $1,125, from which the expense of advertising, printing and paying scorers will be deducted. It has been guaranteed that this will not exceed 10 per cent of the total, and this insures $1,012.50 for the men to shoot at.

The alley expense will be 45 cents for each series, which means an income to the house of a little more than $280. There has been an advance of 5 cents on each game during the tournament for the purpose, it is said, of supplying all new pins and meeting the increased expense that will be entailed by getting the drives into shape to accommodate the bowlers.

There has been no announcement of the prize list, but one special prize of $25 will be given for the visiting club that makes the best score.

Most of the out-of-town clubs asked for and were given insofar as possible the Sunday dates as they want to get through with the games and return home. South Bend and Indianapolis will be here on Saturday and Sunday of next week along with the Mishawaka entries. Most of the other teams are so located that they can bowl their games and return the same day.

COVINGTON AND GAINER ARE AMONG THE UNMARRIED TIGERS

Meriden, Miss., March 18.—The time-honored position of "Doule" Rush as the matinee idol of the Detroit club, remains unshaken as yet, but the fact remains that Detroit is likely to be the happy possessor of a considerable addition to its list of bachelor ball players, with the new material which is to be added to the club.

Mr. Covington is unmarried. So are Messrs. Mitchell and Cavet. Mr. Drake is still a bachelor, though he is admittedly hovering on the brink. Mr. Lafitte hasn't been harnessed yet. Neither Ness nor Gainer admit feminine domination.

With such additions as seem destined to result from this list, the deplorable scarcity of timber for logis, should be far less in evidence than in the past.

Of the veterans remaining on the team, Casey, Bush, Lathers, Works and O'Leary alone remain in a position of single blessedness. Furthermore, at least two have very definite matrimonial intentions. One of these is the University of Michigan "Chicken," who is exchanging letters of a very personal nature with a Grand Rapids damsel, at a very regular rate.

Chick comes very near being the ideal fiance. The other day he was riding on a street car, seated ahead of two gaily-attired young ladies. Various advances failed to attract his attention and finally one of the southern belles began toying with one of his sleeve buttons. "Chick" was horror-stricken. He turned around and said:

"Why, what do you mean? What is your idea, anyhow?"

The lady desisted and made no further advances on the shocked ball player. She was heard to confide to her friend that the Detroit players must be a very proper lot of young men.

FUTURE OF GAME IN THE BALANCE

Trial of Fighters Watched With Interest by the Coast Fans.

WOLGAST UNMARKED

Los Angeles, Cal., March 18.—Fight fans here believe that the outcome of the trials of Ad Wolgast and George Memsic along with Promoter Tom McCarey and Referee Eyton will have a great bearing on the future of the game in the Vernon arena.

The arrests were made last night several hours after the battle in which t technical knockout was given to Wolgast in the ninth round after he had pounded Memsic until he was practically out. Today Wolgast is about and shows no marks from his fight and his victory was an easy one and he won all the way. Memsic was severely punished and he shows it today.

District Attorney Fredericks caused the arrests after the mill was over, although a warning had been sent out before the battle that an attempt would be made to test the law and see if it will permit bouts of the kind that have been staged here for several years. Promoter McCarey does not appear to be worried about the matter and says he does not believe the game will be stopped.

Promoter Milton T. Clark, of the Metropolitan Athletic club of San Francisco, has signed Wolgast and Anton Lagrave, of San Francisco, to box twenty rounds before his club in 'Frisco on March 31. Wolgast is to receive $7,500, win, lose or draw, while Lagrave is content to accept $1,000 irrespective of the outcome. The fighters have agreed to make 133 pounds ringside.

In defending his title last night Wolgast had an easy time. He outfought Memsic in eight rounds, despite the fact that the Los Angeles man put on his best burst of speed in the first four sessions.

After sparring about the ring in the first round, Memsic rushed and landed a wild right swing on the jaw. Wolgast fell into a clinch and Memsic threw him to the floor. The champion sat in a dazed manner for a few seconds and then slowly rose.

Neither boy had any advantage in the second or third, but after that it was all Wolgast. Memsic gradually lost his steam, and by the sixth it was apparent that the end was near.

During the last few rounds Wolgast battered his opponent at will, landing heavily on the body in the clinches and pecking continually at the face. Blood showed from Memsic's nose in the second round and in the seventh his right eye was almost closed.

The tide of battle took a decisive turn in the fifth after the hardest rally of the fight. The boys mixed it on the ropes and Wolgast came out of it stronger. After that Memsic landed but few effective blows. Wolgast showed strong. He did not appear tired at any stage and fought with the utmost confidence. His reputed bad arm appeared to be as good as ever.

The largest crowd that ever saw a fight at Vernon attended.

SPARKS FROM THE SPORT WORLD

Jack Rowan weighs 220 pounds this spring. He is working hard to get off the last twenty, but has not accomplished the feat yet.

Dode Criss, the wonderful pitch hitter of the Browns, is to be fined for reporting late to the team. He will not draw salary until he gets into condition, according to Manager Wallace.

Clyde Engle, Red Sox utility man last season, looks like the man to fill the vacancy made at first base when Jake Stahl retired. Reports from California say Clyde looks better at first every day, and probably will beat Bradley out of the job.

Jimmy Austin expects to hit better with the Browns next season than he did with the Yankees last year because the Browns have few lefthand batters and will see little lefthand pitching. Austin will bat against righthanders most of the time.

Lefty George, the Cardinal recruit, is no exception to the rule among southpaws. He believes that he has it on all of them and that he will mow down the batters in one-two-three order the coming summer. Confidence goes a long way in baseball.

Earl Sykes, with the Dayton club last year and this season with Atlanta, of the Southern league, has reported to the Crackers. The fans in the southern city are pleased with his work. Atlanta has long needed a first sacker, say the scribes of the city, and they have an idea that Sykes will fill the bill.

George Kaler, Nap pitcher, doesn't intend to spend many years in baseball. He studies medicine in winter and his dreams of the future are of a room full of patients instead of a procession of star batters walking back to the bench. Kaler studied medicine at the University of West Virginia last winter.

Jeff Tesreau, big pitching recruit, won a job with the Giants by using a change of pace in a practice game at Marlin Springs, Texas. Two runners were on and Tesreau had pitched two fast strikes to Larry Doyle. Without being coached Tesreau took a big wind-up and sent the ball floating to the plate so slowly Doyle almost fell over swinging at it. "That's the stuff, Tessie," yelled McGraw. "You can get measured for a uniform."

Griffith is pretty well pleased with his pitchers. He believes Fromme, McQuillan, Gasper and Suggs will deliver first class ball this summer, and tend to keep the team up in the race. The Reds have lacked pitchers for a couple of years. With a good pitching staff they would have worked wonders last season. Griff is also pleased over the showing made by Southpaw Barney Schreiber, former Terre Haute and Denver pitcher, while Sevroid seems to be the catching "find" of the season.

SIGNED BY SOUTH BEND.

South Bend, Ind., March 18.—Pitcher Drollinger, formerly of the South Bend high school and Outfielder Kroy have signed up with the South Bend Central league team.

Bring Your Prescription Here

There's but one element common to all prescriptions—good and bad—and that's the formula.

There are different ways of compounding, the scientific and careless way; different kinds of drugs to use, the excellent and the inferior ones; different prices to be charged, the fancy and the moderate price.

Our careful compounding by skilled chemists, with the freshest and best drugs obtainable, at prices that are not exorbitant, like so-called prescription prices, and a promptness that comes only of a desire to make this the cornerstone of our business, are the four cardinal points of this growing business.

Here You'll Always Find Prescription Accuracy.

Doing the Will of God

A SERMON BY

DWIGHT L. MOODY,
AMERICA'S GREATEST EVANGELIST.

Text—Heb. 5:9: "He became the author of eternal salvation unto all them that obey him."

(This sermon, never before published, was preached by Mr. Moody in Tremont Temple, Boston, Mass., February 18, 1897. It is reprinted from the Christian Herald.)

I want to call attention to the fifth chapter of Hebrews, the ninth verse: "And being made perfect, He became the author of eternal salvation unto all them that obey Him."

Eternal salvation means eternal life, eternal safety, eternal deliverance. And we get that by obedience. We are told that "without faith it is impossible to please God;" and you may also say, "Without obedience it is impossible to please God." All the wretchedness, misery, woe and sin in this world come through that door of disobedience. If man will only obey God there will be no trouble. There is where our trouble comes from. Let me give that text again. I want you to get the text if you don't get anything else today. I am glad the word of God has made some people mad. Nothing will put a wound like the Word of God. Here is something true, whether you believe it or not.

What Obedience Really Means.

Mark, it doesn't say "all that feel Him," but "all that obey Him." How did the angels fall? By disobedience. How did man fall? By disobedience That is how he fell. A man is going to rise on the spot where he fell. Let man obey God and all is peaceful; everything comes right then. And did you ever notice that everything else in this world but the heart of man obeys God? All creation obeys God. He said in the morning, "Let there be light," and there came light. Darkness disappeared. He spoke to the earth, "Let the earth bring forth," and the earth obeyed instantly. And one of the proofs that Christ was God manifest in the flesh is that everything but the heart of man obeyed Him. He spoke: the wind obeyed Him, and the sea; and the fig-tree instantly withered away. He spoke to disease, and disease fled before Him. He spoke to death, and death fled before Him; and to the grave, and the grave instantly obeyed. He spoke to man, and man said, "No, I will not obey Him." And that is the trouble. And there will be no peace on this earth until man learns the lesson of obedience.

Man says he doesn't know why God should be so strict about His laws being obeyed. Why, you know that many a man has been shot in the army because he disobeyed—shot down at once. Man wants his laws obeyed, and hasn't God got a right to say that His laws shall be obeyed? Obedience is the best test after all of loyalty to Christ. You cannot have a better test of love than that. If my child says he loves me and never will obey me, I don't care for his love. You don't want any better test of love than obedience. You remember, when Christ was on earth, they came to Him and testified to Him, and said His mother and brothers were outside and wanted to see Him; and He looked around and said, "Who is my mother? Who is my brother? They that do my will; they are my mother and my brother." The man that is nearest to God is the man who obeys the Master fully. That is the one that is nearest. And the one farthest away from God is the one that obeys the least. That is all there is to it. If you want to be brought into the closest fellowship with the Lord, all you have to do is to obey Him. He takes us into the closest fellowship with Him, if we will obey Him.

Now there is another passage in the First Book of Samuel, fifteenth chapter, twenty-second verse; if you have your Bibles, it would be a good thing to read it: "And Samuel said, Hath the Lord as great delight in burnt offerings and sacrifices, as in obeying the voice of the Lord? Behold, to obey is better than sacrifice, and to hearken than the fat of rams. For rebellion is as the sin of witchcraft, and stubbornness is as iniquity and idolatry. Because thou hast rejected the word of the Lord, He hath also rejected thee from being king."

Works of charity will avail nothing, if there be disloyalty and disobedience to God. It is much easier to bring a bleeding lamb and lay it upon the altar than to bring yourself; it is much easier to give a thousand dollars to India, to an institution, or to some church, than to resign your will to God's will. But God doesn't want the money unless the will and heart go with it—unless the man is right with Him. If a man persists in living in disobedience, there is nothing he can do to please God.

There would have been no need of sacrifice if it hadn't been for disobedience. It is much easier to bring a lamb than to come yourself. God wants you. There is a story told of an Indian who was troubled about his sins and he brought his tomahawk, but the Lord wouldn't have it. And he brought his blanket, and his dog and gun, bow and arrows, and the Lord wouldn't have any of them. But, at last, he brought "Poor Indian" himself, and the Lord took him at once. And that's what the Lord wants. He wants you, your will, and He will give you power to do right when He gets control of your will.

Now, you could not, perhaps, have a better illustration of two men, of one who was disobedient and the other who was obedient, than in two ancient scenes. They were about a thousand years apart. Both men belonged to the tribe of Benjamin. One had a kingdom given him and a crown set upon his brow. He was the favored of the whole nation—lifted up above every man in the whole kingdom. He had the loveliest son that ever father had on this earth—Jonathan, one of the loveliest characters in history; so unselfish, so little jealousy about him! He had one of the grandest sons-in-law in history—David; and had as a friend one of the finest prophets that ever lived—Samuel. Samuel was true to Saul and was willing to hand over the kingdom to him, and Saul had the favor of heaven and earth. But by one act of disobedience he lost everything—his kingdom, his lovely Jonathan, his life, and the friendship of Samuel; he lost everything. How many are there who have done the same thing? You have lost because you have been disloyal to Him.

Another Saul had no kingdom, no crown. He was a persecutor of the righteous, breathing out threatenings and slaughter against every one who called Jesus the Christ. At last Christ spoke to him, and what did he say? "I was not disobedient to the heavenly vision." And he won a crown. He won not only the friendship of Samuel and the prophets, but the favor of heaven and the smile of God. The first Saul lost all by disobedience, but this man won it all back. Thank God, we can all do the same if we will. How? In obedience to the heavenly vision.

The Penalty of Disobedience.

I think we have been having some heavenly visions. I don't believe that a great crowd of men would come surging up at midday, leaving business and dinner, to hear words. I believe their idea is to hear from another world, and many of these men are becoming obedient to the heavenly vision. Others will brace themselves and say: "I will not believe. I will not obey." Then you will die in your sins. That is all there is to it. What would God do with a disobedient man in His kingdom? We have got to learn obedience down here or we will not be fit for the kingdom of God. "To obey is better than sacrifice." God wants obedience. Mark you, it is not picking out a few things that we like to do and leaving some things we don't like to do. That is not obedience. If I told my boy to do six things and he went and did five and not the sixth, it would be disobedience. That's all the size of Christianity today—willing to do the easy things; but when it comes to sacrifice, to personal sacrifice, to give up the ballroom, to give up progressive euchre, to give up certain kinds of society that are dragging you down, to give up things that you are sure embarrass your testimony, hindering your progress toward heaven and your influence, then you go against the law of God and you lose the friendship of God. You are going the way that Saul did.

I will read a passage in the eleventh chapter of Deuteronomy: "Behold, I set before you this day a blessing and a curse: a blessing, if ye obey the commandments of the Lord your God, which I command you this day; and a curse, if ye will not obey the commandments of the Lord your God." I will challenge you to find on earth a man or woman who has obeyed the commandments of God upon whom the blessing of God has not rested. I am throwing down that challenge. Let the infidels come and pick it up. Man may profess to obey. Profession is one thing. I may profess to be a prince of the royal blood, but that does not make me one. Does it? I may profess to be a millionaire, but that doesn't make me one by a good deal. When a man becomes a real child of God and obedient, the smile of God comes and the blessing of God comes. Let me read that again: "And a curse if ye will not obey the commandments of the Lord your God, but turn aside out of the way which I command you this day, to go after other gods, which ye have not known."

The Blessing That Follows Obedience.

Now, I ask you a question: If a man turns away into the path of licentiousness, doesn't the curse of God come upon him? If he turns into the path of the gambler, doesn't the curse of God come upon him? If he turns away into the path of drunkenness, doesn't the curse of God come upon him? If he is a dishonorable and dishonest man, doesn't the curse of God come upon him? But if a man will obey God, as Joseph did in Egypt, or Daniel in Babylon, wouldn't the favor of heaven come to him? Hasn't God been true to every one who has been obedient? Can anyone deny that statement? If you want to be blessed, and want the blessing right here, make up your mind now that you are going to obey God as far as you know His will.

You will have no trouble about the Bible and things so mysterious, if you are willing to do the will of God—to give literal, true, prompt, cheerful obedience to the will of God. Martin Luther said he would rather obey than work miracles. It is a sign of being a child of God to obey in little things from day to day rather than to perform miracles. A man may profess, like Baalam, and not be right; but when I see a man or woman who is willing to do the will of God as far as thy know, whether they feel like it or not, then you may know that God is with them. God has a few living, true, faithful witnesses yet.

Did you ever think that there is no record of a man who got a blessing when Christ was on earth who didn't get it in the act of obedience? He said to the man who had the palsy, "Rise, take up thy bed and walk." The man might have said, "If I could have done that I would not have been carried here by four men." But when the Lord commanded, He enabled him; He gave power; and when the man willed to do what the Son of Man told him to do, he was made whole. He might have said, "I don't believe I have got the power. I won't attempt it." Do you think the Lord would have healed him? Not by a great deal. He said to the man born blind, "Go to the Pool of Siloam and wash, and you shall get your sight." The man might have said, "Nonsense! What's the use of filling my eyes with mud? Wash in the Pool of Siloam! I've done so many times." But he went, and as he went, he got his sight.

A Practical Lesson in Obedience.

There is a story told of Girard, one of the first millionaires, who lived at the beginning of last century. It was when a great many men were coming over from Ireland on account of the famine. An Irishman turned up at Girard's place of business and wanted work. Girard liked the looks of him, and he said, "Do you see that pile of bricks in the yard?" "Yes, sir," he said. "Well, pile them up in the other end of the yard." He did it, and the work was done. "Can you give me work tomorrow?" "Yes, come back." The next morning he told the man to go and pile up the bricks where they were before, where he found them. Work the next day? "Yes. Go pile up the bricks at the other end." And he kept him piling up the bricks, and, at the end he said, "I want you to go down to the wharf and bid for some sugar." The man smiled, but he went and bid for the sugar. They said, "Are you Girard's agent?" "Yes." They scraped and bowed, and he was a great man then—the man who had been obedient.

Some people wonder why they can't get into the kingdom of God, and why it is so hard to get in. It isn't hard at all when you are really willing to submit your will to God's will. People are afraid of the will of God. I would rather have the will of God done than my own will. Why, I can't see an hour into the future. I don't know what is ahead of me. God knows all. The past, present and future are all alike to him, and he knows what is my highest and best interest, and He loves me more than I love myself. And He wills me good, and He wills for my highest and eternal interest. It is much better to submit to the will of God, and just let His will be done in us, than to be trying to carry out our own thoughts and our own plans. Let the boy, ten years old, have his own way, and where does he go? Before he is twenty-one he has gone to destruction. There is not a mother or father here who does not know that if you let your boy have his own way he goes wrong. God wants us to turn over to Him our wills, and then we find love, peace, joy and eternal salvation, not only for this life, but for the life to come.

Go back to the fact that every one whom Christ blessed on earth was blessed in obedience. To the man with the withered hand He said, "Stand forth!" and the man got up and stood before all the Pharisees, and stretched out that hand. There was a withered arm hanging lifeless for twenty years, and the Lord said, "Stretch your hand out!" The man might have said, "I have not the power;" but when he willed to do it, the arm was as good as whole. Blessed in the act! He said to the lepers, "Go, and show yourselves to the priest;" and as they went they were healed. As they went! I spoke to a man in New York some years ago about his becoming a Christian, and he made up his mind he would go home and pray, and settle the question; and on his way home it occurred to him, "Why not pray now?" and he began by making the prayer that the publican made, "God be merciful to me a sinner;" and God was merciful and saved him.

The question for you to settle is: What is the will of God? "Seek ye first the kingdom of God and His righteousness." That is to be the condition. "Seek first." Will you do it? "Come unto me, all ye that labor and are heavy laden, and I will give you rest." Will you come? God says, "Come." You say you are not fit to come. He knows all about it. And what is His business? To receive you. He promises to do it. "Him that cometh unto me I will in no wise cast out." Will you do it? That is obedience.

A man said, "I don't like your kind of preaching; you get a man into a corner and force decision. You spring the question on him. Why not give him time to consider?" But surely, if it is a question of obedience, you had better obey at once. Some of you have grown gray and have not obeyed Him yet. Some of you are living on borrowed time, and yet you talk of "springing the question" upon you. It is a temptation of the devil. A child has been taught to lisp the name of Christ. Children know enough to obey Christ. And now the question comes to you: Are you willing to do it?

A WISE SYMPATHY.

A group of fifteen or twenty young women stood sadly talking together before they returned to their typewriters and desks in the office of a certain corporation.

"What a terrible bereavement for a girl like Laura Huntley to lose her mother!" sighed Nelly Swift. "An only child, her father dead, and she and her mother were so perfectly devoted to each other."

"Now, girls," began Annie Starr, earnestly, "we must show Laura that we sympathize with her in this terrible affliction. Let's put our money together and get some of the most lovely flowers we can find for Mrs. Huntley's funeral."

"Yes, yes!" the girls quickly agreed. Out came dainty purses, and rustling bills and shining silver were quickly thrust into Annie's open hand.

"Here is seventeen dollars," declared Annie after quickly counting it over. "Now who shall get the flowers and write a note to Laura for all of us?"

"Mildred Hoyt, Mildred Hoyt!" spoke up several of the girls at once.

"Yes," agreed Annie, "Mildred is the right one to do this for us. No one can write a note that will express what we feel as well as Mildred."

Mildred's face blushed as she hesitated. "I—I would be glad, more than glad, to write the note, if I thought I could do it as well as some of the other girls; but," she continued earnestly, "I wish we might use this money in another way."

"Why, how, Mildred?" asked Nelly, quickly.

"Well," Mildred went on slowly, "you know that I was as often at Laura's home as any of us, and I know that Laura and her mother had only a very small income besides Laura's salary here in the office. Mrs. Huntley was sick for some time, and I know that the expenses were large; and that even now some money matters are troubling Laura very much. Now, what I wish we could do is this: Take two dollars of this money and buy a few white roses for the casket, and then give the fifteen dollars to Laura. I know that she needs it, and I think that she will take it from us."

"But," began Annie Starr, almost resentfully, "people will expect to see something elaborate from Laura's friends here in the office—" Annie stopped suddenly, and a deep flush overspread her face. "But," she finished, in a low tone, "we are not sending these flowers simply for the sake of others seeing them—that is a fact."

"You're just right, Mildred," put in Nelly Swift; "and I say, let's make it up to twenty dollars."

A few days later Mildred Hoyt came up to the same group of girls again, as they were together before going into the office. "Girls," she said, "I have a message to you from Laura."

"Was she glad of the money?" asked Nelly Swift.

"At first she seemed a little reluctant to take it. 'It seems too much for you girls to give,' she said. But in another moment her arms went around my neck, her head fell upon my shoulder, and she began to weep quietly. 'O,' she cried, 'you don't know how much I need this money. You can't possibly understand how much it means to me. I can't tell you about it now, but I will some time. But tell the girls at the office that I thank them with all my heart.'"

"I am glad we did it," murmured Annie Starr.—American Messenger.

THE GRACE OF HOSPITALITY.

"The experiences of the Sunday school missionary are not always the most pleasant," said a missionary. "At one place I found an almost deserted mill village. The people had had no services in a long time and hailed with pleasure my coming. I was urged to be sure to organize a school before I left. I did so that same evening, but found that the people did not have the grace of hospitality. I was compelled to buy something to eat.

"At night I could find no lodging. I had been told of two place, to one of which I went and found it to be a saloon. The barkeeper, a large Swede, asked:

"'Are you not the preacher who organized a Sunday school this evening?'

"'Yes,' said I.

"'Those people ought to be ashamed of themselves,' he said. 'They could have kept you if they had wanted to. This is no place for you, and the other place is worse yet. You can't compromise yourself by stopping at either place.'

"I was compelled to wait on the station platform in a snowstorm until 11 p. m. for the next train to a town seventeen miles distant, the nearest place of shelter.

"But the school proved a success. Conditions were greatly changed through its influence. My later visits to the community were not so unpleasant. I then always was sure of a place of entertainment."—Sunday School Missionary.

We call that person who has lost his father an orphan, and a widower that man who has lost his wife. And that man who has known the immense unhappiness of losing his friend, by what name do we call him? Here every human language holds its peace in impotence.—Joseph Roux.

The Secret of Happiness

Quarterly Review.

International Sunday School Lesson for Sunday, March 26, 1911.
By Dr. and Mrs. Wilbur F. Crafts.

Lesson Text—I. Kings 12; II. Kings 17: 1-18. Golden Text—Ps. 144:15: "Happy is that people whose God is the Lord."

(From the Christian Herald.)

Seeking Happiness.

Happiness is something for which everybody is seeking, and on many different lines—some in travel, some in amusements, some in riches, a small number in study, a smaller number still in benevolent works. The Golden Text tells us where alone happiness is to be surely found: "Happy is that people whose God is the Lord." We can make it more personal by saying, Happy is that person whose God is the Lord.

Unhappy Kings.

Was King Rehoboam a happy person? As the son and successor of the wise, the rich King Solomon, we would say that he should have been one of the happiest of men. But was he? No, for there was unrest among the people of his kingdom; they were burdened with taxes put upon them to keep up the scale of magnificence set by King Solomon. A sea of trouble thus surged against King Rehoboam, which God would have given him wisdom to calm if he had sought the counsel of God instead of men. Rehoboam did not even take the advice given him by wise men, and hence the loss of the greater part of his kingdom by the secession of ten tribes.

Was King Jeroboam happy? Surely he ought to have been, for he was the favorite of that vast company of people who repudiated King Rehoboam, but instead of taking hold of the secret of happiness expressed in the Golden Text, he gave his people two golden calves to worship in place of the true God, and himself became the high priest of the calf! His downfall was complete as God had warned him through the prophet Ahijah.

Was King Asa a happy man? He had a long reign and loyalty was born and bred in his people. But how did he stand with God? He was for a time acceptable, for he tried to reform evils; and as long as he thus served the Lord, God made him to prosper, and he was happy. But he had an enemy in King Baasha, and instead of asking wisdom and help from God, he appealed to Ben-hadad, king of Syria, who was an idolater. Ben-hadad gave the desired assistance and enabled Asa to win. His character totally changed, he became a tyrant over his people instead of a father, and was hated.

King Omri, was he happy? As the king of Israel he made a wise choice of Samaria as his capital. So wise a man should have been a good man, but he was not. He not only did not serve God, but during the twelve years of his reign he led his people into idolatry.

Was King Ahab a happy man? Ahab so completely ignored the God who is the Lord that he built a temple to the chief idol Baal and laid no check upon those who persecuted the followers of God. Drought, famine and distress were the punishments God sent upon Ahab throughout his kingdom.

Happiness in God.

Was Elijah a happy man? He was one of the greatest of God's prophets. He withstood the four hundred howling priests of Baal, and through prayer wrought a great victory over them, and thereby turned the hearts of the people from the worship of idols to the worship of the true God. He was then a happy man.

But when was he unhappy? When for a few hours he lost sight of God in his fear of Jezebel because she had threatened to kill him in revenge for his slaying of the prophets of Baal.

Was not Elisha a happy man? Yes, because he had learned from Elijah to love and serve God. He was happy in being at the head of a school of prophets, where there were fifty or more young students. He was happy in being received into homes where his coming brought blessing and joy. He was happy in being the counselor of kings. Even in his grave, the touch of his bones brought the dead back to life (II. Kings 13: 21).

Making Others Happy.

It has been said: "The infallible recipe for happiness is to do good, and the infallible recipe for doing good is to abide in Christ." To be happy one's self is not the noblest aim of life. It is rather to make happy the place where one lives. In Burma, Christian converts, finding it hard to practise Christianity in the idolatrous, corrupt cities, where all sorts of business, customs, pleasures and governmental affairs are associated with heathen rites, go out on the hills by themselves and establish Christian villages where the law of Christ is the law of business, politics and pleasure. If they can have Christian villages in Burma, we can have Christian cities in America. We pray: "Thy kingdom come; Thy will be done, as in heaven, so on earth."

Does it seem a thing impossible that God's will should be done on earth? It was so done by Christ, and He said: "I have given you an example that ye should do as I have done." It was not in miracles that He did God's will as in heaven, and as our example, for we cannot imitate Him in that. But Christ did God's will as in heaven, and as our example in putting service above selfishness, the Son of Man came not to be ministered unto, but to minister.

What are you doing for others to make your city a safer and a happier place in which to live? Have you any part in movements for civic betterment? Does the condition of the poor in your city interest you? Is there any class of persons whose condition you are helping to better?

Happiness in Sobriety.

Are you joining in the endeavor to shut up drinking places in your city, to make it a safer and happier place to dwell? And after the city in which we live our desires should go out to our whole land. A Syrian lady, coming to the United States, after studying its sociological conditions, made the remark: "Your land would be a heaven if the drink were not here." Such a judgment should inspire us with a determination to do away with the drink evil.

It was recently said in a speech in congress by Hon. Richmond P. Hobson, that the nation last year, on account of the lowered efficiency of its products through alcohol, was $14,000,000,000 short in its productiveness. Instead of producing only $32,000,000,000 of wealth, we would have produced without alcohol $46,000,000,000. Summing up the economic losses from the lowered efficiency of our producers, from the death list, from the costs of crime, pauperism and insanity, and from the liquor bill, the total economic burden laid upon the nation by King Alcohol is between sixteen and seventeen billions of dollars—more than half of all the wealth produced by the nation. Should not these facts make us wish that our whole land might come under prohibition? A sober nation is an industrious nation and industry ever leads to peace and plenty, which in turn bring happiness and raise a people's thoughts to God, to love and serve Him and thank Him for His blessings.

THE INWARD IMPULSE

By William Dickie, D. D.

All laws—the law of Moses, the Sermon on the Mount, the maxims of present day rationalistic philosophy, as well as our own self-made rules of conduct—command from without; the Gospel constrains from within. Laws come to us as an external authority, laying upon us burdens of obligation without enabling the will to obey that which it approves. We may mistake approval for obedience. Many men accept the Sermon on the Mount, for instance, as the Christianity which they profess; but the Sermon on the Mount is a law, more spiritual than that of Sinai and more difficult. The effort to regulate life by the Sermon on the Mount, because of its inward scrutiny and its high demand for purity and righteousness of heart, if the effort be made apart from Christ, is certain to result in the usual effects of legal obedience—an intensified sense of sin and guilt, a severer self-condemnation, and a conviction of inability to purify the springs of action by the effort of obedience. We need the impulse from within, the renewed will that is brought into harmony with the will of God, of which the Sermon on the Mount is the highest expression. We may approve the sermon and reject the cross, but unless we accept the cross we cannot live the sermon. When we have been crucified with Christ and have risen with Him in newness of life, the Sermon on the Mount is no longer an external command; it is the natural expression in life of the new nature which we have received from God through Jesus Christ.

RELIGIOUS COMFORT.

One of the hard and pitiable experiences of all of us who try to do our Christian duty is to stand in sorrow's darkest hours by the side of humankind and try to administer Christian hope and comfort to those who are strangers to Christ and His gracious influences. Oftentimes do these inconsolable ones cry out that they would give anything to have the joy and assurance of others that all is well.

But there is no mystery as to the difference between two types of humanity in the time of grief and sundered ties of love. Some persons have utterly ignored God and His revelation of how life here below ever projects itself into eternity. They have not familiarized themselves with the truth of divine love behind all the vicissitudes of this life, however dark their fortunes may be. And so, when affliction comes to them, what wonder is it that there should come forth before them, from the mold of their past, the gloomy forms of utter blankness, and that utter disconsolateness which no amount of sympathetic words can soothe away?

And as for those who do rise above their grief and have sweet hope and a divine peace passing all understanding, even through their tears, why, all the years they have been drawing nigh to God, communing with Him in worship, keeping close to the secret of His presence day by day. And now, in the time of affliction, they feel—yes, they know, from very familiarity with the dealings of the Heavenly Father with man—that this fatherly love is abiding with them still, and will abide with them and with their departed ones through time and eternity.

It was the mold made by Aaron which accounted for the perverted form that came before this man and the people of Israel. And it is the mold of people's yesterdays that explains what all of us are experiencing today.—Church Helps.

THE PEACEMAKER'S BLESSING.

The Master's own words give the text: "Blessed are the peacemakers: for they shall be called the children of God." (Matt. 5: 9.)

The law is: "First pure, then peaceable." (James 3: 17.) "There is no peace, saith my God, to the wicked." (Isa. 57: 21.) First the religion of the heart, and then the religion of the life! We must first be recipients and then dispensers of the gace of God. What He works in us, we must work out in the activities of the Christian life. Righteousness, peace and joy: this is the true order of the kingdom of God.

How can we become peacemakers? Negatively, by self-mastery by the grace of God; by the control of our tempers and our words. We can become peacemakers positively by watchfulness and prayerfulness. By prompt action, when strife begins, a spark may be readily extinguished, which, if neglected, may become a conflagration. Let us discountenance tale-bearing. Let us keep so busy in doing good that we shall have no time or inclination to hunt for flyspecks. Secondly, let us not despair of success in any attempt at peacemaking. In a true sense of the word, all things are possible by the help of God. Thirdly, let us give every one who has gone wrong opportunity to get right. Let the statute of limitations cover past offenses. God only can blot out sins; we may forgive from our hearts, according to the command of our Lord. Fourthly, let us put forth most of our efforts in watching against our own sins and shortcoming, rather than the sins and shortcoming of others.

The blessedness of peacemakers is in the fact that they shall be "called the children of God." That is to say, they are the children of God. He calls things by their right names. "Children of God"—what does this mean? It is to see Him as He is, to be like Him, and to enjoy His love forever. This is a blessedness attainable by every child of God.

The song of the angels at the incarnation may be taken as a doxology: "Glory to God in the highest, on earth peace, good will to men."—Selected.

AMUSEMENTS.

"I think a Christian can go anywhere," said a young woman who was defending her continued attendance at some doubtful places of amusement.

"Certainly she can," rejoined her friend; "but I am reminded of a little incident that happened last summer when I went with a party of friends to explore a coal mine. One of the young women appeared dressed in a pretty white gown. When her friends remonstrated with her she appealed to the old miner who was to act as guide of the party.

"Can't I wear a white dress down into the mine?" she asked, petulantly.

"Yes'm," returned the old man. "There's nothin' to keep you from wearin' a white frock down there, but there'll be considerable to keep you from wearin' one back."

There is nothing to prevent the Christian wearing his white garments when he seeks the fellowship of that which is unclean, but there is a good deal to prevent him from wearing white garments afterward.

SANCTITY VERSUS SERVICE.

There is an old legend in the Greek church about two of her honored saints, Saint Sassianus, representative of the monastic asceticism, and Saint Nicholas, the type of the active, helpful Christian who stays in the world though not of the world. St. Cassianus entered heaven and the Lord asked, "What hast thou seen on earth, Cassianus?" "A peasant floundering with his wagon in the marsh," replied the saintly one. "Did you help him?" "No, Lord." "Why not?" "I was about to come before Thee and I feared to soil my robes." Then approached Saint Nicholas, all stained with mud and mire. "Why so soiled, Nicholas?" asked the Lord. "I saw a peasant floundering in the marsh," replied Saint Nicholas, "and I had to put my shoulder to the wheel to help get his wagon out." "Blessed art thou," proclaimed the Lord; "thou hast done better than Cassianus." It is well to help the needy. Sanctity has its place, but, in the life and teaching of the Christ, service is the master word.

SUFFICIENT STRENGTH.

Remember that your work comes only moment by moment, and as surely as God calls you to work He gives the strength to do it. Do not think in the morning: "How shall I go through this day? I have such and such work to do, and persons to see, and I have not the strength for it." No, you have not, for you do not need it. Each moment, as you need it, the strength will come. Only do not look forward an hour: circumstances may be very different from what you expect. At any rate, you will be borne through each needful and right thing "on angels' wings." Do not worry yourself with misgivings; take each thing quietly.—Dr. Maurice.

CARELESSNESS.

It is always painful to discover that a spirit of carelessness is slowly but certainly eating away the usefulness of those who, for every conceivable reason, should be cultivating carefulness. But this is often seen by those who are in positions which require close observation of the conduct of others. It is in the highest degree a breach of good faith to become careless in the performance of those duties which we owe to others. Carefulness, in even the smallest details is a sacred obligation. It is a duty to superiors in office and charcater which circumstances can never modify, much less destroy. "He that is faithful in that which is least is faithful also in much. . . . And if ye have not been faithful in that which is another man's, who shall give you that which is your own?" Carelessness leads to unfaithfulness, if, indeed, it is not that per se. It destroys confidence in the minds of others toward us; it renders us undesirable as friends or employes; it jeopardizes that which we already hold and finally renders it impossible for us to receive any sort of substantial promotion. But this is not the worst feature which carelessness produces. It breaks down and finally bankrupts one's own character. No one is safe in any sense after the spirit of "it makes no difference" possess him. On the other hand, scrupulous carefulness builds character. It lays the foundation for larger life in that it carries, solidly, all the way through life's building, the strength that makes certain and sustains. Carefulness is, therefore, the watchword of character. Outlaw carelessness at every point, and inaugurate and sustain a spirit of carefulness, and it will not be long in showing its fruits both in your own soul and in the confidence of others.—Selected.

DARK-ROOM DEVELOPMENT.

Darkness seems to be as necessary to life and growth in this world as is light. An earnest, tireless worker for Christ, who has recently suffered through months of illness, writes a cheery word of sympathy to a fellow sufferer, and adds about herself: "It is a long time since I have done a day's work; it is only a half hour's work, or maybe fifteen minutes at a time. And many days have been in a dark room. I wonder sometimes if a dark room is as necessary for the developing of characters as it for the development of negatives. If so, perhaps a time will come when I can look back upon the dark-room days with thankfulness. Just now, I want to work." To wait and to trust, if God directs that, even while one longs to be out in the light and at work, is to gain and grow in the development which only the dark room can give. How good it is that God can be trusted to decide when the darkness is needed!—Sunday School Times.

It is not a matter of indifference whether we are hopeful or not. It is a part of a really Christian way of looking at things, although many good people fail to see it thus, and incline to put despondency in its place among the graces of the Christian character. —Henry Clay Trumbull.

THE SHOP AND RAIL NEWS

FIFTY-FIVE YEARS IN THE SERVICE

Remarkable Record Established by Engineer David Raidy.

BETTER TIMES ARE PROMISED

O. O. Thwing Takes Optimistic View of Business Outlook.

Fifty-five years' service and 660 monthly visits to the pay car, without a single ommission, is the phenomenal record established by David Raidy, of 428 Bass street, an engineer on the Western division of the Pennsylvania. A few names have been on the company's pay rolls longer than has the name of Mr. Raidy, but not one of the owners has a better record for regularity and excellence of service than he. Because of a slight ailment he has been incapacitated for five or six weeks, and as he will soon attain the age of seventy, it is quite probable he

ENGINEER DAVID RAIDY,
Who Has Been in the Employ of the Pennsylvania Fifty-five Years.

will never officiate at the throttle again.

Mr. Raidy was born in Kerry, Ireland, December 25, 1841, and came to America with his parents in 1855, when he was fourteen years old. His father took service as a section man with the Pennsylvania in the summer of that year and a few months later, David became a water carrier for the men employed on work train and he has remained continuously in the service. He was only nineteen years old when he became a fireman and he has been an engineer for the past forty-three years, most of that time in the passenger service. Only once was he injured in an accident and then only slightly. During the world's fair in Chicago, while Mr. Raidy was taking his engine through the Fort Wayne yards, a switchman inadvertently threw a switch the wrong way and the engine was derailed. Mr. Raidy was thrown against the boiler head and sustained a few minor cuts on the face and head which disabled him several days.

Mr. Raidy also has a remarkable domestic record, being the father of twelve children, ten of whom are living. He was married to Miss Bridget Sullivan, of Laporte, Ind., May 28, 1865, and immediately brought his bride to Fort Wayne where they have resided continuously since. The children are Mrs. John Burke, of Fort Wayne; Mrs. Peter Flynn, of Toledo; Mrs. Joseph Shlotter, of Indianapolis; Mrs. William Woebbeking, of Fort Wayne; Mrs. James Cox, of Toledo; the Misses Lillian and Josephine Raidy, of Fort Wayne; Miss Nellie Raidy, a stenographer in the Lake Shore offices at Toledo; John Raidy, a machinist in the Pennsylvania shops in this city, and Ed Raidy, who holds an important clerical position in the B. & O. superintendent's office in New Castle, Pa.

Mr. and Mrs. Raidy are remarkably vigorous and have the appearance of people much young than they.

SAYS OUTLOOK IS GOOD.

O. O. Thwing Predicts Good Business Balance of Year.

O. O. Thwing, chief engineer and sales manager for the Western Gas Construction company, said yesterday that the business outlook, so far as the establishment he represents is concerned, is brightening and he predicts a good business for the balance of the year 1911. This week the company booked an order for a 100,000 foot capacity gas holder from the Gas company of Torrington, Conn. An order for gas apparatus for a company in California was also received recently. Mr. Thwing left yesterday afternoon on a business trip which will consume three or four days. He spent the early part of the week with President O. N. Guldlin at he Illinois Gas association's meeting in Chicago, returning home Thursday night.

AFTER EXCURSION BUSINESS.

A. H. Breed, traveling passenger agent for the Lake Shore road, was in the city yesterday to see the transportation committee for the annual excursion of the Relief Union of the Fort Wayne Electric works. Next to the annual excursions of the Pennsylvania employes, the Electric works' annual excursions are the greatest events of their kind in the business. Last year the "boys" took over 1,800 people to Cedar Point, and the year before they took over 1,200 people to that resort. The committee has not yet decided to what resort the excursion will run this year, but has propositions from all of them.

RETURNING FROM FATHERLAND.

Thursday something like 200 people, residents of Minnesota, Wisconsin and the Dakotas, passed through the city on a special train over the Nickel Plate, en route to their respective homes in the northwest. These people are natives of Switzerland. They came here years ago and settled in the northwest, where through a system of hard work and economy, they became fairly well-to-do. Last fall they went to their native country, after the crops on their farms had been harvested, and they spent the winter abroad.

RE-ELECTED OLD OFFICERS.

At a recent meeting of the stockholders of the American Steel Dredge company a dividend of 6 per cent for 1910 was declared and the old officers were re-elected as follows: J. P. Karr, president; W. A. Bohn, vice president; J. D. Rauch, secretary and general manager, and J. C. F. Sprankle treasurer. The company has completed a mammoth steel dredge for parties in Florida and the last shipment is being made today. In all this immense dredge and its appurtenances made nine car loads.

CELEBRATING BIRTHDAY.

Yard Conductor Dennis Hayes and Local Freight Conductor Cliff Brinsley, of the Wabash, each reached a double anniversary today. They are just entering upon the fifty-second year of their existence and also the thirty-fourth year of their service with the Wabash. Mr. Brinsley now resides in Toledo, but he formerly lived here. He has charge of a local freight train running between this city and Toledo.

SHOPS CLOSED TODAY.

Quiet reigns in some of the big shops of Fort Wayne today, owing to a temporary falling off in business. The Pennsylvania and Wabash shops were closed entirely, except for a little emergency work in each, and the big plant of the Bass Foundry and Machine company was idle except the blacksmith department. All of the other establishments were in operation only until noon.

TURNED OUT SEVENTEEN ENGINES.

The output at the Pennsylvania erecting shop for the five days of this week that the shops were in operation, included seven engines that received general repairs and ten that were given light repairs, the smallest output of the year so far. Those engines given heavy repairs were Nos. 7057, 7205, 7263, 7396, 7424, 7749 and 3040.

OUT OF THE HOSPITAL.

L. D. Biggs, a machinist at the Pennsylvania shops, who had his right leg fractured above the ankle and his ankle dislocated about four weeks ago, and who has been confined at St. Joseph's hospital since that time, was discharged from the institution this afternoon. While able to leave the hospital Mr. Biggs will be unable to return to work for some time.

HARRY FISHER HERE.

Harry Fisher, of Detroit, has been calling upon the foundry managers of this city for a day or two. He now represents the Frederick B. Stevens Foundry Supply company. He was for six years superintendent of the Bass foundry. Mrs. Fisher, who always accompanies her husband on his business trips, was the guest of her friends while in the city.

MONEY LOANED
On Watches, Diamonds and Jewelry at Wartell's Cut Rate Jeweler, 1318 Calhoun.

Loans $5 to $100 6 Per Cent Interest

Your furniture, piano or like chattels will do as security without removal. One month to one year's time and pay weekly or monthly. We are accommodating and confidential. Come in and talk it over.
We loan on a plain note if you hold a permanent position with a reliable firm.
Indiana Loan Co.
Suite 211-212 Shoaff Bldg., Second Floor.

"Predigested" Cigars Are Safe

I *call* my cigars "predigested" because you can smoke them without *ill effects*.

"*Raw*" cigars—like raw *meat*—are unfit for consumption.

They are made from *half-cured*—half "digested"—*tobacco*.

Most cigar makers use it. Tobacco comes from the growers that way—and curing's expensive.

I spend from six weeks to two months in *re-curing* tobacco that goes into "El Symphonie" Cigars.

My process takes out all *excess* nicotine yet leaves enough *in to* retain a fine *flavor*.

Thus you get a good smoke that is harmless—a *full bodied* but "predigested" cigar. Smoke up to *ten* every day, if you wish.

I've studied this problem for 31 years.

See how I've *solved* it—*smoke the cigars*.

You may have smoked *thousands* of common 5c cigars, *but not one like this*. Get one *today*.

EL SYMPHONIE —the ripe Cigar—5c

Made in two shapes—one a big, regular shape smoke; the other a panatella, for light smokers—each 5c

(11) Ed Kline Maker

NOW AT MARICOPA.

In a letter to a friend at the Pennsylvania shops, Randolph Breeze sends his regards to his Fort Wayne friends and adds the information that he is now located at Maricopa, Cal., is well and not very busy. Mr. Breese was assistant master mechanic of the Pennsylvania and resided in Fort Wayne a number of years before going west.

EXCAVATING AT FAIRFIELD.

This evening the men having charge of excavating under the elevated tracks at Fairfield avenue will complete the east side of the street and change base of operations to the west side next Monday. The work is being accomplished without interferring with traffic on the street, only one half of the thoroughfare being blocked at a time.

THIS IS IT

King Alfonso of Spain.

"THE SEVILLA"

The hat that we have been talking about for a long time past.

It is the latest sensation in the hat world, and is the creation of "KNOX," who has made hats for seventy years. It was designed and is now worn by King Alfonso, of Spain.

See it in our window.

F. H. Bohne & Bro.
Exclusive Hatters and Furnishers to Men.

Exquisite Patterns in Silverware

Our collection of sterling silverware includes only the most select patterns and designs from all the leading makers. The most popular recent patterns are designated:

Chantilly
Madame Jumel
La Perle
Heppelwhite and
Monticello.

Each pattern, as well as many others, is found in all pieces usully included in a set of sterling silver.

Trenkley & Koerber
816 CALHOUN STREET
Est. 1865

DR. RANKE
FT. WAYNE, IND.
207 Washington Boulevard West.
EYE, EAR NOSE, THROAT.
GLASSES ADJUSTED.

TAKES RESPONSIBLE POSITION.

Joseph C. Grosjean, who recently resigned a position at the General Electric works on Holman street, has taken charge of the cost and material department of the Fort Wayne Engineering and Manufacturing company, whose factory is on Sixth street.

TRAIN LOAD OF IMMIGRANTS.

A train load of immigrants, bound for the farming countries of the northwest, will pass through the city over the Nickel Plate this evening. Their train will be a second section of No. 3, due here at 4:40 o'clock.

THUMB AND FINGER CRUSHED.

Conductor E. J. Martin, of the Pennsylvania, had the thumb and index finger of his right hand caught back of a coupling lever yesterday and painfully injured. Neither digit will be permanently crippled.

INDUSTRIAL NOTES.

Machinist Herman Regel, of the Bass works, went to Pennsylvania last night to do some work on a steam plant.

Machinist Pat Bresnahan, of the Pennsylvania shops, went to Chicago last night to spend Sunday with a relative.

Passenger engine 621 and freight engine 483 were turned out of the Wabash shops this morning, after receiving general repairs.

Gang Foreman Charley Grosvenor and Machinist Charley McElfatrick, of the Pennsylvania, will be guests of friends in Chicago over Sunday.

Draughtsmen Kelan, who has been employed at the Pennsylvania shops for six or eight months, resigned today to take empolyment elsewhere.

Vice Presidents Joseph Wood and J. J. Turner, of the Pennsylvania, passed through the city on train No. 8 last night, each occupying his private car.

H. Beaman, a Pensylvania brakeman, who was operated on at St. Joseph's hospital a couple of weeks ago, was discharged from the institution today.

Herman Miller and Tony Klutz, of the Wabash freight office, will go to Montpelier and Detroit tonight on a "sight seeing" trip. They will return tomorrow night.

John Huth, a boilermaker at the Pennsylvania shops, is suffering severely from an attack of rheumatism and has been confined to his home for three or four days.

General Foreman C. A. Szink, of the Pennsylvania blacksmith shop, went down to Pittsburg last night to spend Sunday with his daughter, Mrs. Clarence Hilberry, and her husband.

A daughter was born last night to Mr. and Mrs. William Braun. The father is the engineer of the testing department of the Fort Wayne Electric works.

Tomorrow Division Storekeeper H. W. Hurst will start upon a tour of the districts within his jurisdiction. He will be gone several days. The annual inspection by President F. A. Delano will be made in April.

The Wabash is again getting active in the way of soliciting immigrant business and car loads of foreigners pass over that line, en route west, every few days. For awhile none of the Fort Wayne lines, but the Nickel Plate seemed to make effort to get this business.

LOCAL MARKET LARGER TODAY

But Little Change, However, in Prices—Country Produce Supply.

FISH IS SOME LOWER

While not as large as it was a few weeks ago on Saturday, the Barr street market this morning was the largest of the week, many farmers being there as sellers. Butter and eggs came in increased quantities, but the prices seem to have been unaffected, being practically as they have been during the last week.

There is no change in the quotations on wheat, oats or corn; no change either on pork or beef. The Lenten season has not particularly affected either class of meats. There is a big class of meat eaters even during Lent. Yet there is a great quantity of fish being sold, the local markets being frequently crowded with buyers. Somewhat lower prices prevail. White fish sell at 12 and 13 cents and pickerel at 13 and 15 cents a pound.

WANTED—Three good shopmen and 3 or 4 for outside work. Apply 308 Greely St. J. M. Henry.

AGED FARMER ON $500 BOND.

Solomon Chapman, 74 Years Old, to Answer Paternity Charge.

Colomon Chapman, a well-to-do farmer of Perry township, was arrested and brought before Justice Tancey Saturday morning to answer the paternity charge recently filed by Miss Bessie Krohn. The girl's testimony was heard and the judge bound the defendant over to the circuit court on a $500 bond.

Mr. Chapman is 74 years of age and a well respected citizen of his neighborhood. It is said that some surprising bit of scandal will be shown up at the coming trial.

Sacrifice sale of practically new household furniture on account of moving into flat. For particulars phone 2679 black.

TWO CHIEF OPERATORS.

The Home Telephone and Telegraph company is increasing its force and efficiency by the addition of another chief operator's desk, and during the busy season two chief operators will be on duty at all hours of the day.

RE-ORGANIZATION SALE

On account of changes in the incorporation of this store we will hold a general Clearance Sale starting

Monday, March 20

And Continuing Until April 1st

All goods marked in plain figures discounted

25 Per Cent

Excepting Watches and Diamonds

All Goods Sold Will Be *Engraved Free*

Space does not permit the enumerating of the hundreds of Bargains, but this will be the biggest opportunity ever offered to save money on *High Grade* jewelry, silverware, cut glass and hand painted china, etc.

Besse Jewelry Co.

910 Calhoun Street

L. G. ELLINGHAM HERE.

Secretary of State En Route to His Home in Decatur.

Lew G. Ellingham, secretary of state, arrived in the city last evening from Indianapolis, en route to his home in Decatur to attend the funeral of Attorney R. S. Peterson. Mr. Ellingham says the last proofs of the new acts passed by the recent legislature went to the printers Friday, and the volumes should be ready for distribution April 1.

THE VOTES FOR WOMEN CAMPAIGN REACHES FORT WAYNE

Women of the Clubs of This City and Allen County United in a Movement to Discuss the Woman Suffrage Propaganda and to Promote It.

What Some of the Leaders of the Forthcoming Campaign Have Said to The Sentinel About the Right of Women to Cast Ballots Like Men.

Fort Wayne and Allen county women have entered the battle for the enfranchisement of their sex. They will demand that they be given the right to cast their ballot in all elections held, municipal, state and national, joining forces with the great army of women all over this nation and throughout the countries of Europe for equal rights under the law.

An organized movement for the rallying of their forces has already been begun. The first steps were taken just a month ago when, on February 18, a meeting of the women of the city and county, called by the Woman's Club League of Fort Wayne, was held at the public library rooms, in this city, at which the representatives of ten women's clubs were present, with a representation also from the women of the country districts.

It was called to order by Miss Margaret Smith and Dr. Carrie B. Banning acted as chairman and Mrs. W. G. Burns as secretary. The purpose of the meeting was stated by Mrs. O. N. Guldlin and a committee appointed to nominate permanent officers, the chairman of the committee being Miss Carrie W. Straughan. This committee will report at a meeting soon to be held.

A Club for Education.

The purpose of this club is to study all phases of the suffrage question and to thoroughly acquaint its members and the women of the city and county generally with present conditions, the purpose of the movement and the benefits that will come to them.

It will be a club for education on suffrage. It is surprising how little is now known, said one of the prominent ladies to The Sentinel, about this movement going on all over the world for the political enfranchisement of women.

"They think," said she, "that it is only the women who want to wear the pants who are asking for the ballot, a few old maids and widows scattered here and there over the country—women who have nothing else to do but meddle in affairs that is none of their business. How woefully they are mistaken! In the battle for this equality under the law today are enlisted thousands of the wives of men in all the ranks of life, in city and country alike, and their number is increasing as they understand what we are fighting for. Education along these lines is the purpose of our club."

This suffrage club purposes to make a house to house canvass throughout the city and county for membership. The advocates of suffrage want the women generally to know the conditions of this movement, what is being asked for by the women. In fact, it is a club for study, to become acquainted with every detail of the woman suffrage question, feeling assured that such an education will change many in their already formed opinions concerning it, opinions formed without a proper understanding of it.

Pioneers in Work.

This movement for the enfranchisement of women is not a new one in this city. Over thirty years ago there were suffragists women and suffragist clubs here. Prominent in the cause in those by-gone days were Mrs. Allen Hamilton and Mrs. L. M. Ninde, both of whom were firm in the belief that the day would come sometime when the ballot would be given to women.

Mrs. Hamilton was especially active and prominent in the work and attended as a delegate from this county one of the notable state conventions of the women held at Indianapolis at which Gov. Oliver P. Morton, then United States senator, made a speech declaring himself unequivocally in favor of general suffrage for women. Thirty years previous to that time Mrs. Hamilton had warmly supported plans favoring the movement of Robert Dale Owen, changing the law so that women were given one-third in fee simple instead of a life estate in the estate of their deceased husbands.

Active also in this suffrage movement have been other well known women of the past here in Fort Wayne and they brought to the city such distinguished woman suffragists as Mrs. Elizabeth Cady Staunton and Susan B. Anthony as lecturers.

Among the men who have spent much time, money and thought for the cause is Henry M. Williams, the well known capitalist. Mr. Williams is an enthusiastic woman suffragist. "I believe," said he, "women ought to be given the ballot because it is right." Certainly no stronger argument than that could be given. If a thing is right it is right to do it, and it ought to be done. Even now Mr. Williams is at work on plans for furthering the cause of woman suffrage in Indiana, plans meaning a big outlay of money on his part, and these plans, which will do much in the way of educating public sentiment, will soon be put into effect.

Why Women Ask Suffrage.

"Why ought women to be given the right of suffrage?" asked The Sentinel reporter of Mrs. Clark Fairbank, who is prominent in the movement in this city.

"There are many reasons," she replied. "Probably in your interviews with the other women to whom you purpose speaking some of these reasons will be mentioned. Let me speak of one in particular. They ought to vote in municipal and general elections because they are property owners, very many of them, a rapidly increasing number since women have come into the business and industrial world.

"The principle of taxation without representation as it is applied to men was fought out long ago. We women are fighting the same battle today. We have admitted woman's right to property and education. Why should we not admit her right to have the voice in the making of the laws for the protection of that property and the regulation of the affairs governing the education of her children?

"Women lack influence in shaping legislation for measures which they advocate because there is not a vote behind that voice. It has been shown time after time in measures that have been brought by them before state legislatures and municipal bodies. If we had the vote with the voice the result would be different. Legislative and executive officers would then not only listen, but they would act.

"Woman is not stepping out of her proper sphere when she takes an interest in public affairs. I believe it is her duty to do so. I believe if she had a vote it would be for the general good. Politics would be purer and conditions would be better in many ways."

Wage Women Need It.

"I would ask for the ballot," said Mrs. O. N. Guldlin when the reporter put the question to her, "in the name of the 6,000,000 girls and women in this nation who are engaged in wage-earning occupations. The factory girl needs the ballot. There are numberless laws which apply exclusively to her and which regulate her relations

MRS. O. N. GULDLIN.

with her employer. She must work under these laws, and yet she has no voice in the making of them. They ought to have the ballot for their protection, and we ought to have the ballot in order that we may guranatee them this protection. The mothers of these girls ought to have something to say regarding the kind of laws made for the protection of their children in these factories and other occupations.

"Our children must be fitted to take their places in the world and must have an education. Why should the laws regulating the schools and the government of them be left entirely to men? Our wives and mothers have

MRS. S. E. HAMLET.

an equal, if not a better, understanding of these questions. Why should we be debarred from having a voice in our school affairs?"

Mrs. Guldlin referred to other matters in the social and moral and business world intended for the betterment of the people. Yet women can do comparatively nothing.

"We are paralyzed in our efforts," she said, "because we have nothing behind our voices and supplications. If we are able to have the highest civilization and the best type of government woman's voice must have added to it that other power for influence, the ballot."

Why the W. C. T. U. Wants It.

"Yes, I am heartily in favor of woman suffrage," said Mrs. C. S. Ridenour, the president of the county Woman's Christian Temperance Union, "and the organization which I represent is asking for it(first and primarily because the great interests for which we are fighting, purity, sobriety and honor, are trembling in the balance and are waiting for our votes. No stronger reason could be urged why we should be given the ballot than the fact that the brewers, the distillers and the saloon keepers do not want us to vote, as witness this resolution passed by the Brewer's convention in session at Chicago by a vote that was unanimous:

"'Resolved, That we are opposed to woman suffrage everywhere and always, for when woman has the ballot she will vote solid for prohibition. And woman's vote is the last hope of the prohibitionist.'

"We want the ballot because of the influence it carries with it in our efforts for law enforcement along temperance lines and the protection of our children from the evils into which they are often led.

"Women ask for law enforcement and the executive officers and the courts pay no attention to them because they have no votes. This has been true here in Fort Wayne many, many times.

"We have repeatedly gone to the mayor of the city, gone to the judges in our courts, gone to the police officials, asking for the enforcement of some law for the protection of the youth against the evils into which they were being led, and, to use a term that really expresses their treatment of the committee of ladies, they have laughed at us. We were women. We had no vote. Had we been men, with votes at our command, we would have been granted what we asked for. Our petitions and prayers are unheeded and we have been refused very frequently a respectful hearing. 'Oh, they are nothing but a set of women cranks,' one of the high officials once said when he saw us coming, 'they can't vote.'

"We want the ballot because it would increase woman's influence; it would give us better men in office; it would purify politics; it would correct many wrongs; it would be a protection to home; and, lastly, because it would be right that those who obey the laws should have a voice in the making of them and that those who help pay the taxes should have a voice as to the amount of the tax and the way in which it should be spent."

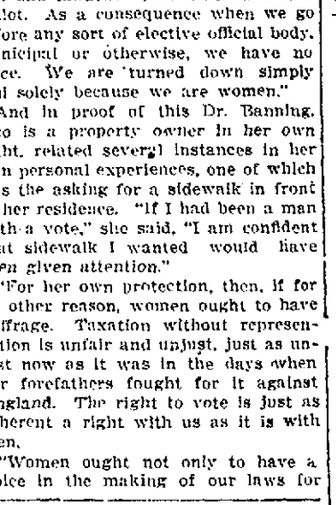
Women Defenseless.

"Without the ballot women are practically defenseless," said Dr. Carrie B. Banning, one of the best known women of the city and prominent in the present suffrage movement. "We are defenseless because we lack the weapon that would give us the protection and influence that men have—the ballot. As a consequence when we go before any sort of elective official body, municipal or otherwise, we have no force. We are turned down simply and solely because we are women."

And in proof of this Dr. Banning, who is a property owner in her own right, related several instances in her own personal experiences, one of which was the asking for a sidewalk in front of her residence. "If I had been a man with a vote," she said, "I am confident that sidewalk I wanted would have been given attention."

"For her own protection, then, if for no other reason, women ought to have suffrage. Taxation without representation is unfair and unjust, just as unjust now as it was in the days when our forefathers fought for it against England. The right to vote is just as inherent a right with us as it is with men.

"Women ought not only to have a voice in the making of our laws for



MRS. CLARK FAIRBANK.

their own protection, but they ought to have it for the protection of their homes, their children, the schools, for many of the institutions and causes that lead to the betterment of society. If they had this voice and ballot some of the laws now in force would not be on the statute books and some of the laws now there would never have been enacted. I believe that in every way conditions would be greatly improved in city, state and nation by giving the women the right to vote.

"In the states where it has been tried it has proven satisfactory and beneficial, in Wyoming, Colorado, Utah, Idaho and Washington, and in other places where only partial suffrage exists, school or municipal. Women will and do avail themselves of it, and in their voting they ignore party and vote for right principles and right men."

While the present movement on the part of the women of Fort Wayne and Allen county is only an educational one, intended for the study of this suffrage question and instruction in the best methods of seeking certain reforms for which the women are asking, Dr. Banning says its ultimate object is the gaining of school, municipal and general suffrage. "And it is coming," she said. "Indiana is behind her sister states in this suffrage movement, but I have abiding faith in her people to see and do the right. And suffrage will come to the women of Indiana."

Means Cleaner Politics.

"The granting of the ballot to women would be lifting politics out of the mire," said Mrs. S. E. Hamlet, one of the prominent young women of the city's literary-cultured circles. "I believe in it because it would mean cleaner methods not only in politics, but in the administration of public affairs. It would be a good thing for the home, the school, the city, the state and the nation.

"I do not think there is anything in the argument that would pull women down. I believe it would pull men up, and in many communities that appears to be what is wanted. I believe in one standard of morality for men and women. It is not ethics to argue that men have the right to go lower in the standard of morality than women. Put women into politics and it would elevate the standard of morality.

"This matter of giving the women the right to vote is one that is a question of enlightenment and civilization. The ignorant man or woman does not comprehend its true meaning or benefit. It is only by education along these lines that its justice is recognized. The ballot ought to be given to women because it is her God-given right, a right that she is as much entitled to as man.

"Equal rights before the law for women and men is coming. In five states of the union general suffrage has been given to women. In many other places they have school and municipal suffrage. In some of the countries of the old world women have suffrage. Everywhere it has been tried it has resulted in doing good, in the improvement of conditions. The question is being agitated now in many states. In some it has gone down to defeat, as it has here in Indiana, but it lives and in time tardy justice will come. Indiana women and the women of the entire nation will be given an equal voice and vote in the affairs of state and nation with men."

Purpose of the Club.

"The enfranchisement of women is coming and we want to be prepared for it," said Miss Carrie W. Straughan who is one of the active workers in the suffrage movement and the chairman of the committee that has in charge the nomination of permanent officers. "The time is ripe for just the sort of action that our local women are taking, a study of the question and the conditions, a campaign of education, and this is the present purpose of the club. It is a club which invites to its membership all women and its affiliations will be with the National American Woman's Suffrage association, of which Mrs. Anna B. Shaw, of Moylan, Pa., is president. Its headquarters are in New York city.

"We have not yet selected officers for the local organization. The committee feels that it ought to give this matter careful consideration. We want to get the best women for these places possible, the character of an organization is often judged by the

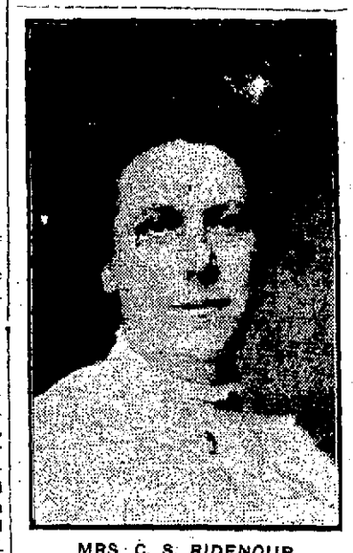
MRS. W. G. BURNS.

character of its leaders. No, I would not be able to say just now when the committee will be able to make its report."

Miss Straughan believes that women will not affiliate with party as generally as men do. She thinks they will act more independently, especially along those lines in which moral issues are concerned. They will stand more independently and firmer for the home and the protection of the youth and once intrusted with the ballot they will use it eventually as generally as men do.

Remain the Home Makers.

"Women ought to be in closer touch with municipal affairs," said



MRS. C. S. RIDENOUR.

Mrs. W. G. Burns, who is prominently identified with club work in Fort Wayne. "We ought to be better acquainted than we are with conditions in our own wards and localities. We ought to know more about our schools, their government, their condition. And right here let me say that women ought to have a representation on our school board. They ought to have had a representation there long since. Who knows better the needs of our schools than the mothers who have sons and daughters in them?

"I heartily believe in school suffrage and in municipal suffrage for women. I believe in general suffrage. I think the men need us. We can help them. The idea that giving us the ballot is going to take us out of our home sphere, make us any less devoted wives and mothers, is a mistaken one. Do men generally neglect their business duties and their duty to their families because they are voters? Why should it be expected that women would do it? Would the spending of an hour in going to the polls to vote on election day, once or twice a year, cause us to neglect our homes and families? I confess I cannot see how our voting is going to bring such results. It will not. We will yet be the home makers.

"I used to think differently on this matter. I used to think that woman had no right or place at the ballot box. I have changed my mind as I became better acquainted with conditions. The ballot is not going to take woman out of her sphere. It will place her in a sphere where she can be the means of accomplishing great good. There are many questions of good government on which men need our advice and help. We can help them. This suffrage club for the study of these questions of local and general civic importance, which for the present, at any rate, is the principal purpose, I feel will be of great benefit to all of us women."

The Suffrage Sentiment.

There is no doubt that the sentiment in favor of giving women the right to vote not only in school and municipal affairs, but in general state and national elections is rapidly spreading. Never more so than now. It is not confined to the United States. Norway, Australia, Finland and New Zeland have given universal suffrage to women. It is being agitated in England and elsewhere in the old world. In the United States five of our states grant full suffrage to women, and in a number of them they have either school suffrage or municipal suffrage. Indiana is behind in the procession. Here women cannot go to the polls and vote on anything. But the women of Indiana are waking up the voters of the state. Woman suffrage will come.

Snow Birds and Robins

Winter and Spring are struggling for supremacy just now but spring will win out and you had better be ready for the balmy days when they come.

We are ready for you.

Our Millinery Opening

was a revelation to lovers of style and beauty and expressions of delight were heard on all sides. The designing of correct head wear is an art just as much as a picture growing under the brush of the painter, and our masterpieces of millinery art are not only extremely beautiful but are reasonable in price.

SPECIAL ATTRACTIONS IN THE SUIT ROOM.

There is a splendid stock of all that is new here, styles that will please the most particular customers. Here are some excellent values:

A sample line of tailored suits in blue serges and fancy mixtures, neatly trimmed; values up to $40, for **$27.50**

Plain tailored suits in blue and grey serges and black and white checks **$15.00**

A special black cotton petticoat with wide tucked flounce **69c**

IRISH LINETTE

A new wash fabric of merit, sheer in texture, dainty in designs; a full line of shades just received. See them while new. They can be had only here. The prices is **20c a yard.**

SPRING GINGHAMS

Of all the wash fabrics there are none so satisfactory as ginghams; they always look well. A splendid line of fine zephyr ginghams in pretty styles, **12½c and 15c a yard.**

The real Scotch ginghams in beautiful color effects, **25c a yard.**

Novelty zephyr ginghams in entirely new styles, **25c a yard.**

The Rurode Dry Goods Co.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE HOBBLE BOOT IS NEWEST PRODUCT OF FORT WAYNE MANUFACTURING ENTERPRISE

It is One of the Handsome Creations of the Cushion Heel Shoe Company, Whose Big Factory at Harrison and Columbia Streets is Now in Operation—Model Plant Has a Daily Capacity of 2,000 Pairs of High-Grade Shoes.

Fort Wayne Now Has for First Time a Concern Where Ladies', Misses' and Children's Shoes Are Made—Great Institution One of the Most Finely Equipped Shoe Factories in Entire Country—Some of Its Product Already on Market.

Have you seen the new hobble boot? It's the very latest word in feminine footwear and is designed as a harmonious accompaniment to the more or less popular hobble skirt. More than that—it's made in Fort Wayne. The hobble boot is a trim little foot-covering, made in a variety of attractive colorings and rather higher than the ordinary ladies' shoe. Extending about the upper is a series of slits through which a ribbon is passed and tied in a bow in front, precisely after the fashion of the hobble skirt. Up to this time the new wrinkle is being brought out only in the misses' sizes of shoes, but nobody will be surprised if the conceit catches so firm a hold upon popular favor that it will be necessary to apply it to ladies' shoes as well.

And in passing it may now be observed that for the first time in its history Fort Wayne has in operation a factory where ladies', children's and misses' shoes are made—a great, finely equipped modern shoe factory that makes only welt shoes for feminine wear. For several years the Wayne Shoe Manufacturing company has made shoes for men and boys, but until the present time there has never been in Fort Wayne a factory making ladies' footwear.

Work Has Just Begun.

The new concern is the Cushion Heel Shoe company, the wheels in whose factory, occupying the entire five floors of the Bash building, at Harrison and Columbia streets, have just begun turning.

"There isn't a more modern or better equipped shoe factory in the country," declared Superintendent and General Manager C. P. Williams, with a ring of pride in his tone. "I will bar none." And Mr. Williams knows the shoe manufacturing business. He has given his life to it. He came from Lynn, Mass., to Fort Wayne to identify himself with the new local industry, and into it he has thrown his whole forceful personality as well as his managerial capacity. Mr. Williams confidently expects great things of this new addition to Fort Wayne's industrial system. So also do the men who are associated with him. John H. Schwieters is president of the Cushion Heel Shoe company, August Freese is vice president, and Joseph V. Fox is secretary and treasurer. Many other Fort Wayne men are stockholders in the big enterprise.

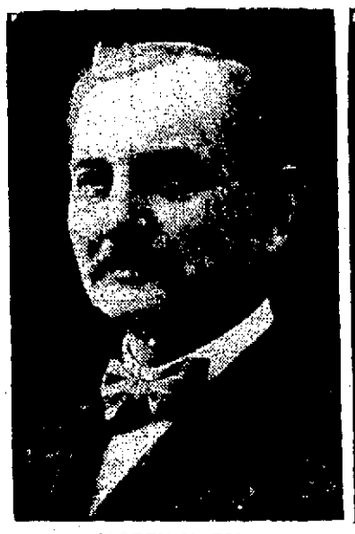
They Start at the Top.

Up on the top floor of the factory the various constituent parts of the shoe begin to get into touch with each other, they develop a new stage of evolution on each floor as they come downward and finally emerge on the ground floor as finished creations packed ready for shipment to some point in the big territory in which the Fort Wayne company is already getting a business foothold. Each step of the process is an interesting one to watch as the material passes through wonderful machines and the hands of skilled operatives to the final stage of the completed shoe.

MEN AT THE HEAD OF THE CUSHION HEEL SHOE COMPANY.

JOHN H. SCHWIETERS, President.

AUGUST FREESE, Vice President.



JOSEPH V. FOX, Secretary and Treasurer.

C. P. WILLIAMS, General Manager.

There on the top floor is the big stock of fancy leathers—Russia calf, patent leather, vici kid, mat calf, velvets in browns, blacks and tans, blackswade cloth and half a dozen other varieties of leather and cloth that enter into the manufacture of shoes for the modern woman. Here also are the pattern tables where from twenty-five to thirty cutters will soon be at work, and the marking machines to mark and stamp the linings.

Fashioning the Uppers.

Dropping down a floor one reaches the fitting room, where the uppers are fashioned, eyelets inserted and buttonholes cut and sewed almost in an instant. In this department are some fifty sewing machines, built especially for shoe factory use, in addition to the more intricate and wonderful eyeletting and buttonhole machines.

It is perhaps in the making room on the third floor, however, that the most varied operations in the shoe-building art are carried forward, for here it is that the operatives last the shoes, welt them, bottom them and heel them. The big department contains an imposing and bewildering lot of machinery. There are the lasting machines, the welt machines, the welt slashers, the welt beater, the sole-laying machine, the staple tacker, the rough rounder, the Goodyear stitchers, the cement machines, the channel laying machine, the fudge wheel machine, the beating out machine, the heel-seat nailer, the heal-seat trimmer, the heel nailer, the heel slugger, the shaving machine, the heel-pricking machine and perhaps others. Not many folk who wear shoes have any sort of idea of the complex steps through which the shoe must pass in its building before the gentlemanly clerk in the shoe emporium smilingly pulls down a varied number of boxes from his shelves before he finds a shoe that fits both the fancy and the feet.

Not Yet Finished.

The shoe has threaded its way through that imposing array of mechanism, but it isn't yet complete. Half a score more of processes await it when it reaches the finishing department, upon the second floor of the building. Here it meets up with the scouring and breasting machines, the edge trimmers, edge-setting and edge-wheeling machines, the heel-finishing machines, the buffing machines, the finishing shafts, the upper-cleaning machine, the monogram machine, the tip-scouring machine and the ironing machine. The net result is the removal of every trace of handling in the processes through which it has come and last of all the shoes are laced, lined and packed in boxes ready for shipment.

Only welt shoes are made in this factory, and neither tacks nor wax can be found in any of the shoes to injure the foot. In the ladies' shoes is used the famous cushion heel, a device for which the Fort Wayne company owns exclusive American rights, and which helps to make life's walk easier. The brand chosen for the line of women's shoes produced in the Fort Wayne factory is "New Dawn."

Many Styles and Shapes.

More than half a hundred different styles and shapes of shoes, in all sizes, are produced by the Cushion Heel company, and when the factory gets into complete operation it will utilize from 350 to 400 employes. Just now efforts are being directed to the production of sample lines for which six traveling salesmen already on the road for the Fort Wayne concern are sending in orders, and a number of shipments have already been made to Boston and to Richmond, Va.

Department heads, of whom there are already about twenty at work in the factory, are skilled shoe operatives who have been brought to Fort Wayne largely from Lynn, Mass., which is one of the centers of the shoe industry in the United States. As rapidly as possible Fort Wayne operatives will be trained and given positions in the factory, which has a capacity of 2,000 pairs of shoes daily.

Quite apart from its output, the factory of the Cushion Heel Shoe company is a model, and state factory inspectors who have gone over it thoroughly have praised its light, its comfort, its equipment, its sanitation and its safety. There is an immense blower system to provide proper ventilation for the entire building, and the machinery is driven by eleven electric motors, coupled to shafting arranged in sections to secure economy in operation. All of the machinery, wherever possible, has been purchased in Fort Wayne and is the output of other Fort Wayne manufacturing institutions.

No detail has been overlooked and no expense has been spared in fitting up a factory that is modern and complete in every way. The outlook for the new line of industrial endeavor in this city is most encouraging, and it is confidently predicted that within a very short time the Cushion Heel Shoe company will take rank as among the really big successful Fort Wayne industries.

TRADE FRAUDS AND THE LAW.

To the Editor of the Sentinel:

The phrase "trade custom" has been used to cover a multitude of trade sins. When it is pleaded as defense against plain common, every day, point-blank lying about goods, it is a defense that should be shot through and through.

A recent case to illustrate. A merchant bought a consignment of men's clothing marked "all wool," from an eastern wholesale house; when the goods arrived it was found that the fabric, instead of being all wool, was largely composed of cotton, then the firm refused to receive it. The eastern concern sued, and against the charge that the goods were misrepresented they set up the defense that a "trade custom" of long standing had standardized the practice of marking goods "all wool" when in reality they were composed in part of other materials. A court of law utterly cast out this theory.

The courts of law everywhere would take similar action regarding such a fraud, not only the above line of merchandizing, but every line would find protection for its customers, as well as the firms in general.

Let us consider for a time another phase of this subject, the shoe business. My attention has been called to certain trade terms, expressions, etc., which in a moment I will disclose as absolutely fraudulent.

The first of which is "sample shoes." There is no reason why honest people should be led to believe by the dishonest merchant, who sells so-called "sample shoes" in sizes up to 7 E in women's and from 6 to 12 in men's, that these goods are samples, which is utterly impossible. The traveling agents' sample line, as also the factory samples, cover in women's sizes 4 A and B, while in men's 7 A to B. Then when after twenty-five years of actual experience I tabulate the fact that only 20 per cent. of the shoe business is done on these sizes, may I ask how can we operate a sample store within this size range?

The next fact, the plain truth concerning which I wish to set before you is the very close margin of manufacturing cost, making it absolutely impossible to "save a dollar" on any imaginable system of so-called "factory to consumer" distribution. When I tell you the fact that many, many shoe factories turn out 10,000 finished pairs of shoes every working day, it is very plain to see that the margin of profit is very, very small, making an average of possibly five cents a pair. With this small amount of manufacturing profit, on second thought, how can it be possible to "save a dollar," even though the factory, working material, etc., all be concentrated toward one end, that of turning out the most for the least money.

There are few lines of merchandise, concerning which the public in general has a smaller degree of what might be called professional or technical knowledge than of shoes.

Therefore you will consider with me these above points, taking the truth of the statements in public print, such as have been gathered in years of public service, in daily contact with shoe customers, accepting the real truth about shoes and the difference between shoes of solid merit and shoes that rank with shoddy cloth in their make-up and material.

SHOE MAN.

Three Breakfasts for One Cent

One-half ounce of CREAM OF BARLEY, when cooked makes one generous, satisfying breakfast portion for a growing child, an office worker, a house-wife, or a hard-working man —COSTS ONE-THIRD OF A CENT.

Cream of Barley

is a new food—the world's best breakfast cereal—and when taken into the stomach, the digestive organs never complain. CREAM OF BARLEY is all nutrition—no waste energy in digestion. Every particle goes to make rich, red blood, bone and muscle —repairing waste and fortifying the body against the ravages of disease, mental strain and over-work.

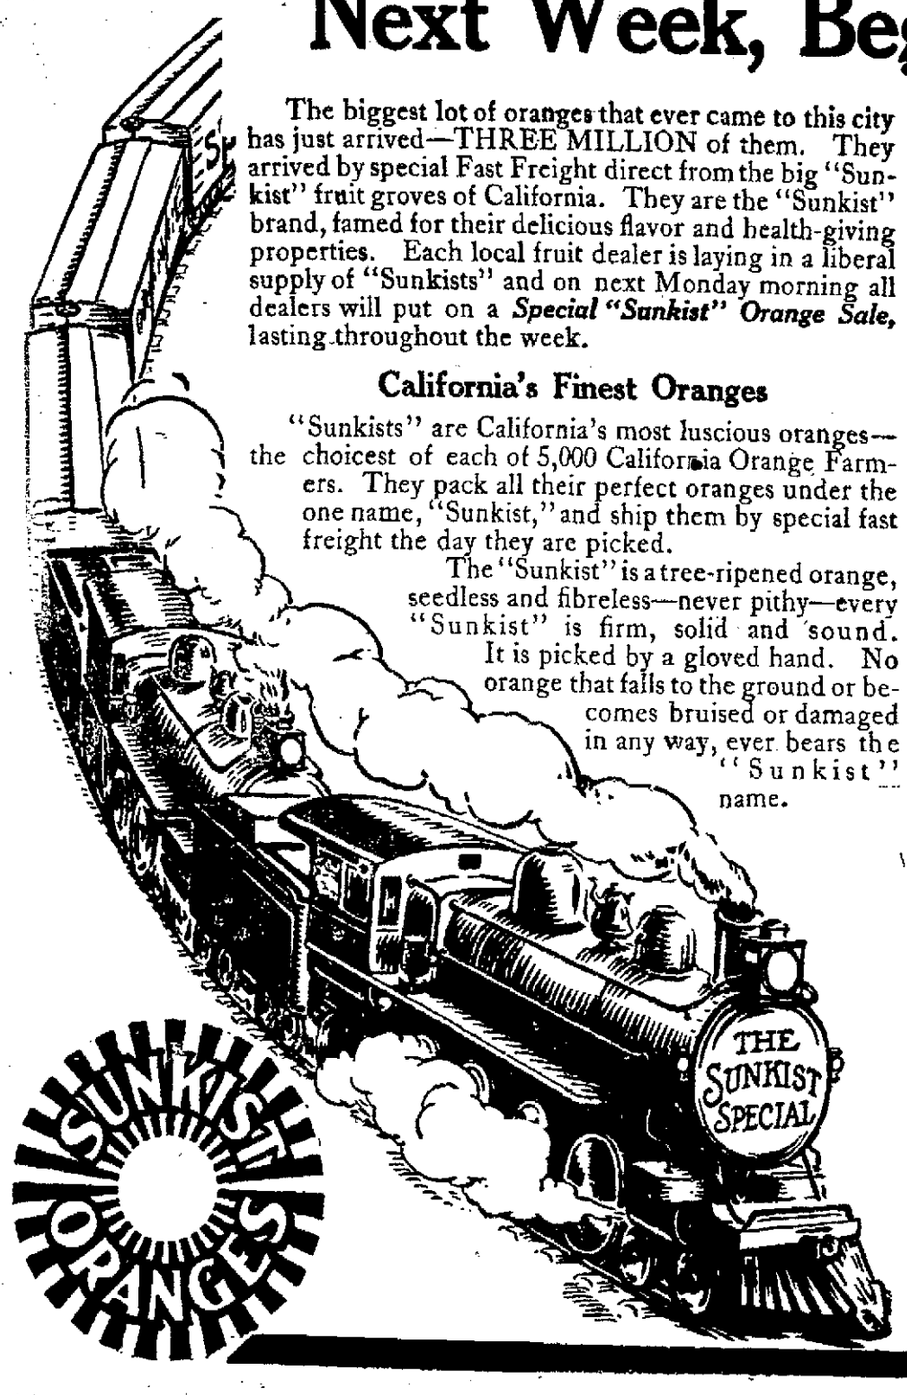
WARNING TO RAILROAD MEN.

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroading. Geo. E. Bell, 639 Third St., Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroading left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement and four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." Dreier Drug Co.

3 MILLION ORANGES HERE

Another Big "SUNKIST" Sale Lasting All Next Week, Begins Monday, Mar. 20



The biggest lot of oranges that ever came to this city has just arrived—THREE MILLION of them. They arrived by special Fast Freight direct from the big "Sunkist" fruit groves of California. They are the "Sunkist" brand, famed for their delicious flavor and health-giving properties. Each local fruit dealer is laying in a liberal supply of "Sunkists" and on next Monday morning all dealers will put on a ***Special "Sunkist" Orange Sale,*** lasting throughout the week.

California's Finest Oranges

"Sunkists" are California's most luscious oranges—the choicest of each of 5,000 California Orange Farmers. They pack all their perfect oranges under the one name, "Sunkist," and ship them by special fast freight the day they are picked.

The "Sunkist" is a tree-ripened orange, seedless and fibreless—never pithy—every "Sunkist" is firm, solid and sound. It is picked by a gloved hand. No orange that falls to the ground or becomes bruised or damaged in any way, ever bears the "Sunkist" name.

How to Serve Them

Oranges are the most appetizing and nourishing food you can serve—at breakfast—in the sick-room—between meals—in salads, ices, sherbets and puddings.

There is no limit to the number of excellent dishes of which "Sunkist" oranges form the basis.

Buy a ***box*** of "Sunkist" oranges and your fruit dealer will make you a special price. You will find no trouble in keeping them as long as you want to, because "Sunkists" reach you in excellent condition.

Physicians Advise Them

Leading physicians say that to counteract the effect of meat and other heavy foods we eat, one should eat oranges liberally. It is a universally known fact that orange juice is an excellent food for the brain cells and a tonic for run down nerves. No better laxative than sound, ripe "Sunkist" oranges can be found.

Cost No More Than Common Oranges

"Sunkist" oranges are cheapest to buy because they are thin-skinned, fibreless and seedless. They are nearly all food and no waste. You lose money if you buy pithy, seedy, thick-skinned oranges.

Free Premiums for "Sunkist" Wrappers

The "Sunkist" orange always comes in a "Sunkist" tissue paper wrapper that protects the oranges and retains all their tree ripened flavor. This name on the wrapper means you are buying, at a reasonable price, the finest orange of all.

"Sunkist" wrappers should be kept and sent to us to secure, free, a set of genuine Rogers Orange Spoons, Dessert Spoons and Fruit Knives. The patterns are new 1911 styles, designed exclusively for us. They are as attractive and stylish as money can buy. All are Rogers quality, standard A-No. 1 plate and are fully guaranteed by the makers, Wm. Rogers & Sons. No advertising appears on any of our premiums.

Read on the right the description of these valuable premiums and how to get them.

"Sunkist" Lemons

The better grade of lemons are now packed in "Sunkist" wrappers. By calling for "Sunkist" lemons, you avoid the kind that are thick-skinned, pithy and insipid. "Sunkist" lemons contain 50 per cent more juice than any other lemons. "Sunkist" lemon wrappers are accepted by our premium department.

The California Fruit Growers' Exchange
34 Clark Street, CHICAGO, ILL.

For Sale by All Dealers

FREE! See the Beautiful Rogers Silver FREE With "SUNKIST" Wrappers

Rogers Orange Spoon Free

The picture shows our new 1911 design, "Sunkist" Orange Spoon, actual size; being a genuine Rogers product and of the latest style. This spoon will be sent you, charges, packing, etc., prepaid, on receipt of 12 "Sunkist" wrappers and 12c. For each additional spoon send 12 "Sunkist" wrappers and 12 cents.

Valuable Dessert Spoon Free

The picture shows our new 1911 design, Dessert Spoon, actual size. It is of the same excellent quality and beautiful design as the orange spoon, but being larger and heavier is more valuable. Sent to you on receipt of 24 "Sunkist" wrappers and 20c additional. For each additional dessert spoon send 24 "Sunkist" wrappers and 20 cents.

This Fruit Knife Free

Our 1911 "Sunkist" Fruit Knife is shown here, actual size. It is made of special tempered steel heavily silver-plated. Fully guaranteed by manufacturers, Wm. Rogers & Son. Sent to you on receipt of 24 "Sunkist" wrappers and 20c. For each additional knife send 24 "Sunkist" wrappers and 20 cents.

Notice!

On all remittances up to 24c please send one-cent stamps, on amounts above 24c, send post office money order, express money order or bank draft. **Do not send cash.** Make your money order or draft payable to The California Fruit Growers' Exchange, and address your letters to The California Fruit Growers' Exchange, 34 Clark Street, Chicago, Ill.

You can secure these premiums with "Sunkist" orange wrappers, "Sunkist" lemon wrappers, "Red Ball" orange wrappers, or "Red Ball" lemon wrappers. If you will make it a point to buy only "Sunkist" and "Red Ball" oranges and lemons, you will not only get the finest fruits that grow, economically priced, but you will soon have enough wrappers to secure a complete set of the beautiful spoons and knives here shown.

FORT WAYNE'S QUICK LUNCH BRIGADE AND HOW IT SATISFIES ITS APPETITE IN A HURRY.

Something About the Daily Rush at the Hurry-Up Food Dispensaries in the Down-Town District and the Steadily Enlarging Crowd of Folk Who Eat in Them One or More Times Daily.

The "Help-Yourself" Places Seem to Have Struck a Popular Chord—What One Can Get With a Little Money—The Restaurant Waiter and Some of the Lingo That is All His Own.

"Give me some of that. What is this? No, I don't want gravy. Raisin bread. Milk, if you please. You will have to wait on yourself. Step lively, ladies. Dressing, too?".

This is the line of talk you will hear if you take the trouble to drop into one of Fort Wayne's cafeteria lunch rooms any time between 11 o'clock in the morning and 8 o'clock at night. If you are not accustomed to this kind of "feeding" you will look disgusted and say, "how inconvenient." But if you are hungry and wise you will grab a platter and get in line.

You may have only twenty cents in your pocket, but that is sufficient if you know enough to stay away from ham omlets and scrambled eggs. Let us see; you may have roast beef, roast pork or baked perch. Nearly everyone takes beef. Then if you will take a step or two you will come to the potato counter. French fried, German fried or mashed? French fried go the best. All kinds of vegetables. Corn is preferred. Coffee and pie. Most people want apple pie, but there seems to be a mighty strong taste for shredded cocoanut.

Well! you have had a sufficient amount of nutriment and you are out just two dimes. If you are in a hurry you will undoubtedly come again for your time is money to you. When you can get enough to eat in thirteen minutes, what is the use of waiting an hour to be served by some waiter who thinks only of the tip he expects you to hand him?

Quick Route in Favor.

Cafeteria and dairy lunches are growing in favor with the eating public every day. Without doubt these eating houses are the most popular of all restaurants in Fort Wayne. In the past few years several of the "help-yourself" resorts have sprung up in the city and they are largely patronized.

Then there is the "quick lunch" type of restaurant to be considered. There are many of these eating houses in the city and the large percentage of them are clean, inviting and free from the usual odors found in such places. A customer can drop into one of the latter restaurants and for a modest sum get an appetizing lunch or dinner served in neat style with much dispatch.

Many of the patrons who visit these restaurants are amused by the signal systems that the waiters use. It may be rather entertaining to some to hear a six-foot, curly headed, fresh-from-the-farm waiter bellow up through the dumb waiter something like the following phrases: "Draw two in the dark," "Hog and hay" and "Adam and Eve on a raft." There is no limit to the number of these slang phrases that are used and the white-aproned men have adopted the style to save time and much unnecessary talk.

When They're Translated.

"Draw one in the dark" is an order for coffee without either cream or sugar. "Chesapeake Bay" is the synonym for an oyster stew. "Adam and Eve on a raft" is the label for two poached eggs on toast, and to "wreck 'em" is to scramble the eggs. "Hog and hay" is the alliterative cognomen for frankfurters and kraut, while "stack of chips" is the other way of indicating an order of cakes. There are many more common phrases used by waiters and there are many phrases that are merely local. Suffice to say Fort Wayne's waiters are right up to the standard with this slang talk.

The quick lunch resorts serve regular lunches at moderate prices, although most of their business comes from card orders. Steaks and oysters are the popular orders in winter and of these the tenderloin steak and oyster stew orders seem most in favor. Cakes and coffee are the regular breakfast orders.

No doubt many people of Fort Wayne wonder what the rest of the people of the city eat. Every one has at least a small bump of curiosity and nothing so delights that bump as to hear some bit of fact concerning what other people do. We like to know what our neighbors' habits are, and what their likes and dislikes are; so, naturally, it will be interesting to know what our friends and enemies eat. Of course it has not been possible to pry open a pantry window and get a secret view of someone's larder, but a few facts have been gleaned from restaurant proprietors of the city.

Meat is the big item in all eating houses. In one of the smaller but popular eating places in the downtown district the meat bill for last week alone was $136. Seven-eighths of the customers who visit the restaurants for lunch or dinner order meat of some kind. Fully half of the lunch customers want roast beef. The close second to beef is roast pork, and the rest of the honors are divided among sausage, fish, steak and frankfurters. The next important item in the bill of fare is potatoes. Everyone wants potatoes with his meat and of course there has to be different ways of serving the "murphies." French fried potatoes are favorites. Mashed and German frys split the honors for second place and browned potatoes are eaten by a few. Nearly all patrons like corn bread and stewed corn, so naturally these edibles are extremely popular. Apple pie is the best seller. Ninety per cent. of the customers drink coffee. For breakfast nearly everyone takes toast or rolls and coffee and the majority of those who want fried eggs want them "over"—that is, fried on both sides.

Of course the high class restaurants and hotel dining rooms do not deal so much in this plebian eating stuff, but anyone who has the money to spend and the time to do so can go into one of our up-to-date cafes and have the finest kind of a lunch or dinner served to any tune from "Has Anyone Here Seen Kelly?" to "Selections from Il Trovatore." The better cafes all serve a business men's lunch at twenty-five to thirty-five cents, but the dinners are all a la carte and a nice "feed" of steak, potatoes and dessert, will tax your purse for at least a dollar. The hotels serve a regular dinner at seventy-five cents to a dollar and these dinners are first-class in all respects. There are one or two clubs in the city that serve meals to their members, but these, of course, cannot be considered public restaurants.

Just a Word to The Front Row

If every man and every woman would begin now to use Newbro's Herpicide and teach the children to use it, the front row of the next generation would not be bald headed and none of the ladies would be wearing false hair.

Falling hair means trouble. The dandruff germ is there and will in a short time ruin the best head of hair that ever grew.

Too many people, finding they need a hair remedy, allow themselves to be duped into buying and using something said to be just as good or very much like Newbro's Herpicide.

Why do it? Such a remedy is but an imitation, a substitute. Herpicide is the original dandruff germ destroyer.

Insist on having genuine Herpicide and take nothing else.

Newbro's Herpicide
Saves the Hair

The results from the very beginning are often astonishing. The hair will cease to fall and instead of being dull and dead takes on the sparkle and luxuriance of true hair beauty.

Herpicide possesses a delicate fragrance which appeals strongly to persons of taste and refinement.

The Herpicide Co., Dept. 10B, Detroit, Mich., will send a nice sample and booklet to any address upon receipt of ten cents in stamps or silver.

One dollar bottles are sold and guaranteed by all druggists. Applications may be had at the better barber shops and hair dressers.

SHOOTING WAS GENERAL.

When Smoke Lifted Man Who Started It, With Wife, Was Dead.

Pennington, N. J. March 18.—A shooting affair in an Italian boarding house here wound up in the death of the proprietor and his wife and the serious, if not fatal, wounding of three of the boarders. The proprietor, Andrew De Ignazio, accused some of the boarders of stealing his money and started to clear the place with a revolver. He shot at everybody within range, witnesses say, and there was a general exodus.

When the police arrived they found four boarders wounded and the proprietor and his wife were dead. It is the supposition that De Ignazio, realizing that he had shot some of the boarders, killed his wife and then himself.

FORCED TO LEAVE HOME.

Every year a large number of poor sufferers, whose lungs are sore and racked with coughs, are urged to go to another climate. But this is costly and not always sure. There's a better way. Let Dr. King's New Discovery cure you at home. "It cured me of lung trouble," writes W. R. Nelson, of Calamine, Ark., "when all else failed and I gained 47 pounds in weight. Its surely the king of all cough and lung cures." Thousands owe their lives and health to it. It's positively guaranteed for Coughs, Colds, La-Grippe, Asthma, Croup—all Throat and Lung troubles. 50c and $1.00. Trial bottle free at all druggists.

TRAINMAN DID NOT DIE.

Kendallville, Ind., March 18.—Advices received in this city are to the effect that Sylvester Jones, who met with an accident in the Lake Shore yards here last Sunday and sustained a fracture of the skull in falling head first off a car, did not die. Dr. J. L. Gilbert has heard that the young man is at the Lake Shore hospital in Toledo and everything now points to his recovery.

A SPECIAL MEDICINE FOR KIDNEY AILMENTS.

—o—

Many elderly people have found in Foley's Kidney Remedy a quick relief and permanent benefit from kidney and bladder ailments and from annoying urinary irregularities due to advancing years. Isaac N. Regan, Farmer, Mo., says: "Foley's Kidney Remedy effected a complete cure in my case and I want others to know of it." Dreier Drug Co.

A COLD, LAGRIPPE, THEN PNEUMONIA

—o—

Is too often the fatal sequence. Foley's Honey and Tar expels the cold, checks the lagrippe, and prevents pneumonia. It is a prompt and reliable cough medicine that contains no narcotics. "Foley's Honey and Tar is the best cough remedy I ever used as it quickly stopped a severe cough that had long troubled me," says J. W. Kuhn, Princeton, Neb. Just so quickly and surely it acts in all cases of coughs, colds, lagrippe and lung trouble. It is as safe for your children as yourself, and should be used in all cases of croup, whooping cough and measles cough. Refuse substitutes. Dreier Drug Co.

REDECORATING THE OFFICES.

Painter Boss Joe Hale, of the Nickel Plate, who resides in Fostoria, is here with some assistants repainting and redecorating the division offices. They are at work in Trainmasters E. S. Kirby and Harry Williams' offices at present, but will soon reach the offices of Supt. S. K. Blair in the second story of the building.

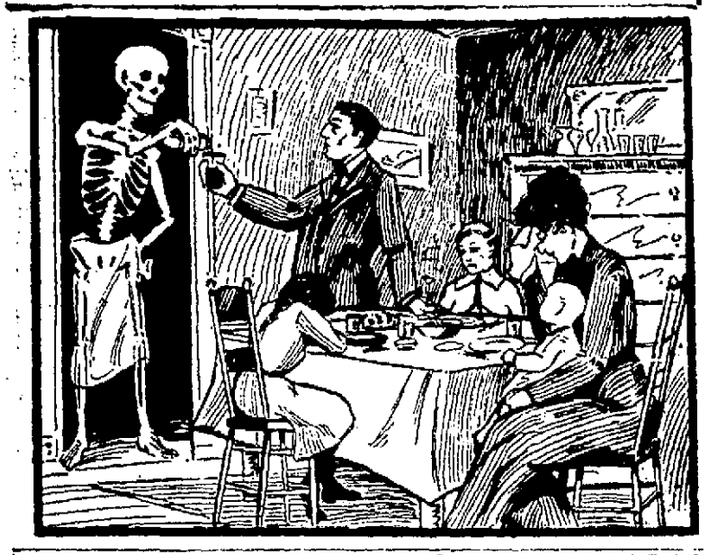
OUR TEMPERANCE DEPARTMENT



A PRISON CHAPLAIN'S COUNSEL.

According to the Literary Digest every man discharged from the U. S. military prison at Fort Leavenworth, Kan., receives from the chaplain a leaflet containing practical advice. In fact, the leaflet embodies so much that can be helpful to any blighted life that we want others to see it. We give part of it:

"You stand at the vergency of two ways. The path to the right leads—to success; that at the left—to failure. If you let your footsteps be along the roadway at your right, you will have no regrets in after years. The person who is capable of making good resolutions is the one in whom is all the potentiality of true manhood. In the years to come, the possibility will be yours to look back through the vista of life and behold a white stone with the letters U. S. M. P. engraved upon it if, in your heart, you can admit that from it you began to appreciate the real value of character.

"You go out of prison, I trust, filled with the best of resolutions. These resolutions are embodied in the determination, with God's help, to keep away from liquor, bad women and evil associations in general. All the liquor dealers whom you have patronized before coming here—all the bad women whose smiles and companionship delighted you in the past have not moved one finger in the endeavor to secure clemency for you or to make prison life less unpleasant by the encouraging letter. This ought to show you how empty is the admiration, how shallow the friendship of this class of individuals. I trust you will not, like a dog, return to its vomit. If experience has taught you that you cannot control your appetite for liquor, you owe to yourself and society to continue to abstain from it in the future. Only misery follows in the wake of its use.

"As regards women, there are plenty of good women in this world who will be glad to make your acquaintance, and one of them be your companion for life, provided you show character. . . .

"Peace of mind can be bought only at a cost of self-denial. Never was a victory won without a battle, never was success attained in any walk of life without the price of self-denial to a lesser or greater degree. So it will be with you. Your self-denial must begin in Kansas City or the first place you have to stop awaiting train connections. The temptation to 'whoop it up' in celebration of your discharge from prison will be the first evil you have to wrestle with. This will be embodied in the desire for drink. In the name of God, my dear man, think of your good resolutions, put your back to the swell of the temptation and do not allow it to carry you its way. Happiness will be yours the next day in the thought that you have come out victorious in your first fight. The realization of this will give you an appetites for still greater victories, and so, day by day, if you but fight, you cannot help but reach the heights of success.

"On the other hand, if you betake yourself along the path to the left, only failure and misery will be the outcome. Not being shielded with the armor of self-denial, you will eventually fall a prey to remorse of conscience, which is almost incurable and generally ends in a suicide's grave. At forty or fifty years of age you will find yourself a degenerate, panhandler, or pauper. Nobody will have any use for you. In order to satiate your appetite for liquor or to give free reign to your passions, you will sin against the laws of the state and sooner or later enter again within prison walls.

"Peruse these few lines, my dear man; let them be food for thought for you and endeavor to profit by a reflection on them. May the choicest of God's blessings be yours in life; may you, in after life, in the sweet atmosphere of a home, be able to say that you have truly profited from the chaplain's parting words. There is nothing truly substantial in life but character. The acquiring of it is surely worth the candle of self-denial."

CERTAIN RESULTS

Many a Fort Wayne Citizen Knows How Sure They Are.

Nothing uncertain about the work of Doan's Kidney Pills in Fort Wayne. There is plenty of positive proof of this in the testimony of citizens. Such evidence should convince the most skeptical doubter. Read the following statement:

Mrs. C. Shoemaker, 134 Baker St., Fort Wayne, Ind., says: "Kidney trouble caused me great suffering. I had pains across my back, was very dizzy at times and often arose in the morning feeling all worn out. I decided to try Doan's Kidney Pills after reading of their good work in similar cases and I procured a box at Meyer Bros. Co.'s drug store. This remedy acted effectively and I now keep a supply in the house. I know that Doan's Kidney Pills can be relied upon to bring relief from kidney trouble." (Statement given December 2, 1908.)

A LASTING EFFECT.

When Mrs. Shoemaker was interviewed on July 2, 1910, she said: "I am glad to confirm my former endorsement of Doan's Kidney Pills. The cure they effected in my case has been permanent."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name — Doan's — and take no other.

A New Departure in FLY SCREENS

Temperance Notes.

Life insurance companies state that teetotalers, as a class, live from 20 to 50 per cent. longer than moderate drinkers.

"No license" cities of Massachusetts have no higher tax rates than their licensed cities and spend 40 per cent. more for education, 25 per cent. more for streets, have increased production 80 per cent. faster, have increased in population 90 per cent. faster and in taxable property 67 per cent. more than licensed cities.

Luxury is to be taxed, but vice prohibited.

The liquor men say they greatly prefer having the liquor question settled in committee, as they could "not trust the people to vote on the question."

A Revenue That Costs.

Saloon revenue is always a financial loss to the community. The loss of saloon revenue is always a financial profit to the community. Aside from the present injury and eternal perdition of the individual, the misery of the home, and the curse entailed on the children, the community loses through the saloons in dollars and cents ten times all that it ever pays in to bribe a deceived people to permit it to proceed with its murder and highway robbery.

What Temperance Brings.

More of good than we can tell;
More to buy with, more to sell;
More of comfort, less of care;
More to eat and more to wear;
Happier homes and faces brighter;
All our burdens rendered lighter;
Conscience clean and minds much stronger;
Debts much shorter, purses longer;
Hopes that drive away all sorrow,
And something laid up for tomorrow.
—American Issue.

LIVE A LITTLE.

Give a little, live a little, try a little mirth;
Sing a little, bring a little happiness to earth;
Smile a little, while a little idleness away;
Care a little, share a little of your holiday.

Play a little, pray a little, be a little glad;
Rest a little, just a little if a heart is sad;
Spend a little, send a little to another's door—
Give a little, live a little love a little more!

—Douglas Malloch.

HENRY CLAY THE SINNER.

That is a striking and beautiful story told about Henry Clay in the Homiletic Review. The great Kentuckian used to go often to attend Sunday services at a little country church near Washington. When asked by some of his colleagues why he went so far to hear that plain country preacher, instead of the more gifted and scholarly ministers in the nation's capital, the "Great Pacificator," said:

"Ah, these Washington pastors preach too much to 'Henry Clay, the senator.' I love to go out to that little country church, because the pastor preaches to 'Henry Clay, the sinner.'"

Verily, the gospel for which the world hungers, all the time, and everywhere, knows no difference between staesmen and stagedrivers, hod-carriers and millionaires. Sin and salvation—that doctrine alone reaches the hearts of sinful men.

God should be our guids and leader for the new year. The ark of the covenant, which typified God, went before the Israelites, and they followed it as their guide. "God first" should be our motto, not only for tdoay, but for every day throughout the year. We have never passed through this year before, and we never shall again. We do not know what lies one step before us. But God knows it all, and if we let Him guide us in Christ and through the Scriptures, we shall be well and safely guided. No one and nothing else can lead us, for no one else knows what a day or an hour may bring forth.—S. H. Doyle.

Give it a chance, Mr. Dealer, and it will make good—Univoco, 10c straight.

THE SALOON IS CALLED A BAR.

A bar to heaven,
A door to hell,
Whover named it named it well.
A bar to manliness and wealth,
A door to want and broken health.
A bar to honor, pride and fame,
A door to sin and grief and shame.
A bar to hope, a bar to prayer,
A door to darkness and despair.
A bar to honored, useful life,
A door to brawling, senseless strife.
A bar to all that's true and brave,
A door to every drunkard's grave.
A bar to joy that home imparts,
A door to tears and breaking hearts.
A bar to heaven,
A door to hell,
Whover named it named it well.

NOT A WORD OF SCANDAL

Marred the call of a neighbor on Mrs. W. P. Spangh, of Manville, Wyo., who said: "She told me Dr. King's New Life Pills had cured her of obstinate kidney trouble and made her feel like a new woman." Easy, but sure remedy for stomach, liver and kidney troubles. Only 25c at all druggists.

WHAT IT DOES.

What does the saloon do for its patron in opening or closing doors of opportunity? The United States department of labor, using percentages based upon several thousand reports, found that 90 per cent. of railways, 79 per cent. of manufacturers, 88 per cent. of trades, and 72 per cent. of agriculturists discriminate against employes addicted to the use of intoxicants as a beverage. The patron of a saloon may drive a garbage wagon or get a steady job as a doorkeeper of a dance hall, but he cannot drive a locomotive or secure employment as a paying teller in the bank. He may clean out cuspidors in a barroom and sweep up refuse on the street, but he cannot be trusted to run a stationary engine, drive a passenger omnibus, fire a boiler, amputate a leg, administer medicine, fill a prescription, keep a set of books, try an important case, manage a business corporation, or do any other work demanding a clear head and a steady hand. The saloon which takes its patron's money double-crosses him for disappointment and failure in the race of life.—Dr. Samuel Dickey.

A Part of the Price.

The reports of the state institutions for the insane in New York present some startling facts in regard to the proportionate increase of insanity in that license-laden state and the proportion of the inmates of the state institutions who owe their condition to the use of alcoholic beverages.

Doctor Albert Warren Ferris, president of the state commission in lunacy, in a recent statement declare that "The greatest cause of insanity is the use of alcoholic beverages," citing the fact that of 961 cases in the state institutions, 55 per cent. of the men and 22 per cent. of the women are there as a result of the drink traffic.

During the past ten years the population of New York state has increased 17.6 per cent., while the number of known insane has increased 103.9 per cent.

It is not strange that the growth of the number of insane has been so marked when it is borne in mind that the state of New York has more than 30,000 liquor dispensers: that there are more saloons in the city of New York than are to be found in all of thirty states in the union outside of New York, and that in the states of New York and Pennsylvania, with a population of almost 16,000,000, there was thirty times as much fermented liquors withdrawn for consumption in 1910 as in all the prohibition states, with about the same population.

When the people of New York and other states come to know the real cost of the liquor traffic to the government, the license fee which that traffic pays for the privilege of debauching and debasing the citizenship of every license state will fade into insignificance in contrast.

Personal Liberty.

"Personal liberty" is a precious heritage and a priceless possession. But its meaning is often obscured, and its application to life is misunderstood by man who confuse it with "license to do as one pleases." All liberty is limited by law. No man can rightfully do that which injures another's rights.—Christian Observer.

Better Off Without Alcohol.

In an address in New York, last week, Dr. H. W. Wiley, chief chemist of the department of agriculture of the United States, declared: "We would all be better off in this country if we had no alcohol. We can do without it, and I'd like to see universal prohibition. Even the German emperor agrees with me on that point. It is fortunate for him that his office is not an elective one. It would be the best thing for us if we would close up every brewery and distillery in this country. Alcohol is one of the drugs—only one—that's sapping the life of our citizens." Following him, Health Commissioner Porter said: "I believe that if every bar and saloon in this country were abolished, this afternoon, we would be a stronger and better people. Alcohol has never done anyone any good." These expressions mean much, coming from such men as Drs. Wiley and Porter. They mean that science is joining with religion and with business in declaring that the liquor traffic must go.

My Lungs "I have coughed and coughed until my lungs are sore and weak." Go at once to your doctor. Do not delay another hour. Ask him all about Ayer's Cherry Pectoral. Then take it or not, as he says. J. C. Ayer Co., Lowell, Mass.

L. O. HULL WALL PAPER

Wholesale and Retail

IMMENSE line to choose from; sure to please you. The lowest prices, as you can buy at retail, of the only wholesale house in Fort Wayne. We can sell you wall paper, at the same price the retailer has to pay for it, as it is a side issue, in one corner of most stores, while we sell nothing but wall paper, in a store building 20 by 110 feet, 4 stories and basement. The people of Fort Wayne have been making a beaten path to our door for the last 34 years, Why? Because we sold better wall paper than others at the same price, or, the same quality at a lower price. We are still doing it and ask you to help continue this path to the door of our new location.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., March 18.—Wheat today scored an advance after a little show of weakness at the start. A generous buying for a couple of prominent houses furnished the chance for the market to recover. Offerings were not large till there had been a substantial rise. Then selling became quite free. Less favorable crop reports from the southwest appeared to be back of the purchases that gave a lift to quotations whereas signs that world's shipments would be large had much to do with the easy tone which was noticeable at first. The opening was a shade to ¼@⅜c lower. Trading in May delivery began at 90⅜c to 90⅛@90⅜c, a loss of a sixteenth to ⅛c and rallied to 90¼@90⅞c.

Strengthening corn helped wheat. The close was steady with May at 91¼c, a net gain of ⅝c.

With weather fine for work in the fields, farmers were said to be not delivering much corn at stations. Small receipts gave bulls more confidence. May opened the same as last night to a shade higher, at 49⅜c to 49⅝@49½c, and ascended to 49¾@49¾c.

Shorts covered in lively fashion. The close was steady with May corn ⅜@⅝c up, at 49⅝@49¾c.

Oats were firm, sympathizing with other grains. May started unchanged to a shade off, at 31¼@31⅜c to 31⅜c and went up to 31½c.

A big run of hogs lowered provisions all around. First sales were at last night's level to 7½c down, with May options at $17.80 for pork, $8.92½ to $8.93 for lard, and $9.35 for ribs.

OIL.

Toledo Market.

Toledo, O., March 18.—North Lima, 82c; South Lima and Indiana, 77c.

STOCKS AND BONDS.

The Day on Wall Street.

New York, March 18.—Some heaviness was shown at the opening of the stock market today. Missouri Pacific declined to 51⅝ and Great Northern preferred and Northern Pacific lost ½, and Reading and National Lead ⅜. Minneapolis, St. Paul & Sault Ste Marie gained ¾.

Bear operators uncovered stop loss orders in Missouri Pacific and the execution of these sent it down to 49¾, a loss of 1⅝. Supporting orders and covering of shorts caused a rally to 50¾, but it was ruling around 50 again at 11 o'clock. The general market followed the course of Missouri Pacific to only a slight extent. Great Northern gave way a point.

The marke closed strong. A mixture of short covering and buying orders wiped out practicaly all early losses and many material gains were scored. Union Pacific, United States Steel and New York Central making gains of a point or more with complete recovery in Missouri Pacific, which was the most active feature of the day. Substantial gains were made by National Biscuit, American Agricultural Chemical and American Woolen.

Baby's Voice

Every woman's heart thrills at the cooing and prattling of a baby, and motherhood is her highest and purest joy. Yet the suffering incident to this great consummation of her life's desire, robs the anticipation of some of its sweetness. Most of this can be avoided by the use of Mother's Friend. This great remedy prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. Mother's Friend assists nature in gradually expanding all tissues, muscles and tendons, it strengthens the ligaments, keeps the breasts in good condition, and brings the woman to the crisis in healthful physical condition. The regular use of Mother's Friend lessens the pain when baby comes, and assures a quick and natural recovery for the mother. For sale at drug stores. Write for free book for expectant mothers.

VOTE FOR QUEEN TO START SOON

Many Committees on Plans for the Elks' Mardi Gras.

NEW FLOATS BUILT

Popular voting for the selection of a queen for the Elks' convention and mardi gras to be held May 24, 25 and 26, will begin next week, when coupon ballots will appear daily in all the city newspapers. These are to be clipped out, filled in with the name of your favorite candidate for queenly honors and mailed to the committee at the Elks' temple. The public is to make the selection and there is but one restriction—the candidate must be a member of an Elk's family—the wife, daughter or sister of some member of Fort Wayne lodge No. 155. The queen's costume, a gorgeous creation, will be supplied by the lodge, as will also the costumes to be worn by her eight ladies in waiting, who are to be selected by the queen herself.

Building New Floats.

Half a score of committees are busy upon preparations for the big may festival, and included in the activities is the building of two very elaborate special floats to supplement the mardi gras cars purchased from the Shriners. The first of these new floats will be the queen's car, and it will beb known as the American float. Another new float will depict Elkdom, and the central figure upon it will be an immense elk of plaster built upon an iron frame. No expense will be spared upon either of these new floats.

Among the added attractions will be a day parade of decorated autos, for which three cas hprizes will be given, and there will also be a band contest for cash prizes, with the Fort Wayne bands, of course, barred from the competition.

Mardi Gras night will be Friday—the last evening of the festival, and following the parade the Elks will invite the general public to join it in the mardi gras festivities in costume and en masque. This ought to produce an endless round of fun, but care will be taken to avoid all rowdyism, and fifty or more Elks will be sworn in as special officers to aid the police in restraining those who attempt to overstep due bounds. Altogether the May festival and mardi gras of the Elks promises to be the biggest event of its kind Indiana has ever seen.

MAN DIES; CATTLE PERISH.

Big Fire in Chicago Stockyards Kills 300 Head of Stock.

Chicago, March 18.—One man was killed and 300 head of cattle were burned to death today in a fire which destroyed a square of the huge network of pens in the Union stockyards here. The body of the man, trapped by the flames, was found in the wreckage of a viaduct that fell among the perishing beasts below. A number of firemen narrowly escaped being crushed when the structure fell. Various commission firms owned the cattle destroyed. Loss, $25,000.

ITCHING IRRITATION

Worst Form of Skin Trouble Quickly Cured by Inexpensive Treatment.

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting greasy ointment. Try Hokara, a pure and simple skin food, that is guaranteed to contain no grease or acids and which is so cleanly that it does not soil the linen.

Its power to instantly relieve any irritation of the skin and make it soft, white and beautiful is almost miraculous.

Not only are minor skin troubles like pimples, blackheads, acne, barber's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are cleansed and healed by this wonderful skin food.

In order that any one may try Hokara at small expense, Meyer Bros Co. are selling a liberal sized jar at 25c and in addition guarantee to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

CHANGE IN FIRM

LOCAL MEN PURCHASE STOCK IN THE BESSE JEWELRY CO.

A deal was consummated this week whereby the stock in the Besse Jewelry Co., formerly held in part by outside capital, was purchased by Frank J. Walsh, S. J. Walsh and Frank Besse, of this city.

All are well known and popular young men of this city. Frank J. Walsh having been with the Besse Jewelry Co. since its start, as watchmaker and engraver, and S. J. Walsh is employed as bookkeeper at the Eckart Packing Co.

Mr. Frank Besse, who opened the Besse jewelry store in this city five years ago, is one of Fort Wayne's progressive business men and has built up a prosperous business. Mr. Besse states that a number of improvements will be made in interior of the store, consisting of new furniture and wall cases. The officers of the new firm are:

Frank Besse, President.
Frank J. Walsh, Vice President.
S. J. Walsh, Secretary and Treasurer.

CITY BREVITIES.

Colonel D. N. Foster, who was operated on for hernia at Hope hospital the first of the year, was at his store Friday for the first time since undergoing the ordeal.

Attorney Frank Emrick was at Celina, Ohio, Friday, appearing in a suit involving the ownership of a tract of real estate.

Mrs. Mary Uirey, of North Manchester, was in the city Friday visiting her son, Chief of Police Dayton Abbott.

A. J. Stauffer, an Aboite township farmer, whose farm is near the Friendship church, suffered the loss of a large straw stack by fire Thursday, and had it not been for the timely assistance of neighbors his barn, near which the straw stack was located, would have been destroyed by the flames.

John H. Immel, of the Hanna-Brackenridge company, is in Chicago on business for the firm.

William Dolph and his sister, Miss Clara Barnes, were called to Flint, Mich., Friday on account of the sudden illness of their mother, Mrs. Elsie Dolph.

Walter Burns, the son of Mr. and Mrs. W. G. Burns, who has been seriously ill for the last few weeks and confined to his room, was able to sit up Friday for the first time. It will be some days before he will be able to resume his studies at school.

It looks good. It tastes good. Al Hazzard's "A Novel Cigar."

NOTICE

30 acres near Park interurban and 4 miles from the court house; $4,500 in buildings; good sandy loam dirt. Farm can be bought for much less than it is worth. We are also offering 80 acres in the same location. If interested act at once, as both of these tracts will sell within a few days.

Remember, we have other suburban properties and all kinds of city properties that are bargains.

MONROE W. FITCH & SONS.
Both Phones. Opposite P. O.

We want to make the year 1911 the banner year for sales in all our history. Our friends can help us do this by sending their friends to us to trade. We shall appreciate it.

When You Buy a Saw

Buy a Good One

A poor tool is a poor bargain at any price. It won't do the work. For only a little more than you pay for a cheap saw you could buy an

ATKINS SILVER STEEL SAW

Here's a saw that won't make you mad when you use it. You'll find it sharp, easy running and fast cutting.

Made of SILVER STEEL—better steel than you'll find in most razors. The blade is so tapered that it doesn't bind in the wood.

That's the kind of a tool you want and it costs, as a rule, only a little more than the "bargain" kind.

Come in and see our line of really good tools.

It's one of our hobbies.
